Lo que Borges enseñó a Cervantes César Domínguez, Haun Saussy, Darío Villanueva, 2016-03-17 Lo que Borges le enseña a Cervantes es la guía más completa clara y concisa de literatura comparada. Un texto esencial para los amantes de la Literatura. Lo que Borges le enseña a Cervantes engloba tanto los debates y cambios recientes en literatura comparada como su aplicación práctica. El libro analiza también la disciplina en el contexto de la globalización y en su análisis no deja de lado la comparación con otras artes y medios audiovisuales como el cine. Repleto de ejemplos de la literatura hispánica y universal, el libro reúne las claves de una disciplina que cualquier crítico literario o estudiante de literatura necesita conocer pero abre también un mundo nuevo al lector más general que descubrir vínculos sorprendentes y una nueva perspectiva desde la que abordar sus lecturas de placer. Reseña: Un texto apasionante y claro, una guía para transitar por el mundo de la literatura en medio de la globalización para saber cómo se construye el canon literario o para analizar las influencias del cine y otras artes. Carmen Singenza La Voz de Galicia

Menéndez Pelayo y la literatura: estudios y antología María José Rodríguez Sánchez de León, 2014-06-04 La Historia de la Literatura Española entre otras cosas de ningún modo existía tal como ha llegado hasta nosotros sin la obra de Menéndez Pelayo. Más allá de partidismos ideológicos u otras consideraciones los hechos son los que son y es preciso empezar por reconocerlos. Como es sabido y se podrá comprobar hay quienes ponen en duda la pertinencia de la obra del gran maestro cuando su producción y resultado objetivo más allá de cualquier otra opinión o ideología demuestra ser por sí sola en ocasiones de resultado muy superior a la de generaciones de especialistas por individualidades o incluso en conjunto. A quien le interesa Menéndez Pelayo la respuesta es muy sencilla cuando menos a toda persona interesada por la Historia de la Literatura Española. En el presente volumen se ofrece una serie de estudios fundamentalmente dedicados a esta materia y su entorno a fin de introducir debidamente una Antología de textos sobre la misma. El cometido de esta Antología no es nuevo pero su contenido ejemplar por su función historiográfica. La obra de Menéndez Pelayo cuenta entre las grandes reconstrucciones modernas de la cultura europea.

El texto puesto en escena Barbara Louise Mujica, Anita K. Stoll, 2000 New essays on the performance of Spanish Golden Age drama. Diverse aspects of the performance of Golden Age plays are explored in this volume ranging in approach from the theoretical to the concrete and from the historical to the contemporary. Several essays focus on staging and performance in sixteenth and seventeenth century Spain examining areas such as audience reception, adaptations of Golden Age plays to the Italian stage, ways of representing the supernatural in hagiographic plays and the participation of women in the theatre. Other articles concentrate specifically on the text highlighting such issues as the representation of violence while a third group deals with modern productions looking at issues involving casting and staging for contemporary audiences and including semiological analyses of actual performances. Overall the book reflects the very latest research in comedy studies. Spanish language

Breve historia feminista de la literatura española (en lengua castellana), 1993 El volumen persigue revisar de modo histórico y teórico las etapas que

