Entanglements Of Power Geographies Of Domination And Resistance:

Entanglements of Power Ronan Paddison, Chris Philo, Paul Routledge, Joanne Sharp, 2002-09-11 This book argues that practices of resistance cannot be separated from practices of domination and that they are always entangled in some configuration. They are inextricably linked such that one always bears at least a trace of the other that contaminates or subverts it. The team of contributors explore themes of identity, embodiment, organisation, colonialism and political transformation, examining them from historical, contemporary and more abstract perspectives within a wide geographical and cultural spectrum. Case studies include German Reunification, Jamaican Yardies on British Television, Victorian Sexuality and Moralisation in Cremorne Gardens, Ethnicity, Gender and Nation in Ecuador, Sport as Power, the film *Falling Down*. *Entanglements of Power* presents an exciting and challenging account of the symbiotic relationship between domination and resistance and contextualises this within the parameters of geography with a rich body of case study material and a respected team of contributors.

Entanglements of Power Joanne P. Sharp, 2002 *An Intercultural Theology of Migration* Gemma Cruz, 2010-01-15 Migration has long been associated with the social sciences. However, as a phenomenon that provides windows into possibly new forms of oppression and at the same time paths toward human liberation, a systematic theological look at contemporary migration is long overdue. Building on the emerging interest on migration in theology, this book presents an intercultural theology of migration drawn from the experience of Filipino women domestic workers in Hong Kong in dialogue with theological ethics and liberationist theologies. The result is a new look at the phenomenon of contemporary migration.

Resisting Gendered Norms Mona Lilja, 2016-04-08 Political scientists have on occasion missed subtle but powerful forms of everyday resistance and have not been able to show how different representations, pictures, statements, images, practices have different impacts when negotiating power. Instead, they have concentrated on open forms of resistance: organized rebellions and collective actions. Departing from James Scott's idea that oppression and resistance are in constant change, *Resisting Gendered Norms* provides us with a compelling account on the nexus between gender resistance and gender-based violence in Cambodia. To illustrate how resistance is often carried out in the tension between, on the one hand, universal globalised representations and on the other, local truths and identity constructions, in-depth interviews with civil society representatives, politicians as well as stakeholders within the legal/judicial system were conducted.

Skype: Bodies, Screens, Space Robyn Longhurst, 2016-09-13. Despite the popularity of Skype with video, many of us are still figuring out how to do it. Interviews reveal that we can now run the programme, but we are less certain about how to perform in front of the webcam. Seeing ourselves in the box on the side can feel strange. We are not quite sure which bits of our bodies to display on the screen, how much to move around the room, or move the device around the room. Is it acceptable to use Skype with video at a funeral in crowded spaces or while in bed? This book addresses how people are emotionally and affectually connecting with others, audio synchronously on the screen, in a variety of different spatial contexts. Topics include Skype with video being used by grandparents to connect with grandchildren, friends and family using it for special occasions, and partners using it for romance and sex. Theories addressing bodies, gender, queerness, phenomenology, and orientation inform the research. It concludes that while Skype does not offer some kind of utopian future, it does open up possibilities for existing power relations to be filtered through new lines of sight, sites which are shaping what bodies can do and where.

Kurds in Turkey Lucie Drechselová, Adnan Çelik, 2019-06-27. *Kurds in Turkey: Ethnographies of Heterogeneous Experiences* is the newest contribution to the burgeoning Kurdish Studies literature. The edited volume unites eight junior scholars who offer ethnographic studies based on their latest research. The chapters are clustered around four main headings: women's participation, paramilitary space, and infrapolitics of resistance. Each heading assembles two chapters which are in dialog with each other and offer complementary and at times competing perspectives. All four headings correspond to the emerging domains of research in Kurdish studies. Authors share a micro-level focus and take extensive field work as the basis of their argument. In the wake of massive urban destructions and renewed warfare in the Kurdish region in Turkey, this volume also stakes a stance against the memocide of the Kurdish municipal experience and cultural production.

The Ashgate Research Companion to Critical Geopolitics Merje Kuus, 2016-04-01. Since the late 1980s, critical geopolitics has gone from being a radical critical perspective on the disciplines of political geography and international relations theory to becoming a recognised area of research in its own right.

Influenced by poststructuralist concerns with the politics of representation critical geopolitics considers the ways in which the use of particular discourses shape political practices Initially critical geopolitics analysed the practical geopolitical language of the elites and intellectuals of statecraft Subsequent iterations have considered the role that popular representations of the international political world play As critical geopolitics has become a more established part of political geography it has attracted ever more critique from feminists for its apparent blindness to the embodied effects of geopolitical praxis and from those who have been uncomfortable about its textual focus while others have challenged critical geopolitics to address alternative resistant forms of geopolitical practice Again critical geopolitics has been reworked to incorporate these challenges and the latest iterations have encompassed normative agendas non representational theory emotional geographies and affect It is against the vibrant backdrop of this intellectual development of critical geopolitics as a subdiscipline that this Companion is set Bringing together leading researchers associated with the different forms of critical geopolitics this volume produces an overview of its achievements limitations and areas of new and potential future development The Companion is designed to serve as a key resource for an interdisciplinary group of scholars and practitioners interested in the spatiality of politics

The Discourse of Neoliberalism Simon Springer,2016-07-29 Why should we be worried about neoliberalism if we are not able to fully appreciate its deleterious effects How can we fully appreciate its intricacies and power without attending to and seeking to potentially reconcile the various critical theorizations of how it actually operates The Discourse of Neoliberalism offers a critical political economy meets poststructuralist perspective on the relationship between neoliberalism and power By advancing a geographical approach to understanding the discursive formations and material consequences of neoliberalism the book exposes how processes of neoliberalization are shot through with violence It argues that reading neoliberalism as a discourse better equips us to understand the power of this variegated economic formation as an expansive process of social spatial transformation that is intimately bound up with the production of poverty inequality and violence across the globe It illuminates the vital and ongoing power of neoliberalism in order to open up a critical space for thinking through how life beyond neoliberalism might be achieved
