level Competing uses for increasingly scarce resources are requiring that the relative values of those uses be investigated Although many types of value are important in decision making this book is concerned with the economic value of natural resources Economic values for certain natural resources are readily observable in markets For others however market prices are not available and estimates of value must be made through nonmarket valuation techniques The progress that has been made in improving the theory methods and applications of these techniques has been remarkable Along with the progress however come new problems that must be addressed The chapters presented in this volume are a collection of examples of both progress and problems

Implementing Ecological Integrity Philippe Crabbé, Alan J. Holland, Lech Ryszkowski, L. Westra, 2012-12-06 This book contains some of the papers which were presented at the NATO Science Environmental Security Advanced Research Workshop on Implementing Ecological Integrity Restoring Regional and Global Environmental and Human Health held in Budapest from June 26 to July 1 1999 All papers presented are summarized in the Introduction and in some cases shorter versions are published A multidisciplinary core of American and Western European participants had met over the preceeding years to discuss the concept of ecological integrity The term ecological integrity is found in environmental policy documents but generally is not defined It competes with other recent terms or environmental narratives such as ecosystem health and sustainable development and also with older ones such as conservation Therefore it is deemed important not only to sort out the definitions of these concepts but also to find out whether their practical implications differ Moreover it was interesting to find out whether participants from Central and Eastern European Countries CEEC and more generally from NATO partner countries would be first responsive to this concept and second would hold different views of it This explains the broad albeit not always consistent range of topics which are covered in this book The core group learned that CEEC and other NATO partners participants were responsive to the concept but that they were less exclusive of human influence