permiten plantear los momentos cumbres y las relaciones que se establecen entre escritura y feminidad presentando tanto las voces y escrituras de mujeres como las cuestiones críticas que hacen replantearse las posturas universales ante esta nueva presencia femenina Este volumen se centra en las etapas entre el siglo xix y la actualidad **Avance en investigación sobre literatura: teoría y crítica** ,2024-11-28 Con el término literatura nos referimos al arte que se sirve del lenguaje natural como vehículo para crear un texto de ficción caracterizado por su valor poético o estético y al que con el correr del tiempo se le han asignado diferentes funciones En su origen la literatura se compuso y se difundió oralmente Pero una vez que la humanidad desarrolló sistemas de escritura y soportes escriturarios como las tablillas de arcilla y el papiro para cubrir necesidades prácticas se aprovechó ese avance para fijar preservar y transmitir los textos literarios mediante la escritura La literatura por ejemplo se compuso y transmitió por tradición oral de generación en generación durante varios siglos hasta que un aedo al que la tradición ha llamado Homero la registró por escrito hacia el siglo VIII a C Con la invención de la imprenta se inauguró en Occidente el denominado Periodismo de Gutenberg período de 500 años en la historia de la humanidad en que la cultura impresa fue predominante Hoy en día asistimos a una nueva revolución propiciada por la era digital que ha transformado también de manera radical los modos en que accedemos a la literatura y por tanto nuestra forma de leerla e interpretarla De ahí que el eje temático central de este volumen sea la lectura e interpretación de la literatura en el siglo XXI

Textos literarios y contextos escolares Carlos Lomas García,Guadalupe Jover Gómez-Ferrer,Luis Landero,Juan Mata Anaya,Víctor Moreno Bayona,Gonzalo Moure Trenor,Berta Piñán Suárez,Manuel Rivas Barrós,BERNARDO ATXAGA,Gustavo Bombini,Agustín Fernández Paz,2008-09 Este libro es una invitación a un viaje de ida y vuelta un viaje de la literatura a la escuela y de la escuela a la literatura Un viaje desde los textos literarios a los contextos escolares Un viaje en cuyas páginas se habla de la escuela en la literatura pero también de qué hacer con la literatura en la escuela En este libro conviven escritores y escritoras que nos hablan de su memoria escolar y nos ofrecen sus recuerdos literarios de niñez y mocedad con especialistas en didáctica de la literatura y enseñantes que nos sugieren algunos rumbos por los que puede transitar el afán pedagógico de educar en el aprecio y en el disfrute de la experiencia literaria en estos inicios del siglo xxi y en el contexto de una educación obligatoria sometida a menudo a la fascinación de otras ficciones y de otros relatos Estudios sobre los hábitos de lectura Ramón Tena Fernández,José Soto Vázquez,2022-02-22 Identity and Nationalism in Modern Argentina Jeane DeLaney,2020-07-25 Nationalism has played a uniquely powerful role in Argentine history in large part due to the rise and enduring strength of two variants of anti liberal nationalist thought one left wing and identifying with the people and the other right wing and identifying with Argentina's Catholic heritage Although embracing very different political programs the leaders of these two forms of nationalism shared the belief that the country's nineteenth century liberal elites had betrayed the country by seeking to impose an alien ideology at odds with the supposedly true nature of the Argentine people The result in their view was an ongoing conflict between the false Argentina of the liberals and the authentic nation of true

Argentines Yet despite their commonalities scholarship has yet to pay significant attention to the interconnections between these two variants of Argentine nationalism Jeane DeLaney rectifies this oversight with *Identity and Nationalism in Modern Argentina* In this book DeLaney explores the origins and development of Argentina's two forms of nationalism by linking nationalist thought to ongoing debates over Argentine identity Part I considers the period before 1930 examining the emergence and spread of new essentialist ideas of national identity during the age of mass immigration Part II analyzes the rise of nationalist movements after 1930 by focusing on individuals who self identified as nationalists DeLaney connects the rise of Argentina's anti liberal nationalist movements to the shock of early twentieth century immigration She examines how pressures posed by the newcomers led to the weakening of the traditional ideal of Argentina as a civic community and the rise of new ethno cultural understandings of national identity *Identity and Nationalism in Modern Argentina* demonstrates that national identities are neither unitary nor immutable and that the ways in which citizens imagine their nation have crucial implications for how they perceive immigrants and whether they believe domestic minorities to be full fledged members of the national community Given the recent surge of anti immigrant sentiment in Europe and the United States this study will be of interest to scholars of nationalism political science Latin American political thought and the contemporary history of Argentina
