Selected Environmental Law Statutes 2005-2006 West Publishing, 2005-06 **Regulation, Enforcement and Governance in Environmental Law** Richard Macrory Hon KC, 2014-10-09 Regulation Enforcement and Governance in Environmental Law is an updated edition of Richard Macrory's most influential writings. Spanning his entire career, these are all works which have helped shape contemporary environmental law and policy. The book includes the full text of his 2006 Cabinet Office Review on Regulatory Sanctions, new chapters on the Climate Change Act 2008, the Environment Tribunal, and analysis of recent leading cases. The book is divided into five thematic sections: Regulatory reform, Institutional Reform and Change, the Dynamics of Environmental Law, the Courts and the Environment, and Europe and the Environment. Reviews of the first edition: 'This book is surely destined to become a must read for anyone academic, practitioner or student interested in the development of regulation, enforcement and environmental governance.' P. Bishop, IUCN Academy of Environmental Law Journal. 'An excellent reference work on environmental law, an extremely important and valuable edition to the environmental lawyer's bookshelf.' C. Abbot, Journal of Environmental Law. 'It is a rare find, a volume which consumes one's attention for 765 pages and rarer still that such a blockbuster be a law book. This book is not solely for environmental enthusiasts; it should be essential reading for anyone concerned with institutional reform, transparency and accountability in the UK and EU.' C. MacKenzie, Cambridge Law Journal. **Agriculture and EU Environmental Law** Brian Jack, 2016-03-23 This book critically examines the development and current structure of European Union agricultural environmental measures at a substantive level. Examining the measures in an integrated manner, showing how they interrelate, linking different aspects of European Union agricultural law and policy, this volume examines the legislation adopted at European Union level as well as the impact of particular national measures to implement that legislation. Where appropriate, comparisons are drawn between the manner in which European Union legislation has been implemented among various Member States. Critically assessing European Union and national measures in the light of other policy pressures, such as the influence of world trade agreements and the political pressures exerted by the agricultural sector within the national legal systems of individual Member States, this volume is a valuable resource for academics researching and practitioners working in the areas of European Union environmental and agricultural law.
