

ENTERPRISE IN THE PERIOD OF FASCISM IN EUROPE

EDITED BY
HAROLD JAMES AND JACOB TANNER

Enterprise In The Period Of Fascism In Europe

Joachim Lund

Enterprise In The Period Of Fascism In Europe:

Enterprise in the Period of Fascism in Europe Harold James, Jakob Tanner, 2017-07-05 The essays in this volume consider the involvement of business corporations and of individual businessmen in the politics of the 1930s and 1940s in the move away from the market and also from democracy towards state control and authoritarianism including the massive intervention of the state in property rights How far did businesses attempt to guide this intervention for their own purposes and to what extent did they succeed This debate deals centrally with the role of German business of banks of industrial corporations and of small tradesmen in the Nazi regime An older discussion of how they may have facilitated the Nazi takeover has been supplemented here by an investigation into how they made the regime's policies possible and the extent to which the profit motive drove them to participate with sometimes more sometimes less enthusiasm in the politics of inhumanity Such discussion has been given further impetus by legal action initially in the United States in the form of class action suits on behalf of the victims of Nazism What do such legal and political debates mean for business history What are the current responsibilities of business facing the consequences of historical action And what lessons should be learned concerning the ethics of business behaviour The contributions to this volume were originally presented as papers at a conference organised by the Society for European Business History in Paris in November 1998 European Business, Dictatorship, and Political Risk, 1920-1945 Christopher Kobrak, Per H. Hansen, 2004 For much of the twentieth century the prevalence of dictatorial regimes has left business especially multinational firms with a series of complex and for the most part unwelcome choices This volume which includes essays by noted American and European scholars such as Mira Wilkins Gerald Feldman Peter Hayes and Wilfried Feldenkirchen sets business activity in its political and social context and describes some of the strategic and tactical responses of firms investing from or into Europe to a myriad of opportunities and risks posed by host or home country authoritarian governments during the interwar period Although principally a work of history it puts into perspective some commercial dilemmas with which practitioners and business theorists must still unfortunately grapple *The Historiography of the Holocaust* D. Stone, 2004-01-20 This collection of essays by leading scholars in their fields provides the most comprehensive and up to date survey of Holocaust historiography available Covering both long established historical disputes as well as research questions and methodologies that have developed in the last decade's massive growth in Holocaust Studies this collection will be of enormous benefit to students and scholars alike **Working for the New Order** Joachim Lund, 2006 During the Second World War the collaboration dilemma regarding Europe's business life came to the forefront as business leaders were faced with the necessity of cooperating with the German enemy in order to maintain production and survive as economic units Working for the New Order examines Europe's corporate survival in a highly unstable business environment during this period of time Cooperation with the dominant European power aimed to secure the future for business national economies and the nation states of Europe With this point of reference

Europe's business life of working for the New Order contributed substantially to the Nazi German war effort **Economies under Occupation** Marcel Boldorf, Tetsuji Okazaki, 2015-03-24 Nazi Germany and Japan occupied huge areas at least for some period during World War II and those territories became integral parts of their war economies. The book focuses on the policies of World War II aggressors in occupied countries. The unbalanced economic and financial relations were defined by administrative control, the implementation of institutions and a variety of military exploitation strategies. Plundering, looting and requisitions were frequent aggressive acts, but beyond these interventions by force, specific institutions were created to gain control over the occupied economies as a whole. An appropriate institutional setting was also crucial to give incentives to the companies in the occupied countries to produce munitions for the aggressors. The book explains the main fields of war exploitation: organisation and control, war financing and workforce recruitment. It substantiates these aspects in case studies of occupied countries and gives examples of the business policy of multinational companies under war conditions. The book also provides an account of differences and similarities of the two occupation systems. *Economies under Occupation* will interest researchers specialising in the history of economic thought as well as in economic theory and philosophy. It will also engage readers concerned with regional European and Japanese studies and imperial histories. **Global Great**

Depression and the Coming of World War II John E. Moser, 2015-11-17 The *Global Great Depression and the Coming of World War II* demonstrates the ways in which the economic crisis of the late 1920s and early 1930s helped to cause and shape the course of the Second World War. Historian John E. Moser points to the essential uniformity in the way in which the world's industrialized and industrializing nations responded to the challenge of the Depression. Among these nations, there was a move away from legislative deliberation and toward executive authority, away from free trade and toward the creation of regional trading blocs, away from the international gold standard and toward managed national currencies, away from chaotic individual liberty and toward rational regimentation, in other words, away from classical liberalism and toward some combination of corporatism, nationalism and militarism. For all the similarities, however, there was still a great divide between two different general approaches to the economic crisis. Those countries that enjoyed easy, unchallenged access to resources and markets—the United States, Great Britain, the Soviet Union and France—tended to turn inward, erecting tariff walls and promoting domestic recovery at the expense of the international order. On the other hand, those nations that lacked such access—Germany and Japan—sought to take the necessary resources and markets by force. The interplay of these powers then constituted the dynamic of international relations of the 1930s: nations attempting to achieve self-sufficiency through aggressive means, challenging haves that were too distrustful of one another and too preoccupied with their own domestic affairs to work cooperatively in an effort to stop them. **The International Aluminium Cartel** Marco

