Fernando Ramírez, Josefina Santana, 2018-11-05 This SpringerBrief focuses on the principles of ecotourism such as relevance of the field origin fundamental aspects definitions philosophy implications in biodiversity conservation and environmental impacts Special emphasis is also given to the interaction between ecotourism and education and it is supported by recent publications from the authors Children and Everyday Life in the Roman and Late Antique World Christian Laes, Ville Vuolanto, 2016-11-10 Children and Everyday Life in the Roman and Late Antique World explores what it meant to be a child in the Roman world what were children s concerns interests and beliefs and whether we can find traces of children s own

cultures By combining different theoretical approaches and source materials the contributors explore the environments in which children lived their experience of everyday life and what the limits were for their agency The volume brings together scholars of archaeology and material culture classicists ancient historians theologians and scholars of early Christianity and Judaism all of whom have long been involved in the study of the social and cultural history of children The topics discussed include children s living environments clothing childhood care social relations leisure and play health and disability upbringing and schooling and children s experiences of death While the main focus of the volume is on Late Antiquity its coverage begins with the early Roman Empire and extends to the early ninth century CE The result is the first book length scrutiny of the agency and experience of pre modern children [Resources in Education](#) ,2001-04

### **Educational Research and Innovation What Does Child Empowerment Mean Today? Implications for Education and Well-being**

OECD,2024-05-15 Childhood is changing in ways that we are still unpacking affected by digitalization globalization and climate change as well as shocks such as the COVID 19 pandemic In many OECD education systems child empowerment is increasingly an explicit aim of policies and practices But it is often poorly defined which risks turning it into a mere slogan With the advancement of children s rights children are increasingly being included as stakeholders in decision making processes This report gives examples of how children in OECD countries can and do participate in making decisions about issues that affect them The report examines children s emotional well being and physical activity and the role of schools as a physical space to create and support relationships It also underlines the untapped potential of media education when it comes to seizing opportunities in childhood Empowering all children to make the most of digital opportunities starts with further narrowing the gap in terms of access to digital tools and the Internet where inequalities are persistent and pervasive So what does child empowerment mean today Empowered children have the opportunity and ability to act on issues important and relevant to them can learn by making mistakes and are key contributors to democracy

### **Environmental Pollutant Exposures and Public Health**

R M Harrison,2020-10-27 Both genes and environment have profound effects upon our health While some environmental factors such as polluted air are high in the public consciousness there are many other pathways for people s exposure to toxic chemicals such as through food water and contaminated land It is not only chemicals that can affect health environmental radioactivity pathogenic organisms and our changing climate also have implications for public health and all contribute to the global burden of disease leading to both disability and deaths of millions of people annually across the world An understanding of the pathways of environmental exposure and its effects upon health is key to developing regulations and behaviours that reduce or prevent exposure and the consequent impacts upon health Covering topics from dietary exposure to chemicals through to the health effects of climate change this book brings together contributors from around the world to highlight the latest science on the impacts of environmental pollutant exposure upon public health [Outdoor Learning and Play](#) Liv Torunn Grindheim,Hanne Værum Sørensen,Angela

Rekers,2021-07-20 This Open Access book examines children s participation in dialectical reciprocity with place based institutional practices by presenting empirical research from Australia Brazil China Poland Norway and Wales Underpinned by cultural historical theory the analysis reveals how outdoors and nature form unique conditions for children s play formal and informal learning and cultural formation The analysis also surfaces how inequalities exist in societies and communities which often limit and constrain families and children s access to and participation in outdoor spaces and nature The findings highlight how institutional practices are shaped by pedagogical content teachers training institutional regulations and societal perceptions of nature children and suitable sustainable education for young children Due to crises such as climate change and the recent pandemic specific focus on the outdoors and nature in cultural formation is timely for the cultural historical theoretical tradition In doing so the book provides empirical and theoretical support for policy makers researchers educators and families to enhance increase and sustain outdoor and nature education
