## **Enquiries Into Global Citizenship:**

Enquiries Into Global Citizenship Institute For Citizenship, Bhavini Algarra, 2002 Developed to answer the need for teaching material in this area this resource provides an innovative and practical approach to Citizenship at Key Stage 3 The work is also suitable for use in Scotland for S1 S2 *Global Citizenship Education in the Global South*, 2022-10-31 This volume presents a critical discussion that brings contemporary academic debate about southern theory to Global Citizenship Education GCE It situates the discussion around GCE in the Global South within a critical and post colonial paradigm informed by the values and knowledge of critical pedagogy ingrained in social justice Global Citizenship Education in the Global South invites the reader into chapters written by educators exploring analysing and celebrating ideas and concepts on GCE in the Global South The book is presented as a pedagogical tool for discussion that invites educators to reflect critically on the possible origins and implications of GCE discourses they are exposed to The book is designed with the intent to contribute towards the possibility of imagining a yet to come critical transformative and post colonial and value creating GCE curriculum beyond a westernised market oriented and apolitical practices towards a more sustainable paradigm based on principles of mutuality and reciprocity Global Citizenship Nigel Dower, John Williams, 2016-04-22 The idea of global citizenship is that human beings are citizens of the world Whether or not we are global citizens is a topic of great dispute however those who take part in the debate agree that a global citizen is a member of the wider community of humanity the world or a similar whole which is wider than that of a nation state or other political community of which we are normally thought to be citizens Through four main sections the contributors to Global Citizenship discuss global challenges and attempt to define the ways in which globalization is changing the world in which we live Offering a breadth of coverage to the core theme of the individual in a global world Global Citizenship combines two factors the idea of global responsibility and the development of institutional structures through which this responsibility can be exercised **Citizen Participation in Global Environmental Governance** Richard Worthington, Mikko Rask, Lammi Minna, 2013-11-12 On one day in 2009 in thirty eight countries around the world 4 000 ordinary citizens gathered to discuss the future of climate policy This project WWViews was the first ever global democratic deliberation an attempt to enable ordinary people to reach informed decisions on and impact the global policy process This book which analyzes the experiences and lessons from this ground breaking event marks the beginning of a new kind of democratic politics providing practical lessons on how to increase the impact of global deliberation projects within the media and on official policy processes The authors explore important themes for participatory approaches from the local to the global the role of deliberation within global governance methodology and practice participant selection policy impacts engaging the media how policy culture affects deliberation uptake capacity building and knowledge transfer process evaluation content and argumentation analysis gender race and class aspects The global aims of the WWViews project along with the opportunity to evaluate the same process in different national and

cultural contexts makes this a hugely valuable and informative study for all those interested in democratic deliberation and environmental governance from the small to the international scale

**(Re)Constructing Memory: Textbooks, Identity, Nation, and State** James H. Williams, Wendy D. Bokhorst-Heng, 2016-07-08 This book engages readers in thirteen conversations presented by authors from around the world regarding the role that textbooks play in helping readers imagine membership in the nation Authors voices come from a variety of contexts some historical some contemporary some providing analyses over time But they all consider the changing portrayal of diversity belonging and exclusion in multiethnic and diverse societies where silenced invisible marginalized members have struggled to make their voices heard and to have their identities incorporated into the national narrative The authors discuss portrayals of past exclusions around religion ethnicity sexual orientation as they look at the shifting boundaries of insider and outsider This book is thus about who we are not only demographically but also in terms of the past especially how and whether we teach discredited pasts through textbooks The concluding chapters provides ways forward in thinking about what can be done to promote curricula that are more inclusive critical and positively bonding in increasingly larger and more inclusive contexts

Research in Global Learning Douglas Bourn, 2023-11-06 Young people around the world are calling ever more urgently on policymakers to address today's global challenges of sustainability structural inequality and social justice So it is little surprise that learning in a global society understanding sustainable development and being active global citizens are increasingly popular themes for education at all levels Educational research makes a crucial contribution to knowledge that can address the great questions of our time with evidence from diverse studies vital if we are to build a clear picture Research in Global Learning showcases methods and findings from early career researchers who conducted illuminating studies around the globe specifically in Brazil China Ghana Greece Israel Jamaica Japan Kazakhstan Pakistan Poland South Korea Trinidad and Tobago Turkey the United States and the United Kingdom The studies in this volume investigate four important themes the relationship between policy and practice opportunities and constraints in the education system and for the role of teachers challenges for higher education and the perspectives of young people and students Flexibility of approach is crucial for successful educational research in varied environments and is on show throughout this book Depending on context authors used case study quantitative and qualitative research participatory action research longitudinal studies and analysis of textbooks through critical discourse analysis to demonstrate how learning about global learning and sustainability can inspire learners and contribute to quality education

