Entsiklopediia Mira Encyclopaedia Of Peace:

Learning Peace Betty Reardon, Eva Nordland, Robert William Zuber, 1994-01-01 The most striking feature of this book is the fact that a group of highly qualified scholars and educators collaborated before the dissolution of the Soviet Union exchanging ideas and practical programs for teaching ecological and cooperative education They modeled the process they advocate They changed their own thinking to understand the thinking of others They couched their concerns in a framework of human rights political and social responsibility and practical transformations of national educational approaches that are often myopic and competitive While accenting some positive educational trends within their national borders they also criticized cultural and educational limitations Anne Shepard Associate Superintendent of Schools Catholic Diocese of Kansas City St Joseph Missouri Foreign Social Science Bibliographies United States. contention Our coverage will span the development from 1956 to the present The beginning of the dispute with regard to the origins of war in general is taken up in the first two chapters The next three chapters discuss the several types of war with the frame of reference set in what now appears to be a quondam era But the principle differences between the disputants are just as outstanding today as they were then The penultimate chapter is somewhat wide in scope in order to deal with the larger and more intensely bitter polemics evolving after Khrushchev left office There have been many new and startling views held by both sides since then views splitting them poles apart Obviously at issue now is the question of Sino Soviet peaceful coexistence Our work obviously cannot wait until that question is answered to be finished The final chapter concludes our study To write of subjects as dynamic as this one is a challenge because they are current affairs Due to the swift change of events no sooner is our typescript put to press than it needs a revision
