Koinonia and the Quest for an Ecumenical Ecclesiology Lorelei F. Fuchs, 2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communiality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought *Koinonia and the Quest for an Ecumenical Ecclesiology* provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe *Encyclopedia of Christianity in the United States* George Thomas Kurian, Mark A. **Ecumenical Future** Braaten, Robert W. Jenson, 2004-01-15 Last year a group of sixteen theologians from various church traditions published *In One Body through the Cross* a landmark statement on the present state and future possibilities of modern ecumenism In order to help readers understand the true depth of this document also known as The Princeton Proposal The Ecumenical Future makes available the scholarly studies that stand behind it According to the editors of this timely and provocative volume the perception is widespread that the ecumenical train is stalling or has even run off the tracks In spite of significant gains in understanding between Catholics Orthodox and various Protestant denominations the church's present divisions are nothing less than a scandal Seen in the light of Jesus' prayer in John 17 that all may be one ecumenism is neither an option nor a social or political football The fourteen essays in this book represent a focused examination of the issues that still divide and of the common ground still to be discovered

Francis papacy on ecumenical dialogue Drawing on ecumenical methodology as well as many practical examples and illustrations the authors discuss the developments in culture and missiology as these affect the practice of ecumenism particularly in response to theologies of hope as well as inter religious dialogue and pluralism What emerges is a clear sense of hope for the future in a rapidly changing world and even a sense of optimism that real ecumenical progress might be made

The Future of Theology Miroslav Volf, Carmen Krieg, Thomas Kucharz, 1996 This is a print on demand book and is therefore non returnable Perhaps no other theologian of the second half of this century has shaped theology so profoundly as has J rgen Moltmann He appeared on the world theological scene with his Theology of Hope 1964 and took most of its capitals by storm His subsequent works have kept him at the forefront of the modern theological enterprise and the power of his vision and the originality of his method have inspired a host of new theologians In terms of fecundity Moltmann s opus remains unmatched among his generation of theologians More than 130 dissertations written so far on his thought most of them in the past decade testify eloquently to its continued attractiveness In honor of Moltmann s 70th birthday twenty six of the world s leading theologians his friends colleagues interlocutors and former students have contributed to this volume on the future of theology Moltmann himself has always sought to be both contemporary and future oriented his theology can be viewed as an exercise not only from the perspective of God s future but also toward a new human future Thus a book on the future of theology takes up an aspect of his theme and his concern Yet this volume also makes a significant contribution to theology in its own right seeking as it does to address the present crisis of theology As Miroslav Volf writes in his introduction On the threshold of the third millennium the presumed queen of sciences has grown old and feeble unable to see that what she thinks is her throne is just an ordinary chair uncertain about what her territories are and confused about how to rule in the realms she thinks are hers seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king and ending up with a divided even schizophrenic mind The essays in this volume attempt to revitalize theology as it confronts a difficult future Despite the formidable obstacles that threaten the very survival of theology in the

next century religious and cultural plurality the marginalization of theology in public discourse increasing abstraction in the practice of theology pressing issues of gender race poverty and ecology the seemingly archaic voice of theology in post Christian societies the contributors to this volume all believe in the future of theology as a vibrant discipline The Future of Theology is organized in three parts Challenges deals with the external or internal problems that theology is facing Perspectives offers proposals on how to meet the challenges Themes concentrates on various issues that need special attention today Together these essays succeed in setting the theological agenda for the future of theology and thereby serve as a fitting tribute to this volume's esteemed honoree Contributors Stanley Hauerwas Elisabeth Moltmann-Wendel John B Cobb Jr James H Cone D Lyle Dabney Ingolf U Dalferth Gustavo Guti rrez Douglas John Hall Ellen T Charry M Douglas Meeks Johann Baptist Metz Konrad Raiser Wolfhart Pannenberg Paul Ricoeur John Howard Yoder Dietrich Ritschl Doroth e S lle Jon Sobrino Elsa Tamez Geoffrey Wainwright Rosemary Radford Ruether Miroslav Volf Michael Welker Nicholas Wolterstorff Catherine Keller Huns K ng

*Toward a Common Future* William G. Rusch, 2019-05-20 This book provides a specific proposal for churches divided by centuries long disputes and disagreements to move toward a vision of the unity of the church It seeks to offer a way for divided churches to move beyond the present quagmire that challenges much of the modern ecumenical movement Building upon the theological dialogues between the churches this volume identifies and supplies a way for churches to regain a momentum that seems recently to have been lost in the ecumenical movement

**Justification and the Future of the Ecumenical Movement** George A. Lindbeck, 2003 On October 31 1999 officials of the Lutheran World Federation and the Roman Catholic Church in Augsburg Germany signed and Official Common Statement with its Annex and the Joint Declaration on the Doctrine of Justification declaring publicly and in a binding manner that a consensus in basic truths of the doctrine of justification exists between Lutherans and Catholics A number of the essays in this book emanate from a conference at the Berkeley Divinity School of Yale University in 2000 that discussed the import of this momentous declaration for ecumenism
