Economics Of Soviet Planning:

The Economics of Soviet Planning Abram Bergson, 1980 The Future of the Soviet Economic Planning System (Routledge Revivals) David A. Dyker, 2013-09-27 On its publication in 1985 this book offered a fresh analysis of the problems faced by the Soviet economy by focussing on the key issues in the economic planning system David Dyker considers the available options for reform during the 1980s and the most likely developments Discussing the origins of the Soviet economic planning system and the theories which founded it previous attempts to reform the organisational structure and the particular problem of agriculture Dyker presents a picture of an increasingly bleak future for the Soviet economy This is a comprehensive title written by a renowned expert on the Soviet economy which will be of particular value to students and academics researching the political and economic development and history of the Soviet Union Soviet and Post-Soviet Economic Structure and Performance Paul R. Gregory, Robert C. Stuart, 1994 This text has been updated to focus on the radical changes which the former Soviet Union has recently experienced its reorganization and its transition from a planned to market economy examining the history of the Soviet Union more succinctly than in previous editions *Planning in the Soviet Union* Philippe J. Bernard, 2013-10-22 Planning in the Soviet Union compiles the result of M Bernard's two month visit to the USSR in 1961 for the purpose of investigating regional planning on behalf of the French Government Planning Office This compilation deals with the Soviet planning apparatus including its organization and administration together with the reforms that have been at work since 1957 furnishing a broad outline of the many economic and social problems forming the essence of Soviet thinking and planning This book provides a very clear picture of the complexity of problems involved particularly with the USSR government battling with the concepts of centralization decentralization and in industry between a vertical and horizontal structure The topics that include economic growth investment location of industry transport manpower use of available local resources and migration are discussed only in broad outline of the magnitude of problems in the Soviet economic system The efficiency of investments choice of criteria problem of priorities productivity in highly integrated units rationalization specialization and cooperation are also deliberated in this selection This publication is intended for the average informed reader particularly those who are interested in administering the planning apparatus in the near future *Soviet Economy and the War bound with Soviet Planning and Labour* Maurice Dobb, 2012-03-22 In Soviet Economy and the War the author presents a concise factual record of Soviet economic developments during a short period This book outlines the economic planning and performance that accompanied the military training and preparation to meet the onset of Nazism To some extent complementary to Dobb's Soviet Economy the War the author offers detailed studies of a few special aspects of the Soviet Economic System **Restructuring the Soviet Economy** David A. Dyker, 2002-01-31 Restructuring the Soviet Economy examines the Soviet leadership's most urgent question how to revitalize the soviet economy David Dyker argues that the current impasse can only be understood in the context of the failure of 60 years of

central planning He analyses both the problems besetting the centrally planned system and those that have paralysed perestroika and assesses whether the most ambitious attempt ever to reform the Soviet economy will succeed **The Myth of the Plan** Peter Rutland,1985 **Soviet Economic Structure and Performance** Paul R. Gregory,Robert C. Stuart,1990

Revival: Economic Planning in Soviet Russia (1935) F. A Hayek,Boris Brutzkus,2018-12-20 The ideas set forth in these pages matured in the authors mind during the early years of constructive communism in Petrograd The communist government intoxicated by its successes in the counter revolution had promised to deal promptly with all economic problems now that its hands were free to do so It was at this moment of its greatest triumphs that the author put forward his contention that the system of Marxian communism as then conceived was intrinsically unsound and must inevitably break down *Soviet-type Economic Systems* Z. Edward O'Relley,1978 Planning in the Soviet Union Judith Pallot,Denis J. B. Shaw,2021-12-24 Originally published in 1981 and based on the authors own research this book provides a comprehensive review of planning in the Soviet Union up until the early 1980s for both geographers and Soviet specialists Planning was particularly important in the Soviet Union since not only most spatial change but all economic planning was the product of a systematic socio political ideology Planning was therefore the key to understanding the Soviet economy society and spatial change When it was first published this was the first study in which the focus had been directed specifically at spatial planning in the Soviet Union in any systematic way **Soviet Planning in Peace and War, 1938-1945** Mark Harrison,1985-08-29 An assessment of war s impact on the Stalinist system of economic planning and management *The Development of the Soviet Economic System* Alexander Baykov,1947 Study of the development of the collective economy system in the USSR with particular reference to economic planning experience during the period from 1917 to 1939 covers economic policy economic development extensive industrialization rural cooperative and state farms labour force problems the marketing of consumer goods reconstruction of the trade network changes in the economic structure national budgeting etc Bibliography pp 480 to 495 and statistical tables **Soviet Planning** Naum Jasny,1964 Series of articles on USSR national planning Includes the planning of urbanization the role of the state bank the theoretic basis on comparisons welfare criteria and economic aid to and trade with developing countries to further their economic development Bibliography at the end of each article Festschrift jasny n **Soviet Planning Today** Michael Ellman,1971 **Planning for Economic Growth in the Soviet Union, 1918-1932** Eugène Zaleski,1971 *The Economics of Soviet Planning* Edward Ames,Institute for Research in the Behavioral, Economic and Management Sciences,1965 **The Economic Planning in the Soviet Union** Maxwell Graduate School of Citizenship and Public Affairs,1962 *Socialism and the Market: Economic planning in Soviet Russia* Peter J. Boettke,2000 *Planning Reforms in the Soviet Union, 1962-1966* Eugène Zaleski,1967 Study of economic administration and economic planning reform in the USSR during the period from 1962 to 1966 examines administrative aspects and recent administrative changes in the structure of public enterprises and describes the

government and political party apparatus involved in planning and recent efforts in regard to decentralization References
