Harold Wolozin

Economics Of Atmospheric Pollution:

Economics of Atmospheric Pollution Ekko Ierland, Kazimierz Gorka, 1996-10-21 Selected papers presented at the NATO Advanced Research Workshop The Economics of Atmospheric Pollution Theories Applied Models and Implications for International Policy Making held in Wageningen The Netherlands November 16 18 1994 Controlling Industrial Pollution

Robert W. Crandall, 1983 Discusses the effectiveness of government regulations designed to reduce air pollution and recommends changes in air pollution policies and laws **The Economic Consequences of Outdoor Air Pollution**

OECD, 2016-06-09 This report provides a comprehensive assessment of the economic consequences of outdoor air pollution in the coming decades focusing on the impacts on mortality morbidity and changes in crop yields as caused by high concentrations of pollutants **The Economics of Air Pollution in China** Jun Ma, 2016-11-29 Suffocating smog regularly envelops Chinese metropolises from Beijing to Shanghai clouding the future prospect of China's growth sustainability Air pollutants do not discriminate between the rich and the poor the politician and the average Joe They put everyone's health and economic prosperity at risk creating future costs that are difficult to calculate Yet many people including some in China are concerned that addressing environmental challenges will jeopardize economic growth In The Economics of Air Pollution in China leading Chinese economist Ma Jun makes the case that the trade off between growth and environment is not inevitable In his ambitious proposal to tackle severe air pollution and drastically reduce the level of so called PM 2.5 particles microscopic pollutants that lodge deeply in lungs Ma Jun argues that in targeting pollution China has a real opportunity to undertake significant structural economic reforms that would support long term growth Rooted in rigorous analyses and evidence based projections Ma Jun's big bang proposal aims to mitigate pollution and facilitate a transition to a greener and more sustainable growth model **The Economics of Environmental Policy** A. Myrick Freeman, Robert H. Haveman, Allen V. Kneese, 1984 **The Economics of Airborne Emissions** Douglas R. Mackintosh, 1973 The Economics of Government Regulation Wang Junhao, 2021-07-06 Regulation is a public policy approach closely related to calculations of the equilibrium of supply and demand and to cost benefit analyses Governments combine a variety of incentives and restrictions on behavior including laws and regulations in order to guide enterprises and smaller entities within the economy toward pursuing policies in the public interest This book offers an in depth and systematic review of the economic theory of regulation with particular emphasis on the Chinese context The basic concepts cover economic and social regulation regulatory process regulation under asymmetric information and capture theory Drawing on a broad range of cases from across the telecommunications electric power and water sectors since the founding of the People's Republic of China in 1949 the author explores economic regulation in China with reference to natural monopoly investment price level and price structure entry and competition In addition he discusses theories of externalities and asymmetric information which are analyzed in the light of China's environmental and product quality regulation The author argues that the Chinese government

has deregulated its economy to a large extent in the past and proposes that the Chinese government will enforce more social regulation in the future Students and scholars of government regulation economics and industrial organization will find this volume to be an essential guide

Economic Instruments for Air Pollution Control Ger Klaassen, Finn R. Førsund, 2012-12-06

Economic theory and empirical models suggest that economic instruments should help us to meet environmental goals at lower cost Practical experience however shows that the cost savings of emission trading are smaller than expected and charges usually have had small incentive impacts This book gives the first comprehensive review of economic theory simulation models and practical experience with the use of economic instruments The book focuses on air pollution control Part I examines theoretical aspects and simulation modeling in a national context Part II surveys the practical experience in a variety of countries Part III explores international issues such as joint implementation Because of its unique blend of theoretical and empirical research the book will prove interesting for both economists and those interested in environmental policy

The Economics of Air Pollution Harold Wolozin, 1966

The Economic Consequences of Air Pollution Vincent Kerry Smith, 1976

The Political Economy of Smog in Southern California Jeffry Fawcett, 2017-10-19

This study first published in 1990 explores the ways in which institutions can succeed or fail at environmental improvement The author first takes a look at the nature of environmental politics and the history of air pollution control in Southern California He then develops a political economic model that asks the question what effect have the dramatic changes that have occurred throughout the history of air pollution control in Southern California had on air quality Jeffry Fawcett uses the information gathered to both evaluate the relationship between air quality and institutional change and to evaluate how political economists explain how state environmental institutions

work This title will be of interest to students of environmental economics and policy
