Culhane,2019-03-05 This book evaluates the predictive accuracy of the forecasts in a sample of federal environmental impact statements It examines a major federal attempt to impose rationalistic reforms on government decision makers and

the first view of National Environmental Policy Act reforms **Industrial Uses of Biomass Energy** Frank Rosillo-Calle, Sergio V. Bajay, Harry Rothman, 2000-03-09 Industrial Uses of Biomass Energy demonstrates that energy rich vegetation biomass is a key renewable energy resource for the future Brazil uniquely has a recent history of large scale biomass industrial uses that makes it a specially important test bed both for the development of biomass technology and its utilisation and for understanding h **Politics, Technology, and the Environment** William Thomas Keating, 1979 The Role of Environmental Impact Assessment in the Planning Process Michael Clark, John Herington, 1988 **The Ecological Transition** John W. Bennett, 2017-09-29 Written during the height of the ecology movement The Ecological Transition is a stunning interdisciplinary work It combines anthropology ecology and sociology to formulate an understanding of cultural environmental relationships While anthropologists have been studying relationships between humans and the physical environment for a very long time only in the last thirty years have questions inherent in these relationships broadened beyond description and classification For example the concept of environment has been extended beyond the physical into the social Although anthropologists have adopted many of the concepts that Bennett develops in the book he also feels that the central issues have never been addressed either by anthropologists or by people in related disciplines The most important of these in Bennett s opinion is the failure to incorporate a respect for the environmental in contemporary culture which would allow making exceptions in certain human practices in order to protect the environment His point in The Ecological Transition is that a basic cultural change in modern civilization is necessary to achieve this end Both a theoretical and a practical work The Ecological Transition emphasizes the relationships between human culture the physical environment technology and social policy The Ecological Transition is a challenging volume that makes us face the consequences of human behavior in the modern world its effect on pollution natural resources agriculture the economy and population to name just a few areas The book remains a significant contribution to the discourse on social economic and environmental problems While the book was first published in 1976 it still reads as a contemporary tract **The Politics of Technology Assessment** David M. O'Brien, Donald A. Marchand, 1982 **Technology Assessment** Atul Wad, Michael Radnor, 1984 *Housing and Planning References* United States. Department of Housing and Urban Development.
