French Trade in Istanbul in the Eighteenth Century Edhem Eldem,2023-08-28 This work deals with French trade in Istanbul in the eighteenth century using French and Ottoman sources and integrating the political and social dimensions of the question It also sheds light on the financial dimension of trade particularly that of bills of exchange and monetary trade linking Istanbul to other Ottoman cities and to European financial centers Finally it tackles the issue of western economic penetration arguing that despite some signs of domination French control over the market was efficiently opposed by local actors that economic integration with the West was often realized on equal terms and that much of the domination witnessed toward the end of the century was in fact the result of French diplomatic leverage and of the gradual estrangement of non Muslim traders from the Ottoman commonwealth

Meridians of Salt Paul N. Eubanks,Ashley A. Dumas,Heather McKillop,Marius Alexianu,2025-09-26 This book explores the relationship between salt sodium chloride and the development of human societies from a cross cultural and global perspective Although it is not possible to discuss the importance of salt to all ancient and modern societies the geographically and temporally diverse examples highlighted here are used to examine a series of related topics critical to understanding the economic political social and religious impacts of salt through space and time These topics include among others the techniques used to produce salt the individuals responsible for its production its cultural uses and applications its role in cross cultural exchange and the impact of its circumscribed distribution on

settlement patterns and developing complexity In exploring these topics the chapter authors rely on archaeological data to craft their interpretations however as salt itself is largely invisible in the archaeological record other avenues of investigation such as ethnoarchaeology ethnohistory and experimental archaeology are necessary to gain a more complete understanding of this mineral s influence on the development of human cultures Each chapter includes a summary of seminal research within a particular geographic region along with a discussion of recent or on going projects from that area This volume is intended for a professional audience but university students and graduates and readers with an interest in anthropology archaeology ethnoarchaeology or history will find the chapters comprehensible and informative **Paris to New York**

Véronique Pouillard,2021-05-04 Paris to New York shows how competition and cooperation between transatlantic designers and entrepreneurs built the groundwork of today s international fashion industry V ronique Pouillard tells the story of the fashion business as a negotiation between art and commerce and explores the complex relationship between these iconic fashion centers **Handbook of Caribbean Economies** Robert E. Looney,2020-11-10 This volume aims to illustrate the uniqueness of the economies of the countries and territories of the Caribbean as well as the similarities they share with other regions While most countries in the region share many of the characteristics of middle income countries theirs is a matter of extremes Their generally small size suggests a fragility not found elsewhere While much of the world is beginning to feel

some effects of climate change the Caribbean is ground zero These factors suggest a difficult road ahead but the chapters presented in this volume aim to help to spur the search for creative solutions to the region s problems The chapters written by expert contributors examine the Caribbean economies from several perspectives Many break new ground in questioning past policy mindsets while developing new approaches to many of the traditional constraints limiting growth in the region The volume is organized in four sections Part I examines commonalities including issues surrounding small economies tourism climate change and energy security Part II looks at obstacles to sustained progress for example debt natural disasters and crime In Part III chapters consider the specific role of external influences including the USA and the European Union the People s Republic of China as well as regional co operation The volume concludes in Part IV with country case studies intended to provide a sense of the diversity that runs through the region **Sciences économiques et sociales, 1re ES** Marc Montoussé,2005 *Bulletin de la Société d'économie politique* Société d'économie politique (Paris, France),1912 **Bibliographie de la France** ,1886 Modern France Malcolm Cook,Grace Davie,1999 Modern France is an up to date and accessible introduction to the nature of French society at the end of the twentieth century The book examines the transition of France and French life as the nation moves from an industrial to a post industrial economy and the cultural and social dislocations that such an evoluion implies Sociological concepts and categories of class race gender age and region are discussed as well as how they combine together to produce inequalities and identities These concepts are then applied to a range of issues such as work politics education health religion and leisure Modern France reveals the

nature of French society at a critical moment in her evolution and how a member of the European Union reflects distinctiveness and commonality in the development of Europe as a whole *La France des marges* Samuel
