Enlightened Eye Qualitative Inquiry And The Enhancement Of Educational Practices:

The Enlightened Eye Elliot W. Eisner, 2017-02-24 Eisner's seminal work on mind education and research explores the ways in which the methods content and assumptions in the arts humanities and social sciences can help us better understand our schools and classrooms The Enlightened Eye expands how we think about inquiry in education and broadens our views about what it means to know with the goal of positively influencing the educational experience of those who live and work in our schools The text includes examples depicting this type of research and how it can be used to evaluate teaching learning and the school environment

The Enlightened Eye Elliot W. Eisner, 1998 For courses in qualitative research in education Now in paperback this seminal work in qualitative research methods is the definitive statement on qualitative research from the perspective of connoisseurship and criticism This benchmark work gives students a solid understanding of qualitative research and evaluation and its great promise for evaluating and guiding educational practice It demonstrates how methods used by critics in the arts and humanities such as observing performance qualities setting and interaction patterns also apply to the study of classroom practice Excellent examples are provided to show students what this type of research looks like and how it can be applied to the evaluation of teaching learning and the overall school environment

The Enlightened Eye Elliot W. Eisner, 1998 International Handbook of Research in Arts Education Liora Bresler, 2007-09-04 Providing a distillation of knowledge in the various disciplines of arts education dance drama music literature and poetry and visual arts the Handbook synthesizes existing research literature helps define the past and contributes to shaping the substantive and methodological future of the respective and integrated disciplines of arts education While research can at times seem distant from practice the Handbook aims to maintain connection with the lived practice of art and of education capturing the vibrancy and best thinking in the field of theory and practice The Handbook is organized into 13 sections each centering on a major area or issue in arts education research These areas include History of arts education curriculum evaluation cultural centers appreciation composition informal learning child culture creativity the body spirituality and technology The individual chapters address cross cultural research related to the central theme of the section from the perspectives of the particular arts discipline Interludes provide reflective thoughts on the theme

Handbook of the Arts in Qualitative Research, 2022 Research Ethics in Second Language Education Roger Barnard, Yi Wang, 2020-12-30 This book makes a fresh contribution to the field of research ethics by considering research issues through relatable autobiographical narratives The book's core offers narratives by novice second language education researchers who are completing PhD degrees using data from international research participants These narratives expose challenges regarding the ethical identity of researchers working across diverse value and belief systems The narrative chapters are followed by four chapters of commentaries from a line up of international scholars with various academic linguistic and cultural backgrounds The case study approach reports the experiences and reflections of research students before during and after the data collection phase

of their projects and offers insights into the recruitment of participants acquiring and maintaining access interpretations of the notion of informed consent incentivising participants the implications of ensuring anonymity and confidentiality the right to withdraw participation and data the positioning of the researcher as insider or outsider potential conflicts of interest the potential harm to participants and researcher and the dissemination of findings This practical and relatable book is aimed at research students and their supervisors in fields such as applied linguistics and education as well as those following methods courses to help illustrate the ethical challenges faced by researchers in the process of collecting qualitative data

Higher Education Research Methodology Ben Kei Daniel, Tony Harland, Navé Wald, 2024-08-01 With new chapters and updated content throughout this second edition of Higher Education Research Methodology is an essential guide to systematic inquiry into higher education Providing practical and theoretical guidance for students topics covered include ontology and epistemology as well as research design approaches and methods of data collection New to this edition are two brand new chapters on conceptual and theoretical frameworks and research justification as well as a comprehensive revision of the chapter on engaging with academic literature Throughout the book there is a keen focus on quality in both the analysis and evaluation of research and new models are proposed to help the new researcher The authors provide advice as well as constructive critique of research methods and in turn offer a new contribution to the theories of research methodology Looking beyond the immediate higher education environment the book concludes by examining the challenges of getting work published and providing guidance on how to do this successfully Thoroughly revised this new edition of Higher Education Research Methodology will be of interest to postgraduate students academic developers and experienced academics from a wide variety of disciplines