The Global Citizenship Nexus Debra Chapman, Tania Ruiz-Chapman, Peter Eglin, 2020-04-08 In the spirit of Ivan Illich's 1968 speech To hell with good intentions the book takes aim at a ubiquitous form of contemporary ideology namely the concept of global citizenship Its characteristic discourse can be found inhabiting a nexus of four complexes of ruling institutions namely universities with their international service learning the United Nations and allied international institutions bent on global citizenship education international non governmental organizations and foundations promoting

social entrepreneurship and global corporations and their mouthpieces pitching corporate social responsibility and sustainable development The question is in the context of Northern or Western imperialism and US led neoliberal global corporate capitalism and the planetary Armageddon they are wringing what is the concept of global citizenship doing for these institutions The studies in the book put this question to each of these four institutional complexes from broadly political economic and post colonial premises focusing on the concept s discursive use against the background of the mounting production of the global non citizen as the global citizen s other Addressed to all users of the concept of global citizenship from university students and faculty in global studies to social entrepreneurs and United Nations bureaucrats the book s studies ultimately ask whether the idea helps or hinders the global quest for social and economic justice EcoJustice, Citizen Science and Youth Activism Michael P. Mueller, Deborah J. Tippins, 2014-12-02 This volume draws on the ecojustice citizen science and youth activism literature base in science education and applies the ideas to situated tensions as they are either analyzed theoretically or praxiologically within science education pedagogy It uses ecojustice to evaluate the holistic connections between cultural and natural systems environmentalism sustainability and Earth friendly marketing trends and introduces citizen science and youth activism as two of the pedagogical ways ecojustice philosophy can be enacted It also comprises evidence based practice with international service community embedded curriculum teacher preparation citizen monitoring and community activism student scientist partnerships socioscientific issues and new avenues for educational research *Resource Support Pack* Lee Jerome, 2001-09-11 Developed to answer the need for teaching material in this area this three book series with a wide range of additional resources is an innovative and practical approach to Citizenship at KS3

Debates about global justice have traditionally fallen into two camps Statists believe that principles of justice can only be held among those who share a state Those who fall outside this realm are merely owed charity Cosmopolitans on the other hand believe that justice applies equally among all human beings On Global Justice shifts the terms of this debate and shows how both views are unsatisfactory Stressing humanity's collective ownership of the earth Mathias Risse offers a new theory of global distributive justice what he calls pluralist internationalism where in different contexts different principles of justice apply Arguing that statists and cosmopolitans seek overarching answers to problems that vary too widely for one single justice relationship Risse explores who should have how much of what we all need and care about ranging from income and rights to spaces and resources of the earth He acknowledges that especially demanding redistributive principles apply among those who share a country but those who share a country also have obligations of justice to those who do not because of a universal humanity common political and economic orders and a linked global trading system Risse's inquiries about ownership of the earth give insights into immigration obligations to future generations and obligations arising from climate change He considers issues such as fairness in trade responsibilities of the WTO intellectual property rights labor rights whether there ought to be states at all and global inequality and he develops a new foundational theory of human rights

**Global Citizenship Education** Lynn Davies, Clive Harber, Hiromi Yamashita, 2005 Kant's Embedded Cosmopolitanism Georg Cavallar, 2015-05-19 Kant's omnipresence in contemporary cosmopolitan discourses contrasts with the fact that little is known about the historical origins and the systematic status of his cosmopolitan theory This study argues that Kant's cosmopolitanism should be understood as embedded and dynamic Inspired by Rousseau Kant developed a form of cosmopolitanism rooted in a modified form of republican patriotism In contrast to static forms of cosmopolitanism Kant conceived the tensions between embedded local attachments and cosmopolitan obligations in dynamic terms He posited duties to develop a cosmopolitan disposition *Gesinnung* to establish common laws or cosmopolitan institutions and to found

and promote legal moral and religious communities which reform themselves in a way that they can pass the test of cosmopolitan universality This is the cornerstone of Kant s cosmopolitanism and the key concept is the vocation Bestimmung of the individual as well as of the human species Since realizing or at least approaching this vocation is a long term arduous and slow process Kant turns to the pedagogical implications of this cosmopolitan project and spells them out in his later writings This book uncovers Kant s hidden theory of cosmopolitan education within the framework of his overall practical philosophy