Bertilorenzi, 2015-09-16 Aluminium was one of the most cartelised industries in the international economic panorama of the 20th century. Born following the discovery of the electrolytic smelting process in 1886, this industry even in its infancy established a

cartel which characterised its history until nearly 1980 Managers of the aluminium industry from various historical eras and countries shared the same vision about the development of their industry to keep prices as stable as possible in order to encourage expansions and to provide return on investments Price instability which characterised the trade of other commodities was unknown to the aluminium industry This book neither argues that cartels are fundamentally evil nor attempts to demonstrate that cartels are optimal business organisations It instead provides an in depth and frank analysis of the internal working of industrial organisations and of the interplay between cartels and political powers and institutions The International Aluminium Cartel offers explanations for the construction and collapse of cartels descriptions of their operations and an historical interpretation of their experiences Incorporating information gleaned from a unique collection of private and public archives from several countries this unique study will appeal to a wide variety of readers including academics interested in industrial and business history

Laboring Along Adrian Grama, 2018-11-05 Products of war rather than revolution the socialist regimes of Eastern Europe emerged in a global conjuncture defined by the aftermath of the Second World War How did these regimes manage to overcome the domestic impact of the war and build socialism at the same time This book shows how a commitment to productivity structured the transition from the period of postwar reconstruction to the take off of industrial development during the late 1950s Conceived as 1 pacification of labor relations 2 the recovery of managerial authority 3 monetarization of everyday life 4 rationalization and 5 austerity the politics of productivity provides a comprehensive conceptual framework for grasping together the end of the postwar period and the building of state socialism in Eastern Europe By revealing how the social consequences of the Second World War were absorbed in the transition to authoritarian state socialism in the age of the rolling steel mill this book carries implications for the way in which we may think about the aftermath of wars reconstruction and development during the second half of the twentieth century

Forms of Enterprise in 20th Century Italy Andrea Colli, Michelangelo Vasta, 2010-01-01 This book provides a wide ranging analysis of change in size and nature of Italian firms and thus a unique and fascinating perspective on the evolution of one of the major industrial economies of the 20th century An example of business history as it ought to be done Giovanni Federico European University Institute Italy This book is necessary reading for a real understanding of the evolution of Italian capitalism during the last century It moves away from a simplified view of the Italian industrial structure as just composed by small enterprises and successfully sheds light on the variety of different forms of enterprises the compose Italian system The lively picture that emerges from this book is the one of richer types of enterprises which have evolved over time and have contributed in different ways to Italian economic growth Franco Malerba Bocconi University Italy Taking an historical perspective this unique book highlights the evolution of the many diverse forms of business enterprise and discusses the contribution of these different types of firm to the economic growth of Italy One important issue that has recently captured the attention and the research efforts of both economists and economic historians has been the debate on

varieties of capitalism in the modern world In this context the expert contributors analyze the various stages of Italian development that have been characterized by diverse dominating forms of enterprise which in turn have adapted to the nature of technological and market opportunities at the institutional national and international level This book proposes a new interpretation of the Italian case that utilizes both the structural and macroeconomic perspective of comparative history as well as the microeconomic perspectives focusing on the strategies of different economic agents Based on solid quantitative evidence this original work will prove to be a valuable resource for academics and students of strategy and organization economic historians and applied economists

Fascism and Political Theory Daniel Woodley, 2009-09-17 *Fascism and Political Theory* offers both students and researchers a thematic analysis of fascism focusing on the structural and ideological links between fascism capitalism and modernity Intended as a critical discussion of the origins and development of fascist ideology each chapter deals with a core substantive issue in political theory relevant to the study of fascism and totalitarianism beginning with an assessment of the current state of debate The emphasis on formal ideology in contemporary Anglo American historiography has increased our awareness of the complexity and eclectic nature of fascist ideologies which challenge liberalism and social democracy Yet in too many recent works a programmatic or essentialist reading of fascist ideology as a secular religion is taken for granted while researchers remain preoccupied with the search for an elusive fascist minimum In this book Woodley emphasizes that many outstanding questions remain including the structural and ideological links between fascism and capitalism the social construction of fascist nationalism and the origins of fascist violence in European colonialism This volume consolidates the reader's theoretical understanding and provides the interdisciplinary skills necessary to understand the concrete social economic and political conditions which generate and sustain fascism A timely critique of culturalist and revisionist approaches in fascism studies which provides a concise overview of theoretical debates between liberalism Marxism and poststructuralism this text will be of great interest to students of politics modern history and sociology

