Enoch Powell The Man And His Thinking:

Enoch Powell: the Man and His Thinking Thomas Edwin Utle, 1968 **Enoch Powell: the Man and His Thinking** Thomas Edwin Utle, 1968 The Republican Transformation of Modern British Politics G. Foote, 2015-12-17 An original study of a major change in the political thought of modern Britain arguing that the period between 1956 and 1968 saw a seminal change in political thinking which created the framework of today's politics A republican tradition of active citizenship community and democracy was developed within the New Left and the radical Liberals around Jo Grimond The Right whose republican version of a property owners democracy was developed by Michael Oakeshott and Enoch Powell completed the new political framework Inventing the Silent Majority in Western Europe and the United States Anna von der Goltz, Britta Waldschmidt-Nelson, 2019-03-28 For historians of social movements this text explores 1960s and 1970s conservative political activism in the US and Western Europe Re-energizing Ideology Studies Michael Freeden, 2018-12-07 Ideology studies have undergone significant growth over the past couple of decades The scope of the discipline has been extensively broadened to include not only text and discourse but emotions imagination fantasy rhetoric and visual forms Its attention to detail and to the micro manifestations of ideology in the everyday have borne considerable fruit particularly at a time of ideological fragmentation and reassembly Its research methods have been refined embracing both conceptual innovation and empirical evidence drawn from many fields of social creativity During that period the Journal of Political Ideologies has been a major vehicle of the discipline's advance and coming of age The chapters in this book originally published as two special issues in the Journal The book assembles and investigates some of the latest approaches and domains in which cutting edge ideology research is now under way The multiple topics sources and interdisciplinary perspectives it contains illustrate the variety and depth that ideology studies have attained Its subjects range from historical and literary analyses through feminist studies and psycho social interpretations It takes in the new means of dissemination that the digital age has introduced and offers fresh assessments of the many cross fertilizations possible between ideology research political theory and international studies as traditional ideologies vie with new ideological articulations and forms

The Lives and Afterlives of Enoch Powell Olivier Esteves, Stéphane Porion, 2019-04-30 50 years after Enoch Powell's self styled detonation in the form of his so called Rivers of Blood speech this volume brings together contributions from international scholars in the field of history political science and British studies with new insights from hitherto unexplored archives It investigates some of the key national and grassroots parameters which from above and from below led to Powell's violent irruption into the immigration debate in 1968 It apprehends Powell as a political and intellectual figure firmly established in the British Tory tradition a tradition which was to shape the 1970s debate on race and immigration and be avidly instrumentalised by the British far right It also analyses Powell's positioning vis vis the Irish question and apprehends Powell's late 1960s moment from an international standpoint as one of the early stages of the conservative revolution which

was to culminate in 2016 with Trump's election. Lastly, this book weaves a thread between Powell and another recent political detonation, Brexit.

A Bibliography of British History, 1914-1989 Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996. Containing over 25,000 entries, this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century. Accessibly arranged by theme, with helpful introductions to each chapter, a huge range of topics is covered. There is a comprehensive index.

Postwar Conservatism, A Transnational Investigation Clarisse Berthezène, Jean-Christian Vinel, 2017-04-19. This volume offers a unique comparative perspective on post-war conservatism as it traces the rise and mutations of conservative ideas in three countries: Britain, France, and the United States across a short twentieth century, 1929-1990, and examines the reconfiguration of conservatism as a transnational phenomenon. This framework allows for an important and distinctive point: the 1980s were less a conservative revolution than a moment when conservatism, understood in Burkean terms, was outflanked by its various satellites and political avatars, namely populism, neoliberalism, reaction, and cultural and gender traditionalism. No longer running, unique conservative mind comes out of this book's transnational investigation. The 1980s did not witness the ascendancy of a movement with deep roots in the 18th century, reaction to the French Revolution, but rather the decline of conservatism and the rise of movements and rhetoric that had remained marginal to traditional conservatism.

Conservative thinkers Mark Garnett, Kevin Hickson, 2013-07-19. This book outlines and evaluates the political thought of the Conservative Party through a detailed examination of its principal thinkers from Harold Macmillan to the present. Traditionally, the Conservative Party has been regarded as a vote-gathering machine rather than a vehicle for ideas. This book redresses the balance through a series of biographical essays examining the thought of those who have contributed most to the development of ideas within the party. The chapters benefit from archival research and interviews with leading Conservatives. The recent revival of Conservative fortunes makes the book particularly timely. The book begins with an introductory chapter explaining the role of ideology in the Conservative Party. It then traces the political thought of the Conservative Party through its principal theorists since the 1930s. These are Harold Macmillan, R. A. Butler, Quintin Hogg, Enoch Powell, Angus Maude, Keith Joseph, the traditionalists Maurice Cowling, T. E. Peter, Utey Peregrine, Worshtorne Shirley, Letwin, and Roger Scruton. Ian Gilmour, John Redwood, and David Willetts. The book concludes with an overall assessment of the political thought of the Conservative Party and the relevance of past debates for contemporary Conservatism. The book will be of considerable interest to academics and non-academics alike for those who have a special interest in the Conservative Party but also for any student of contemporary British Politics.

