Economic And Social Impact Of Aids In Europe:

The Economic and Social Impact of AIDS in Europe David W. FitzSimons, Keith Tolley, 1995 This analysis of the economic and social aspects of AIDS in Europe aims to persuade key policy makers of the continuing need to address HIV and AIDS and fund AIDS prevention Topics covered include treatment costs in selected countries and the impact of HIV on the individual's family *Sexual Behaviour and HIV/AIDS in Europe* Michel Hubert, Nathalie Bajos, Theo Sandfort, 2022-03-30 Originally published in 1998 Sexual Behaviour and HIV AIDS in Europe is detailed study comparing the major population surveys on sexual behaviour and HIV AIDS carried out in Europe at the time of publication Leading European researchers explore the differences and similarities between European countries in patterns of sexual behaviour and responses to the HIV AIDS epidemic As well as providing an empirical and methodological base for future research the comparative analyses lead researchers policy makers health educators and the media to new insights and a deeper understanding of issues that are of central concern in many countries The chapters include discussion of data on sexual initiation homosexual and bisexual behaviour sexual practices sexual partners risk behaviour STDs preventive practices the normative context knowledge of HIV AIDS and attitudes towards people with HIV AIDS The book results from a major European Concerted Action funded by the European Union Biomedical and Health Research programme BIOMED and coordinated by the Centre d'Etudes Sociologiques of the Facultes Universitaires Saint Louis Brussels Belgium It follows Sexual Interactions and HIV Risk published in 1997 **Averting AIDS Crises in Eastern Europe and Central Asia** Olusoji Adeyi, 2003-01-01 The countries of Eastern Europe and the central Asian region are experiencing the greatest increases in rates of HIV AIDS and tuberculosis infections This publication sets out the World Bank's regional support strategy which seeks to provide a unifying framework for the Bank's work as part of the international support for country led responses to these public health problems It identifies short to medium term priorities and clarifies options for integrating effective interventions into the broader agenda of poverty reduction and economic development *Disease and Democracy* Peter Baldwin, 2005-05-16 A historical masterpiece Just when we thought we knew everything about the politics and policies of the HIV AIDS pandemic Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS Baldwin offers a deeply historical and comparative understanding of HIV in the industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful Contagion and the State in Europe 1830-1930 Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed

The Economic Impact of Digital Technologies Paolo Guerrieri, Sara Bentivegna, 2011-01-01 The Economic Impact of Digital Technologies offers a profoundly illuminating examination of ICT transformations in Europe and its critical role in greater social inequality It presents scholars and policy makers with original and practical tools to benchmark and assess the ICT diffusion and inclusion process The core message of book is that a coherent European strategy for embedding ICT technologies in society is long overdue Social differences in ICT use persist and are in some cases widening yet despite this fact there is a dearth of research on remedying digital inequalities This is of particular importance given that relative levels of ICT use investment and research can often explain variations in economic performance between industrialised countries The purpose of this book is to fill the gap in the literature by presenting key evidence on the economic benefits and costs deriving from investment in an inclusive information society The authors propose indicators and indexes of digital development and e Inclusion and its flip side e exclusion to assess the relationship between inclusive ICT and wider economic and social performance in Europe Presenting the methodology to monitor countries performance and ICT use together with original measures and policy suggestions this book will be indispensable to policymakers scholars and postgraduate students in a variety of areas including economic growth innovation industrial and organizational studies information and technology European studies and public and social policy

Economics and HIV Deborah Johnston, 2013-05-29 This book explains how and why economics has been applied to a terrible pandemic using a range of examples mostly drawn from the region most affected sub Saharan Africa Part I shows that microeconomic approaches have found fertile ground in a public health approach that blames individual choices for HIV transmission Despite their attractiveness however these approaches fail to explain contemporary patterns of HIV prevalence illustrating the importance of factors that are excluded from the standard micro economic approach Part II of the book looks at our problems in understanding the economic impact of AIDS and

explains why economists cannot agree if epidemic disease is a good or bad thing for economic development In both sections of the book the potential for alternative approaches is shown and the book ends by arguing that a political economy approach can bring meaningful insights to our understanding of the spread and impact of HIV AIDS *HIV Epidemics in the*

European Region Lucy Platt, Emma Jolley, Vivian Hope, Alisher Latypov, Peter Vickerman, Ford Hickson, Lucy Reynolds, Tim Rhodes, 2015-02-12 This report describes the dynamics of HIV epidemics among vulnerable and high risk populations in the European region in particular people who inject drugs sex workers and men who have sex with men It aims to inform future HIV responses and guide HIV prevention surveillance and research **ECCWS 2022 21st European Conference on**

1998 Routledge is an imprint of Taylor Francis an informa company The HIV Pandemic Peter Piot, 2007-12-14 As we
approach the 25th anniversary of the first recognition of HIV AIDS in 1981 this book reflects on the international impact of
the disease It has persistently remained a global issue with more than 50 million people worldwide estimated to have been
infected since that date This ambitious book written by 165 authors from 30 countries offers a multi country comparative
study that examines how the response to the common global threat of HIV is shaped by the history culture institutions and
health systems of the individual countries affected Increasingly the shift of health systems has been from prevention only as
the main containment strategy to a strategy that includes scaling up HIV treatment and care and prevention services
including antiretroviral therapy Thus all parts of the health system must be involved policy makers healthcare professionals
and users of the services have been forced to think differently about how services are financed how resources are allocated
how systems are structured and organized how services are delivered to patients and how the resulting activity is monitored
and evaluated in order to improve the effectiveness efficiency equity and acceptability of the response This book is unique in
attempting to describe and assess a range of responses across the globe by situating them within the characteristics of each
country and its health system Most chapters combine a health policy expert with an HIV specialist allowing both a top down
health system approach and a bottom up HIV specific perspective There are thematic and analytical sections which provide
an overview and some suggestions for solutions to the most serious outstanding issues and chapters which analyse specific
country and organisational responses There is no perfect health system but the evidence provided here allows the sharing of
knowledge and a opportunity to assess the impact and reactions to an epidemic that must be considered a long term issue
