Russia in the Early Modern World Donald Ostrowski, 2022-01-25 A fundamental problem in studying early modern Russian history is determining Russia's historical development in relationship to the rest of the world. The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities. The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success. Instead, Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two. During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know-how mostly from Europe but also from Asia. In this respect they were willing to look abroad for solutions to domestic problems. Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland. The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies. The Church played an active role in supporting the government and in seeking to eliminate opposition to the government.

The Abolition of Serfdom in Russia David Moon, 2014-09-25 In February 1861 Tsar Alexander II issued the statutes abolishing the institution of serfdom in Russia. The procedures set in motion by Alexander II undid the ties that bound together 22 million serfs and 100 000 noble estate owners and changed the face of Russia. Rather than presenting abolition as an event that happened in February 1861, *The Abolition of Serfdom in Russia* presents the reform as a process. It traces the origins of the abolition of serfdom back to reforms in related areas in 1762 and forward to the culmination of the process in 1907. Written in an engaging and accessible manner, the book shows how the reform process linked the old social, economic, and political order of eighteenth-century Russia with the radical transformations of the late nineteenth and early twentieth centuries that culminated in revolution in 1917.

Peasant Farming in Muscovy Robert E. F. Smith, 1977 This comprehensive study of farming methods and agrarian organization in Russia before the time of Peter the Great shifts the emphasis from the great estates to the basic production unit, the peasant family farm, and uses archaeological and ethnographic materials to supplement the documentary evidence. The methods of production and the farm implements used are described in detail, and Professor Smith argues that features inherent in peasant farming account for Russian backwardness during this period. Part I classifies and describes the range of agrarian activities carried on in Muscovy: arable farming, hayfields, livestock, and gathering from the forest, and presents a model of a hypothetical farm unit. Part II examines three regions: Moscow, Toropets, and Kazan, which stretch across central European Russia, and Part III provides a chapter on the relationship between peasant farming and the state.

Cartographies of Tsardom Valerie Ann Kivelson, 2006 By studying 17th-century maps, Kivelson sheds light on Muscovite Russia: the relationship of state and society, the growth of an empire, the rise of serfdom, and the place of Orthodox Christianity in society. OCLC

Cossack Rebellions Linda Gordon, 1983-01-01 The Ukrainian Cossacks

were a complex and tenacious group influential far beyond their numbers This book offers an admiring critical and close examination of the unique cossack phenomenon It reveals the sources of their surprising power by looking at them in action in their sixteenth century uprisings The interpretation is organized around three themes offering resolutions of three apparent contradictions in cossack activity first how the cossacks could act simultaneously as individualist mercenaries and yet also lead a collective class conscious social rebellion second how they could be simultaneously traditionalist and yet also provide leadership for the developing modern Ukrainian nationalism and third how the cossacks could be simultaneously unique quintessentially Ukrainian and yet form a part of a worldwide response to economic transformations that drew Eastern Europe into a position as exploited agricultural provider for Western Europe

Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism

Langer, 2001-12-11 History is full of surprises but rarely has there been a turnaround as unexpected and momentous as what occurred to a formative Russia during the medieval period Attacked and invaded from all sides it hardly looked as if the small Slavic principalities would survive But they did and were eventually absorbed into Kiev Rus and then Muscovy which gradually expanded and laid the foundation for a huge empire The author uncovers this extraordinary period from the founding of the Kievan state to the accession of Peter the Great in 1682 describing both the times of danger and defeat and those of expansion and revitalization Entries cover o Tsars o Princes and khans o Pretenders and rebels o Patriarchs and priests o Russians o Mongols and others *The Entry of the Slavs Into Christendom* A. P. Vlasto, 1970-10-02 Dr Vlasto reviews the early history of the various Slav peoples from about AD 500 onwards and traces their gradual emergence as Christian states within the framework of either West or East European culture Special attention is paid to the political and cultural rivalry between East and West for the allegiance of certain Slav peoples and to the degree of cultural exchange within the Slav world associated in particular with the use of the Slav liturgical language His examination of all the Slav peoples and extensive use of original source material in many different languages enables Dr Vlasto to give a particularly comprehensive study of the subject Russia's First Civil War Chester S. L. Dunning, 2010-11-01 He shows that serfs did not actively participate in the civil war and that the abolition of serfdom was never a rebel goal Instead most rebels were petty gentry professional soldiers townsmen and cossacks who were united in fierce opposition to tsars they believed to be illegitimate usurpers **A Companion to Russian History** Abbott Gleason, 2014-01-28 This companion comprises 28 essays by international scholars offering an analytical overview of the development of Russian history from the earliest Slavs through to the present day Includes essays by both prominent and emerging scholars from Russia Great Britain the US and Canada Analyzes the entire sweep of Russian history from debates over how to identify the earliest Slavs through the Yeltsin Era and future prospects for post Soviet Russia Offers an extensive review of the medieval period religion culture and the experiences of ordinary people Offers a balanced review of both traditional and cutting edge topics demonstrating the range and dynamism of the field