Shadows of Empire Michael Kenny, Nick Pearce, 2018-05-04. The idea of an alliance between Britain and its old Commonwealth colonies has recently made a remarkable comeback in the context of Brexit. Based on belief in a special bond between the English-speaking peoples of the UK, the USA, Canada, Australia, and New Zealand, it has been dubbed the Anglosphere by supporters and Empire 2.0 by critics. In this book, leading commentators Michael Kenny and Nick Pearce

trace the historical origins of this idea back to the shadow cast by the British Empire in the late Victorian era They show how leading British political figures from Churchill to Thatcher consistently reworked it and how it was revived by a group of right wing politicians historians and pamphleteers to support the case for Brexit They argue that while the contemporary idea of the Anglosphere as an alternative to European Union membership is seriously flawed it nonetheless represents an enduring account of Britain's role in the world that runs through the heart of political life over the last century *Shadows of Empire* will be essential reading for everyone interested in British politics and post Brexit foreign policy The Conservative Nation (Routledge Revivals) Andrew Gamble, 2014-06-27 Since the 1880s the Conservative Party has been an important political force in Britain In this study of Conservative ideology since the end of Second World War first published in 1974 Andrew Gamble considers the nature of Conservative party opinion and the factors that have accounted for its success The adaptation of the party post 1945 is discussed as well as the ascendancy of the Right progressives in the leadership and the challenge of the Whigs and Imperialists Finally the book includes a discussion of the fluctuations within the Conservative Government between 1970 and 1974 with an account of what Gamble believes to have been ultimately a failure A rigorous and comprehensive analysis of Conservative thought and policy this study will be of particular value to those with an interest in the history of British Conservative politics and government Empire and After Graham MacPhee, Prem Poddar, 2007 Ranging from analyses of contemporary culture postcolonial writing political rhetoric and postimperial memory after 9 11 this collection demonstrates that far from being parochial and self involved the question of Englishness offers an important avenue for thinking about the politics of national identity *John Bull's Island* Colin Holmes, 2015-10-16 There is a strong but unreliable view that immigration is a marginal and recent phenomenon In fact immigrants and refugees have come to Britain throughout its recorded history In this book first published in 1988 Colin Holmes looks at this period in depth and asks who were the newcomers and why were they coming What were the distinctive features of their economic and social lives in Britain How did British society respond to their presence The resulting book is a major historical survey of immigration which synthesises and evaluates existing work and weaves in new material on a wide range of immigrant minorities **British culture after empire** Josh Doble, Liam Liburd, Emma Parker, 2023-03-14 British culture after Empire is the first collection of its kind to explore the intertwined social cultural and political aftermath of empire in Britain from 1945 up to and beyond the Brexit referendum of 2016 combining approaches from the fields of history English and cultural studies Against those who would deny downplay or attempt to forget Britain's imperial legacy the various contributions expose and explore how the British Empire and the consequences of its end continue to shape Britain at the local national and international level As an important and urgent intervention in a field of increasing relevance within and beyond the academy the book offers fresh perspectives on the colonial hangovers in post colonial Britain from up and coming as well as established scholars **Radicalism, Anti-Racism and Representation** Alastair Bonnett, 2023-02-14 First published in

1993 *Radicalism Anti Racism and Representation* is a study set within a wider political context for the discussion of racial representation and anti racism The second half of the book is devoted to interview based exploration of the ambiguities and political characteristics of race equality consciousness amongst public educators It is shown that there is no one anti racism Different ideals and assumptions have been arrived at within different historical and geographical contexts It is suggested that this intellectual plurality provides a resource for those wishing to rethink anti racism in the light of its contemporary malaise The study also explores and explains the development of self critical reflexive anti racist and radical consciousness amongst educators The book provides the first sociological study of anti racism Indeed it is the first to provide a substantive critique of anti racism from outside the New Right It is also the first to look at this phenomenon geographically and to compare anti racism in multiracial and white areas This book will be of interest to students of human geography sociology history ethnic studies and race studies