Fascism Michael S. Neiberg, 2017-11-30 This volume presents the best writings on the origins development success and failure of fascism outside Germany By treating the problem in a global context these essays together add tremendous complexity to our understanding of one of history's most destructive political movements The collection covers theories origins and definitions of fascism fascism in power fascism in opposition and fascism in a global and comparative setting

Index of Conference Proceedings British Library. Document Supply Centre, 2002

The British National Bibliography Arthur James Wells, 2002

The Silicon Empire Michael B. Likosky, 2018-01-18 Michael Likosky examines the continuities and discontinuities between colonial and present day high tech transnational legal orders His concern is specifically with the colonial characteristics of the legal order which underpins the global high tech economy He distinguishes the democratic and human rights rhetoric of this economy from a reality wherein the legal order is often used to reproduce colonial type relationships Just as in the colonial period the expansion of trans border commerce overlaps

with democratic demands and human rights in complex multifaceted and paradoxical ways Through a case study looking at Malaysia's Multimedia Super Corridor a high tech national development plan and foreign direct investment scheme he examines how the transnational leaders of the high tech economy along with the Malaysian political elite react when human rights problems threaten to derail commercial plans

A History of Fascism, 1914-1945 Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti The Nation A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly *Book Review Index*, 2006 Every 3rd issue is a quarterly cumulation

European Modernity and Beyond Göran Therborn, 1995-03-06 In this book one of Europe's foremost sociologists offers a profound and accessible overview of the trajectory of European societies East and West since the end of World War II Combining theoretical depth with factual analysis Göran Therborn addresses the questions that underpin an understanding of the nature of European modernity including To what extent is the period 1945-2000 producing fundamental change and what are the areas of continuity Have the societies of Europe become more similar to others on the globe or more distinctively European What are the prospects of Europe after decades of postwar change and the end of the Cold War Issues covered include the division of paid and unpaid labour

China Against the Tides, 3rd Ed. Marc Blecher, 2009-10-15 China Against the Tides 3rd Edition argues that in both Mao and Deng periods China evolved in ways quite different from the Soviet model and from other developing countries Using an interdisciplinary and comparative approach the book analyzes China by introducing theories and concepts from historical and political sociology economic development and political science It also explores China from two comparative perspectives developing countries including the newly industrializing countries of East Asia and historical state socialist regimes China Against the Tides 3rd Edition seeks to combine both the internal perspectives of the actors themselves with the external standpoint of the social scientist China is of course unique but so are all countries But like other countries its distinctiveness can best be grasped by observing it from outside as well as from within Every chapter in the third edition as well as the end bibliography has been updated In addition a new section examines China's international relations and new coverage has been added throughout the chapters For example the third edition discusses the Hu Wen leadership that came to power in 2002 China's economic growth and social development internet technology the continued drumbeat of protests of various kinds the situation in Tibet the Olympic Games the May 2008 earthquake plus smaller but still notable events such as the 2003 SARS outbreak the Three Gorges Dam and the 2005

pollution episode on the Songhua River *Confronting the Costs of War* Michael N. Barnett, 2012-09-14 What determines the strategies by which a state mobilizes resources for war And does war preparation strengthen or weaken the state in relation to society In addressing these questions Michael Barnett develops a novel theoretical framework that traces the connection between war preparation and changes in state society relations and applies that framework to Egypt from 1952 to 1977 and Israel from 1948 through 1977 *Confronting the Costs of War* addresses major issues in international relations comparative politics and Middle Eastern studies *A Distant View* Jurjen Wiersma, 1997 Peeters 1997

Enterprise In The Period Of Fascism In Europe Introduction

In the digital age, access to information has become easier than ever before. The ability to download Enterprise In The Period Of Fascism In Europe has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Enterprise In The Period Of Fascism In Europe has opened up a world of possibilities. Downloading Enterprise In The Period Of Fascism In Europe provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Enterprise In The Period Of Fascism In Europe has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Enterprise In The Period Of Fascism In Europe. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Enterprise In The Period Of Fascism In Europe. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Enterprise In The Period Of

Fascism In Europe, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Enterprise In The Period Of Fascism In Europe has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Enterprise In The Period Of Fascism In Europe Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Enterprise In The Period Of Fascism In Europe is one of the best book in our library for free trial. We provide copy of Enterprise In The Period Of Fascism In Europe in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Enterprise In The Period Of Fascism In Europe. Where to download Enterprise In The Period Of Fascism In Europe online for free? Are you looking for Enterprise In The Period Of Fascism In Europe PDF? This is definitely going to save you time and cash in something you should think about.
