Economic Assessment Of Landscape Amenities Provision By Farmers:

Landscape Amenities Isabel Vanslebrouck, Guido Van Huylenbroeck, 2005-09-14 This book maps points of common understanding and cooperation in the interpretation of landscapes These interfaces appear between cultures between natural and human sciences lay people and experts time and space preservation and use ecology and semiosis The book compares how different cultures interpret landscapes examines how cultural values are assessed explores new tools for assessment traces the discussion about landscape authenticity and finally draws perspectives for further research Economic

Assessment of Landscape Amenities Provision by Farmers Isabel Vanslebrouck, 2002 **Communications in Agricultural and Applied Biological Sciences**, 2003 **Cultivating Rural Amenities An Economic Development Perspective** OECD, 1999-10-18 This book points out that because many natural and cultural features are public goods with limited markets and hazy property rights public policies are needed to strike the delicate balance between supply and demand

The Economic Value of Landscapes C. Martijn van der Heide, Wim Heijman, 2013-01-03 This book aims to explore the avenue of landscape economics and provides the building blocks from different scientific disciplines for an economic analysis of landscapes What exactly constitutes and determines the value of a landscape It focuses on the value of landscapes in its broadest sense thereby covering a variety of topics including stakeholder involvement in landscape design landscape governance and landscape perceptions from different countries Merely saying that landscapes have value or are important is not sufficient not when resources are scarce and have alternative uses Measuring and quantifying the economic value of changes in landscapes would help ensure that landscape management decisions are both economically rational and sound **Failure or Reform?** Stewart Lockie, 2019-09-10 Market reform promises more environmental protection and more profitable agriculture at lower financial cost Too good to be true This book examines numerous empirical examples of policy in action to identify principles for the successful application of market based policy instruments Where some market instruments are used to fix market failures by putting a value on environmental protection others use market like mechanisms to allocate financial incentives for environmental work They are promoted as flexible efficient and politically neutral solutions to the competing demands of social economic and ecological sustainability But they also attract criticism for rolling back environmental regulation and privatizing public goods This book argues that while many market based instruments have merit decisions about responsibility cannot be left entirely to the market Whichever instruments we use decision making needs to be embedded in a logic of democratization Using case studies from around the world this book investigates how instruments like eco standards payments for ecosystem services pollution trading and community based natural resource management perform in practice and what can be learned about applying them more effectively While the approach is primarily sociological it is deliberately written to bridge the gap between sociology economics environmental sciences and the concerns of environmental policy makers **Mining and Energy Law** Samantha Hepburn, 2015-08-17 This

text is an ideal starting point to understand the regulatory regimes and policy challenges relevant to Australia's mining sector

Payment for Environmental Services in Agricultural Landscapes Leslie Lipper, Takumi Sakuyama, Randy Stringer, David Zilberman, 2009-03-21 In recent years development policy has responded to an increasing concern about natural resource degradation by setting up innovative payment for environmental services PES programs in developing countries PES programs use market and institutional incentives in order to meet both environmental and poverty alleviation objectives However their optimal design implications for the rural poor and how these initiatives integrate into international treaties on global warming and biodiversity loss are still being discussed This book addresses these issues by scrutinizing analytical tools providing policy insights and stimulating debate on linkages between poverty alleviation and environmental protection In particular it turns attention towards the role of environmental services in agricultural landscapes as they provide a living for many poor in developing countries It serves as a valuable reference for academics and students in various disciplines as well as for policy makers and advisors This book is a co publication between Springer and the Food and Agriculture Organization of the United Nations

Multifunctionality in Agriculture Evaluating the degree of jointness, policy implications OECD, 2008-05-20 Proceedings that examine the nature and strength of jointness between agricultural commodity production and non commodity outputs from the perspective of three areas important to the agricultural sector rural development environmental externalities and food security

The Economic Valuation of Landscape Change José Manuel L. Santos, 1998-12-18 The increase in landscape degradation in the last decades has resulted in a growing public concern for policies to conserve the countryside This book presents theories of valuation and economic welfare which are applied to policies to conserve the landscape Environmental agricultural and ecological economists will be interested in this book as will geographers and those involved in planning and countryside management

Sustainable Farm Forestry in the Tropics Stephen Robert Harrison, J. L. Herbohn, 2001-01-01 The text is valuable in that it describes tropical small scale farm forestry and the complex interrelationships between social economic and biological issues quite well For readers interested in tropical forestry in a developed nation the book is a detailed and excellent source of information Matthew Pelkki Natural Resources Journal There has been an increased awareness of the need to establish and maintain small scale forestry in tropical countries This is due to concerns over continued deforestation as well as the long term environmental and economic resources these plantations can contribute if managed successfully This book examines the constraints that limit the development of small scale forestry in tropical environments and how they can be overcome

Agroforestry for sustainable agriculture Professor María Rosa Mosquera-Losada, Dr Ravi Prabhu, 2019-05-31 Comprehensive review of the effectiveness of particular agroforestry practices from riparian forest buffers and filter strips windbreaks and contour buffers to alley cropping silvopasture and forest farming Summarises current research on ecosystem services delivered by agroforestry from promoting biodiversity and soil health to water quality and management Assesses research on best practice in tree planting
