Enriching The Value Chain Infrastructure Strategies Beyond The Enterprise:

Enriching the Value Chain Bruce Robertson, Valentin Sribar, 2004-02 A guide for forward thinking IT professionals who need to organize infrastructure and staff to meet the challenges of e business value chain initiatives this book provides strategic advice for mapping business drivers to a set of fundamental patterns and planning models Described are ways to organize e business infrastructure with suppliers trading partners and customers as well as how to run e business infrastructure services for the long term with high quality Techniques for making applications become easier more cost effective and quicker to integrate are also detailed *EuroPLoP 2009 Proceedings* Allan Kelly, 2011 Electronic Supply Chain Collaboration for Small Job Shop Manufacturers Thomas Magnuson Coe, 2005-03 Driven to improve their competitive advantages manufacturers are looking to electronic supply chain collaboration ESCC The benefits of ESCC have long been described in the literature but only recently after considerable advances in the capability of information technology have these benefits been verified by empirical studies The high cost of ESCC has limited its early application to larger companies Although interest in ESCC is high in business and information systems circles the large group of small manufacturers has received meager attention Theory suggests however that ESCC benefits are maximized as more supply chain partners integrate their information systems into a supply chain network This exploratory triangulation study considered the current state and future implications of ESCC for the small job shop manufacturer Three lines of research addressed the problem in terms of the SJSJ business environment ESCC technology and success cases studies The study found that ESCC integration is proceeding slowly impeded primarily by a lack of standards for data integration Advances in the Internet and related technology have however eliminated all but the last few barriers to ESCC The remaining barriers are likely to fall pending acceptance of new ESCC standards such as RosettaNet ESCC is already well established in select industries and will accelerate into other industries as standards develop Currently most ESCC activity is between top and mid tier manufacturers but this activity will eventually spread down to third tier small manufacturers The study found no evidence that true integration or the exchange of data between trading partners without retyping is currently practical for most SJSJs The study did find that low integration ESCC is currently practical for SJSJs In low integration ESCC manufacturers use Web portals to remotely access their trading partners information systems Low integration ESCC can be implemented at low cost and offers advantages such as positive return on investment competitive advantage and a head start toward advanced ESCC At the time of the study only a few SJSJs had attempted even low integration ESCC SJSJs have however widely adopted the Internet for static Web sites for email and for exchanging electronic documents including CAD drawings Although neither haste nor large investment are called for the study recommends that SJSJs take measured steps toward truly integrated ESCC and concludes that skills in ESCC will be necessary for SJSJs to protect their competitive advantages within the next four to eight years
