Ensayos Escogidos:

Ensayos escogidos Michel Eyquem de Montaigne, 2006-05-09 Este copioso denso y variadísimo libro inaugura un nuevo género literario el ensayo En sus páginas la sabiduría de Montaigne es sobre todo inteligente discreción Su perspicacia llega a nosotros por un camino estremecido como vacilante La mezcla de esa aparente incertidumbre y del rigor con que Montaigne plantea adivinaciones importantes hace que lo natural del tejido literario nos atrape con esa fuerza con que sólo cautivan en la literatura y en la vida las experiencias que nos elevan El autor nos convence paso a paso de que lo que normalmente suele llamarse complicado no es sino la consecuencia del desconocimiento personal Las formas y el tono confesional con que están escritos los ensayos sirven para combatir lo complicado y demostrar que la riqueza del hombre en la medida en que esta exista no permite nunca la presunción sino cierta y muy definida seguridad el hombre es rico por diverso por posible

Constitutionalism and the Paradox of Principles and Rules Marcelo Neves,2021-04-29 This title offers a unique approach to constitutionalism focusing on the paradoxical relationship between principles and rules from the perspective of systems theory It presents a critical counterpoint to Ronald Dworkin s principle based theory and in particular to Robert Alexy s idea of optimizing balancing Instead of ceding to the compulsion of an optimizing balancing it suggests the possibility of a comparative or at least satisficing balancing considering the precariousness of legal rationality The book also reverses Dworkin s metaphor associating rules with Hercules and principles with the Hydra It takes constitutional principles seriously criticizing the abuse of principles by the legal and constitutional doctrine and practice and pointing out their relationship of complementarity and tension with rules Finally it offers an alternative model to the recent legal and constitutional theory on the basis of certain assumptions of the systems theory It deals especially with the paradox of the circular and reflexive relationship between constitutional principles and rules the former refers primarily to the openness and adequacy of legal system to society and thus to substantive argumentation the second refers primarily to the closure and consistency of legal system and thus to formal argumentation
