and tastes through advertising and other means of persuasion and he drew out the economic implications of this view He was a student of financial frauds and euphoria and a forerunner of the Post Keynesian Minskean view of finance and how financial markets really work This book was published as a special issue of the Review of Political Economy *Market Affect and the Rhetoric of Political Economic Debates* Catherine Chaput, 2019-08-14 What explains the triumph of capitalism Why do people so often respond positively to discussions favoring it while shutting down arguments against it Overwhelmingly theories regarding capitalism's resilience have focused on individual choice bolstered by careful rhetorical argumentation In this penetrating study however Catherine Chaput shows that something more than choice is at work in capitalism's ability to thrive in public practice and imagination more even than material resources power and cultural imperialism ideology That something she contends is market affect Affect says Chaput signifies a semi autonomous entity circulating through individuals and groups Physiological in nature but moving across cultural material and environmental boundaries affect has three functions it opens or closes individual receptivity it pulls or pushes individual identification and it raises or lowers individual energies This novel approach begins by connecting affect to rhetorical theory and offers a method for tracking its three modalities in relation to economic markets Each of the following chapters compares a major theorist of capitalism with one of his important critics beginning with the juxtaposition of Adam Smith and Karl Marx who set the agenda not only for arguments endorsing and critiquing capitalism but also for the affective energies associated with these positions Subsequent chapters restage this initial debate through pairs of economic theorists John Maynard Keynes and Thorstein Veblen Friedrich Hayek and Theodor Adorno and Milton Friedman and John Kenneth Galbraith who represent key historical moments In each case Chaput demonstrates capitalism's critics have fallen short in their rhetorical effectiveness Chaput concludes by exploring possibilities for escaping the straitjacket imposed by these debates In particular she points to the biopolitical lectures of Michel Foucault as offering a framework for more persuasive anticapitalist critiques by reconstituting people's conscious understandings as well as their natural instincts [Catalog of Copyright Entries.
