Through practical examples it explains the relationship between business requirements, business process design and service architecture. By tying the SOA implementation directly to business value it reveals the key to ongoing success and funding.

Maja Tibblin, Lead Enterprise Architect, Con way Inc. While there are other books on architecture and the implementation of ESB, SOA and related technologies, this new book uniquely captures the knowledge and experience of the real world. It shows how you can transform requirements and vision into solid, repeatable and value added architectures. I heartily recommend it.

Mark Wencek, SVP Consulting Services, Alliances, Ultimo Software Solutions Inc.