New Right Discourse on Race and Sexuality Anna Marie Smith, 1994-11-10 The first book in the Cultural Margins series is a 1994 study of racism and homophobia in British politics which demonstrates the demonisation of blacks lesbians and gays in New Right discourse Anna Marie Smith develops theoretical insights from literary and cultural critics including Nietzsche Foucault Derrida Hall and Gilroy to produce detailed readings of two key moments in New Right discourse the speeches of Enoch Powell on black immigration 1968 72 and the legislative campaign of the late 1980s to prohibit the promotion of homosexuality Her analysis challenges the silence on racism and homophobia in previous studies of Thatcherism and the New Right and shows how demonisation of lesbians and gays depends on previous demonisations of black immigrant and criminal figures Overall this book offers a devastating critique of racism and homophobia in late twentieth century Britain

The Break-Up of Britain Tom Nairn, 2021-06-22 The classic text with a new introduction by Anthony Barnett In this classic text first published in 1977 Tom Nairn memorably depicts the slow foundering of the United Kingdom on the rocks of constitutional anachronism its fall from empire and the gathering force of civic nationalism Rich in comparisons between the nationalisms of the British Isles and those of the wider world *The Break Up of Britain* concludes by reflecting on the Janus faced nature of national identity Postscripts from the Thatcher and New Labour years trace the political strategies whose upshot accelerated the demise of a British order they were intended to serve As a second Scottish independence referendum beckons a new introduction by openDemocracy's Anthony Barnett underlines the book's enduring relevance

Encyclopedia of Nationalism, Two-Volume Set, 2000-10-27 Nationalism has unexpectedly become a leading local and international force since the end of the Cold War Long predicted to give way to pan national or economic organizations nationalism exerts its tremendous force on all continents and in a wide variety of ways The *Encyclopedia of Nationalism* captures the aims and scope of this force through a wide ranging examination of concepts figures movements and events It is the only encyclopedic study of nationalism available today Key Features International Editorial Board Articles begin with short glossaries and conclude with short bibliographies of titles essential for further

reading Website devoted to project at www.academicpress.com/nations *Power, Competition and the State* K. Middlemas, 2015-12-17 An extraordinarily rich and suggestive work full of illuminating asides and thought provoking insights backed by a formidable mastery of detail This is a magnificent achievement David Marquand In the forefront of contemporary history this volume displays the same breadth originality and innovation as the first The start of intense rivalry between industry trade unions and the financial sector to influence policy in postwar Britain increased in the late 1950s Macmillan's government succeeded briefly in restoring some of the original wartime consensus after 1961 only to see hopes for Conservative planning wither Competition among interest groups to settle how the national interest should be defined made Wilson's attempt to create a Labour planned economy almost impossible Despite the spur of relative decline modernisation always fell far short of politicians' aims putting in doubt the ability of even a modern state to achieve its ambitions A series of crises exposed promises of breakthrough into growth which governments blamed on the self interest of institutions without whose co operation they still believed they could not govern **Europe's Angry Muslims** Robert S. Leiken, 2012-03-29 Bombings in London riots in Paris terrorists in Germany fury over mosques veils and cartoons such headlines underscore the tensions between Muslims and their European hosts Did too much immigration or too little integration produce Muslim second generation anger Is that rage imported or spawned inside Europe itself What do the conflicts between Muslims and their European hosts portend for an America encountering its own angry Muslims *Europe's Angry Muslims* traces the routes expectations and destinies of immigrant parents and the plight of their children transporting both the general reader and specialist from immigrants' ancestral villages to their strange new fangled enclaves in Europe It guides readers through Islamic nomenclature chronicles the motive force of the Islamist narrative offers them lively portraits of jihadists a convict a convert and a community organizer takes them inside radical mosques and into the minds of suicide bombers The author interviews former radicals and security agents examines court records and the sermons of radical imams and draws on a lifetime of personal experience with militant movements to present an account of the explosive fusion of Muslim immigration Islamist grievance and second generation alienation Robert Leiken shines an unsentimental and yet compassionate light on Islam's growing presence in the West combining in depth reporting with cutting edge and far ranging scholarship in an engaging narrative that is both moving and mordant Leiken's nuanced and authoritative analysis historical sociological theological and anthropological warns that conflating rioters and Islamists folk and fundamentalist Muslims pietists and jihadis immigrants and their children is the method of strategic incoherence in the night all cats are black

Decoding **Enoch Powell The Man And His Thinking**: Revealing the Captivating Potential of Verbal Expression
