Entitlement And The Affectional Bond Justice In Close Relationships:

Entitlement and the Affectional Bond Melvin J. Lerner, Gerold Mikula, 2013-06-29 If the truth were told this volume and its direct antecedents must rank among the most ambitious if not simply pretentious endeavors imaginable at least in the social sciences The titles of the volume and the chapters promising to integrate the experiences of the sense of justice and the affectional bonding of people in close relations seem straightforward and reasonable enough What they fail to convey however is the simple bald fact that we in the human social sciences have no firm grasp on either of these two fundamental experiences what we sometimes call love and justice To begin with even as scientists committed to understanding based upon systematic propositions linking publicly observable concepts we have no clear consensus concerning the nature of the affectional bonds linking people in close relationships love intimacy caring mutual responsiveness or the sense of justice fairness deserving and in our efforts to understand entitlement And we are continually handicapped stand these complex moving experiences by the persistent tendency to reduce them to manifestations of nothing but familiar psychological or even biological processes secondary rewards selfish genes So why then this volume Although there are many answers to the question probably the most germane is that the basic issues are so important and intriguing that the recent past has seen rather dramatic parallel growth in social scientists interest in these two areas justice and close relationships **Current**

Societal Concerns about Justice Leo Montada, Melvin J. Lerner, 2013-06-29 What role does justice play in the formation of public opinion and the scholarly debates about social problems Does the perception of injustice force problems to appear on the political agenda Does the perception of an injustice give momentum to social change Or are violations of self interest or threats to one's material welfare the more important factors Or are empathy driven concerns for the needy and the disadvantaged motivations to solve societal problems What is known about the role justice concerns play in leadership In several chapters of this volume justice concerns and justice motives are viewed in relation to other concerns and motivations welfare self interest altruism It is argued that the consensus of political theorists converges on mutual advantage as the main criterion of acceptable solutions to solving societal problems In economics self interest is considered the driving force and provides the criterion of acceptable solutions Sociological and social psychological exchange theories share these basic assumptions Thus questions are raised and answered concerning how justice and these other important motives appear in the analyses of societal problems and the search for solutions Moreover in addition to the issue of conflicting motives self interest altruism justice it is commonly recognized that the definition of what is just and what is unjust is open to question In public as well as in scientific dialogues diverging views about justice have to be integrated or decided upon **Aversive**

Values, Achievement, and Justice Norman T. Feather, 2005-12-02 When we say that a person deserves a positive or negative outcome we are making a judgment that is influenced by a number of variables We would certainly take into account whether the person was responsible for the outcome or whether the outcome could be attributed to other sources We would also consider whether the actions that led to the positive or negative outcome were actions that we would value or actions that would meet with our disapproval We might also be influenced by the person s own positive or negative characteristics by our knowledge of what kinds of groups or social categories the person belonged to and by whether we like or dislike the person Information about these different variables has to be considered and integrated in some way and our judgment of deservingness follows that psychological process a process that involves the cognitive affective system Values Achievement and Justice is about deservingness and about the variables that affect the judgments we make I use the term deservingness although I could equally have referred to

deservedness or desert The terms are all virtually equivalent in meaning although dictionaries may separate them by using fine distinctions I assume that the sorts of variables I have just described will affect our judgments of deservingness and I further assume that a judgment of deservingness is most likely to occur when these variables fit together in a consistent harmonious and balanced way Taxing Democracy Valerie Braithwaite, 2017-03-02 The integrity of tax systems as we know them are being challenged throughout the world Tax avoidance schemes of various kinds are proving increasingly attractive and lucrative to wealthy individuals and large corporations As governments fear the erosion of their tax base among those who are most able to contribute the public is looking on as one of its most public institutions attempts to reinvent itself through changing laws and administrative procedures In this book a number of experts develop the idea of responsive regulation in relation to taxation They demonstrate how law in this area is undermining social norms and social norms are undermining law A key factor in their analysis is the perception of justice Explanations as to why the integrity of tax systems is under siege and possible solutions are examined *The Justice Motive as a Personal Resource* Claudia Dalbert, 2013-04-18 Beginning with the assumption that a justice motive exists the author posits that belief in a just world influences the behavior of most people most of the time This is true for all people of all ages and in all areas of life for those struggling with their daily tasks as well as for those coping with a critical life event An individual's belief in a just world is a necessary condition for a person's sense of fairness and mediates its adaptive effect on mental health Distributive and Procedural Justice Kjell Törnblom, Riël Vermunt, 2016-05-23 This interdisciplinary and cross national volume brings together theory and research by prominent scholars within the areas of distributive and procedural justice not only featuring work within each area separately as is commonly done but also showing how combinations of the two justice orientations might operate to affect justice judgments and guide behaviour Chapters cover various levels of analysis from intra personal to interpersonal to group and societal levels The volume is divided into four sections distributive justice procedural justice distributive and procedural justice and methodological issues Each section is subdivided into two parts basic research and applied research re current and important societal issues Each chapter contains an overview of theoretical and empirical research on a particular topic The volume is designed for use on courses in social psychology psychology sociology political philosophy and law **Young Europeans, Work and Family** Julia Brannen, Susan Lewis, Anne Nilsen, 2002-11-01 Based on qualitative research carried out with young people aged from 18 to 30 in five European countries *Young Europeans Work and Family* examines young people's pathways to adulthood and their perspectives on their future work and family lives This enlightening book investigates young people from a range of social classes and at various phases in their life in training in higher education in insecure work and in steady jobs including high and low status employment The study was carried out by a cross disciplinary team of researchers from Ireland Norway Portugal Sweden and the UK countries that represent a variety of economic profiles and welfare state regimes Handbook of Social Justice Theory and Research Clara Sabbagh, Manfred

Literature Promote Justice? Kimberly A. Nance,2006 As if in direct response to The New Yorker s question of The Power of the Pen Does Literature Change Anything Kimberly Nance takes up the relationship between ethics and literature With the 40th anniversary of the testimonio occurring in 2006 there has never been a better time to reconsider its role in achieving social justice The advent of the testimonio loosely a political autobiography of a Latin American activist who hopes through the telling of her life story to bring about change was met with a great deal of excitement by scholars who posited it as a radical new form of literature Those accolades were almost immediately followed by a series of critical problems In what sense were testimonios true What right did privileged scholars in the U S have to engage accounts of suffering with traditional modes of criticism Were questions of veracity or aesthetics more important Were these texts autobiography or political screeds It seemed critics didn t know quite what to make of the testimonio and so after a brief bout of engagement disregarded it Nance however argues that any form as prolific as the testimonio is well worth examining and that these questions rather than being insurmountable are exactly the questions with which scholars ought to be wrestling If as critics claim that the testimonio is one of the most pervasive contemporary Latin American cultural genres then it is high time for a comprehensive study of the genre such as Nance s **The State of Affairs** Jean Duncombe,Kaeren Harrison,Graham

chapters throughout The volume provides broad literature reviews and theoretical discussions concerning particular aspects of affairs such as communication and jealousy In addition case studies are used for the more detailed exploration of heterosexual affairs and contemporary developments in gay male and lesbian relationships The State of Affairs will be of interest to researchers scholars and students in social psychology communication sociology family social and clinical psychology and for practitioners in couple counseling
