History of Central Asia, The: 4-volume set Christoph Baumer,2018-04-18 This set includes all four volumes of the critically acclaimed History of Central Asia series The epic plains and arid deserts of Central Asia have witnessed some of the greatest migrations as well as many of the most transformative developments in the history of civilization Christoph Baumer s ambitious four volume treatment of the region charts the 3000 year drama of Scythians and Sarmatians Soviets and transcontinental Silk Roads trade routes and the transmission of ideas across the steppes and the breathless and brutal conquests of Alexander the Great and Chinghiz Khan Masterfully interweaving the stories of individuals and peoples the author s engaging prose is richly augmented throughout by colour photographs taken on his own travels This set includes The Age of the Steppe Warriors Volume 1 The Age of the Silk Roads Volume 2 The Age of Islam and the Mongols Volume 3 and The Age of Decline and Revival Volume 4

Epidemiology and the People's Health Nancy Krieger,2011-03-23 This concise conceptually rich and accessible book is a rallying cry for a return to the study and discussion of epidemiologic theory what it is why it matters how it has changed over time and its implications for improving population health and promoting health equity By tracing its history and contours from ancient societies on through the development of and debates within contemporary epidemiology worldwide Dr Krieger shows how epidemiologic theory has long shaped epidemiologic practice knowledge and the politics of public health

A Cultural History of Firearms in the Age of Empire Karen Jones,2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production Yet firearms have always been invested with a whole array of additional social and symbolical meanings By placing these meanings at the centre of analysis the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters By bringing cultural perspectives to bear on this most pervasive of technological artefacts the contributors explore the densely interwoven relationships between firearms and broad processes of social change In so doing they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions Not the least original feature of the book is its global frame of reference Bringing together historians of different periods and regions *A Cultural History of Firearms in the Age of Empire* overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space

Black Athena Comes of Age , *LEADERSHIP AND ORGANISATIONAL PERFORMANCE* Dr. Godwin C. Arikibe,1901 Leadership is inherent in every being despite one s job profile But qualitative training and other traits are

very important for the right behaviours Every follower possesses attribute of a leader but because these are somewhat concealed to lead effectively becomes a huge challenge to many This book is as a result of many years of research It focused on discovering those behavioural attributes that could combine effectively with the leader s competing roles to enhance his performance A Competing Value Framework CVF was applied to understand the leadership behaviours characteristics attributes and roles that could influence a leader even in the face of contingency factors The result was quite revealing Leaders that combine their roles with other attributes skills achieve behavioural complexity which are performance enhancing behaviours Furthermore leaders are distinguished by their unique mental attitude particularly in four roles they play motivation vision analytic and task master roles Combination of these with other attributes and characteristics enhances the leadership complexity This book is a useful material for those in the ministries academia and organisations of different sizes It s a book every leader must possess to comprehend the behavioural complexities relevant for organisational performance

Age of the City Ian Goldin,Tom Lee-Devlin,2023-06-22 One of the Financial Times Best Economics Books of 2023 Visionary Oxford professor Ian Goldin and The Economist s Tom Lee Devlin show why the city is where the battles of inequality social division pandemics and climate change must be faced From centres of antiquity like Athens or Rome to modern metropolises like New York or Shanghai cities throughout history have been the engines of human progress and the epicentres of our greatest achievements Now for the first time more than half of humanity lives in cities a share that continues to rise In the developing world cities are growing at a rate never seen before In this book Professor Goldin and Tom Lee Devlin show why making our societies fairer more cohesive and sustainable must start with our cities Globalization and technological change have concentrated wealth into a small number of booming metropolises leaving many smaller cities and towns behind and feeding populist resentment Yet even within seemingly thriving cities like London or San Francisco the gap between the haves and have nots continues to widen and our retreat into online worlds tears away at our social fabric Meanwhile pandemics and climate change pose existential threats to our increasingly urban world Professor Goldin and Tom Lee Devlin combine the lessons of history with a deep understanding of the challenges confronting our world today to show why cities are at a crossroads and hold our destinies in the balance
