Economic Dynamism In The Asia Pacific:

Economic Dynamism in the Asia-Pacific Grahame Thompson, 2005-10-18 This broad ranging student textbook examines the rise of the Asia Pacific as an important economic region. It looks at the sources of that rise, its future development and the possible consequences for the global economy. The analysis is divided into three sections considering how far the Asia Pacific has developed as a regional system, looking at the patterns of integration of the principal economies, the relationship between the key individual economies of Japan, Korea, China and the United States, how the rise of the Asia Pacific economy has affected the international economic system. In so doing, it provides much needed insights not only into the growth of this powerful economic region but also the international context of Asia Pacific development. **Economic**

Dynamism in the Asia-Pacific Grahame Thompson, 1998 **Economic, Educational, and Touristic Development in Asia** Christiansen, Bryan, Sezerel, Hakan, 2020-02-07 The progression of the independent states that were created after the collapse of the Soviet Union has become a prevalent area of research as these countries continue to make infrastructural strides. These regions possess vastly desirable natural resources including oil, gas and minerals, causing this section of the world to have rising global importance as they continue to improve their economy, educational systems and tourism industries. **Economic, Educational and Touristic Development in Asia** is a pivotal reference source that provides a thorough examination of the contemporary progression of several recently formed countries within Central Asia. While highlighting topics such as hospitality, marketing, anti corruption reform and entrepreneurship, this publication explores the technological, educational and security enhancements being made in these areas as well as how this region can strengthen its prosperity by strategically utilizing their globally coveted natural resources. This book is ideally designed for economists, higher education faculty, provosts, chancellors, scholars, practitioners, policymakers, business professionals, marketers, restaurateurs, hotel managers, tour developers, travel agencies, government officials, strategists, educators, researchers and graduate students.
