*Environmental Consciousness and the Nine Schools of Indian Philosophy* Vandana Sharma Diya,2023-09-28 This book presents an analytical exposition of the Nine Schools of Indian philosophy extrapolating Environmental Ethics from the profound metaphysics of these Nine Schools which serve as the cornerstone of a life lived in wisdom This book uses the popular contemporary word Environment with the meaning expounded by the Vedic texts Therefore it includes the internal external and cosmic states of all the creatures of the world and relates them to the universal laws of creation preservation and annihilation of every existence following the path of the cosmic order R ta It argues that realization of the fact that all entities in the world are illuminated by the same Universal Spirit is also necessary While the book emphasizes the external environmental woes of the world such as deforestation animal cruelty pollution climate change and more it also underscores that these are merely manifestations of humans internal perverted environmental states Thus humankind should not look at external issues that are limited and temporary but should focus on the longer lasting internal transformation      *The Basics Of Environmental Science* Dr. D. Meena S. Rao,Dr. Mohd. Shaikhul Ashraf,Dr. Avon Kumar Vaid,Dr. Amit Kumar Pandey,2023-02-03 The field of study known as environmental science examines the interplay between living things and their physical surroundings Engineering information studies and the study of environmental challenges are just a few of the many topics it explores In environmental science often known as ecology researchers draw from a variety of disciplines in an effort to get a more holistic understanding of the world around us The field of the environmental science examines the complex relationships between the environment s chemical physical and biological elements Scientists that study the environment work to ensure that our planet has a long and healthy future by investigating urgent challenges like climate change and the global warming in an effort to find solutions Moreover they look into potential ecological issues and brainstorm solutions to prevent their realization Both the environmental studies and the environmental engineering are subfields of environmental science It allows researchers to examine environmental issues using a holistic and multidisciplinary framework When it comes to protecting and preserving the environment environmental engineer s analyses and deduce issues determine the impact of human made programmes and devise plans for getting rid of pollutants in water air and land      **Ethical Implications of Environmental Crisis on Present-Day Society** Dr. Rupali Devi Barua,2019-03-20 The book Ethical Implications of Environmental Crisis on Present Day Society A challenge to Future Humanity is a book based on analysis from

Ethical perspective which also details on various aspects of nature such as natural paraphernalia and bio diversity of it Man and nature s that is environment intrinsic relationship that includes nature s contribution to human civilizations is also being highlighted prior to pinpointing on the ethical analysis of human society The author hopes that her point of view will be appreciated by intellectuals as well as by laymen of our society The other books by the author to follow the above mentioned one are Ethical Implications of Environmental Crisis on Present Day Society A Challenge to Human Society Part II\_ India Chapter and also on Gandhism and the Practice of Sustainability as both are her favourite subjects

**Media, Politics and Environment** Detlef Briesen, Sarada Prasanna Das, 2023-07-15 Environmental protection has not equally established itself as a permanent fixture in the political systems of all countries to date governments and entire societies have responded to environmental challenges in a variety of ways and concrete environmental policy is still a highly national matter Moreover the perception of environmental problems varies considerably on a global scale The reasons normally cited for these differences largely stem from the environmental policy debates themselves e g poverty ignorance capital interests etc In contrast this book shows that concrete environmental policy emerges from a complex interplay of mass media and political conflicts first the mass media provide the framework for national environmental policy through agenda setting framing and scandalization second the mass media thereby change values in the political and social discourse e g by altering the perception of global commons and expanding the possibilities of interest articulation and third this can lead to political decision making processes in which legal and other measures for environmental protection are enforced The book systematically compares industrialized countries such as Germany and Japan with several rapidly emerging countries in South and Southeast Asia

*The Need for Sustainable Tourism in an Era of Global Climate Change* Pardeep Singh, Shikha Daga, Kiran Yadav, Abhay Jain, 2024-12-02 This insightful work analyses how the tourism and hospitality industry may lower its carbon footprint and maintain its long term viability by implementing energy efficient and waste reduction technology The book will discuss how sustainable tourism may achieve its sustainable development objectives and contribute to a green global economy

*Ecological Footprints in Literature: An Excursion into Selected Nature Writings and Nature Novels* Dr. Archana R. Kadiyan, 2022-08-22 The book provides a comprehensive view of the environmental discourses that are found in the literary representations of the natural world The book presents an in depth analysis of the symbolic manifestations of the outer world in various genres of literature such as nature novels and nature or ecological writings It deeply captures the mutual interactions that occur between the human and the non human world that tend to influence each other s actions and processes By exploring the ecocritical leanings and tracing all the phases of Anthropocene the book takes its readers for a deep excursion into the beauteous dynamic natural and overtly spiritual world of Nature as exhibited in the writings such as Thoreau s Walden Khushwant Singh s Nature Watch and Starhawk s The Earth Path which is contrasted against the eco catastrophic world of Rachel Carson s Silent Spring An insightful and analytical journey into the world of more unique

portrayals of the ecological world that tend to strike a balance between two distinct worlds the real and the imaginative the spiritual and the material as well as the natural and the man made as reflected in the nature novels George Eliot's *Mill on the Floss* Khushwant Singh's *I Shall not Hear the Nightingale* Starhawk's *Fifth Sacred Thing* and Ernest Callenbach's *Ecotopia A Novel* The book thus with its underpinning wisdom will be an interesting and more enlightening read for the critics academicians and researchers
