Environmental Policy In Europe:

Implementing EU Environmental Policy Christoph Knill, Andrea Lenschow, 2000 This book examines issues of censorship publicity and teenage fandom in 1950s Britain surrounding a series of controversial Hollywood films *The Wild One* *Blackboard Jungle* *Rebel Without a Cause* *Rock Around the Clock* and *Jailhouse Rock* It also explores British cinema's commentary on juvenile delinquency through a re-examination of such British films as *The Blue Lamp* *Spare the Rod and Serious Charge* Taking a multi-dimensional approach the book intersects with star studies and social history while reappraising the stardom of Marlon Brando James Dean and Elvis Presley By looking at the specific meanings pleasures and uses British fans derived from these films it provides a logical and sustained narrative for how Hollywood star images fed into and disrupted British cultural life during a period of unprecedented teenage consumerism

Environmental Policy in the European Union John McCormick, 2001-07-06 This is an accessible but sophisticated introduction to and analysis of the increasingly important role of the European Union in environmental policy The book ranges widely over the emergence and evolution of the EU role in this critical field of policy the relationship between policies made at the EU and member state levels and the nature of the environmental policy process The book ends with in-depth studies of EU activities in key policy areas from air quality and waste management to global warming and sums up the successes and failures of EU policy to date

Environmental Policy in the EU Andrew Jordan, Camilla Adelle, 2012-11-12 The European Union EU has a hugely important effect on the way in which environmental policies are framed and implemented in many different parts of the world but especially Europe The new and comprehensively revised edition of this well-known textbook provides a state-of-the-art analysis of all the EU's environmental policies Comprising five parts it covers the rapidly changing context in which EU environmental policies are made the key actors who interact to co-produce policy and the most salient dynamics of policy making ranging from decision making through to implementation and evaluation Written by leading experts in the field individual chapters examine how the EU is responding to a multitude of different problems including biodiversity loss climate change energy insecurity and water and air pollution They tease out the many important ways in which the EU's policies on these topics co-evolve with national and international environmental policies In this third edition a mixture of learning features are employed to ensure that undergraduate and postgraduate students fully understand how EU policies in this vital area developed in the past and how they are now adapting to the rapidly evolving challenges of the twenty-first century

European Union External Environmental Policy Camilla Adelle, Katja Biedenkopf, Diarmuid Torney, 2017-11-14 This book considers the environmental policies that the EU employs outside its borders Using a systematic and coherent approach to cover a range of EU activities environmental issues and geographical areas it charts the EU's attempts to shape environmental governance beyond its borders Key questions addressed include What environmental norms rules and policies does the EU seek to promote outside its territory What types of activities does the EU engage in to pursue these objectives

How successful is the EU in achieving its external environmental policy objectives What factors explain the degree to which the EU attains its goals The book will be of interest to students and academics as well as practitioners in governments both inside and outside of the EU the EU institutions think tanks and research institutes The Origins of Energy and Environmental Policy in Europe Thomas C. Hoerber, 2013 This book examines the development of a European environmental conscience through successive steps of European integration in energy policy In the 1960s 70s the world was slowly beginning to realise that environment degradation was not sustainable With phenomena such as acid rain it became clear that pollution did not stop at national boundaries and the European environmental conscience developed in parallel to such growing environmental concerns The oil crisis in 1973 was a turning point in the integration process for both energy policy and environment policy and while further integration towards the European energy policy failed the environmental policies took shape in measures such as energy saving The Commission incorporated both energy and environmental policies into the EU policy canon and built an institutional framework responding to the insufficiency of national policy answers and the developing environmental conscience of the European people This book will be of interest to students and scholars of European Integration European Union politics and history and environmental politics and policy **Environmental Policy in Europe** Andrew J. Jordan, Duncan Liefferink, 2004-08-02 The continuing development of the European Union EU is transforming policy and politics in its member countries and possibly in an even larger number of potential members This book offers a detailed investigation of the Europeanization of national environmental policy in ten western European countries since 1970 By blending state of the art theories with fresh empirical material on the many manifestations of Europeanization it sheds new light on the dynamics that are decisively reshaping national environmental policy It also offers an original assessment of how far Europeanization has produced greater policy convergence in western Europe Throughout the approach taken is genuinely comparative drawing on the insights provided by leading country specialists

Europeanization of Environmental Policies and their Limitations Arpad Todor, Florența Elena Helepciuc, 2021-05-13 This book offers a window into the mechanisms that drive events when countries with poor track records in environmental protection and low administrative capacity join an organisation with ambitious environmental regulatory regimes which include some of the highest environmental protections standards in the world This book examines the institutional building capacity in Romania after two decades of the development of the EU's environmental policy on elaboration transposition implementation monitoring and institutional building The book examines how Romania has fared as one of the least environmentally friendly EU member states and poses the following questions What are the limits of Europeanisation in the area of public policies What is the reason why despite the overwhelming public interest in environmental issues and widespread agreement that urgent action to protect the environment and prevent catastrophic climate change are paramount the pace of achieving the goals is remains slow Why do policies fail This book brings together several case studies

focusing on the evolution of environmental policies in Romania over the last twenty years with a special focus on the post accession period 2007 onwards The book provides an analysis of policies where progress is less than satisfactory and examines why this is the case **Creating Enviromental Policy in the European Union** A. Zito,1999-10-28 Investigates the EU policy making process and why this process has taken major steps to advance environmental regulation in some areas and not others The book develops a framework emphasizing decision making modes which provide a more nuanced understanding compared to traditional EU theoretical approaches of how EU actors make decisions The Effectiveness of European Union Environmental Policy W. Grant,D. Matthews,P. Newell,2000-10-25 Several hundred directives on environmental policy have been produced by the European Union What impact has the output of the legislative factory had After considering how decisions on environmental policy in the EU are made and the balance of power between business and environmental interests this book draws on the specialist expertise of the authors to look in depth at the areas of global warming water pollution and air pollution *Environmental Policy in the European Union* Andrew Jordan,2012 This second and fully revised edition brings together some of the most influential work on the theory and practice of contemporary EU environmental policy Comprising five comprehensive parts it includes in depth case studies of contemporary policy issues such as climate change genetically modified organisms and trans Atlantic relations as well as an assessment of how well the EU is responding to new challenges such as enlargement environmental policy integration and sustainability The book s aim is to look forward and ask whether the EU is prepared or even able to respond to the new governance challenges posed by the perceived need to use new policy instruments and processes to mainstream environmental thinking in all EU policy sectors Environmental Regulation in a Federal System Tim Jeppesen,2002-01-01 An imaginative book that contributes significantly to the debate on regulatory federalism The even handed approach should appeal to a broad audience including academics policymakers and the general reader interested in the optimal institutional arrangements for the provisioning of public goods John A List University of Maryland College Park US In this important book Tim Jeppesen investigates environmental regulation in a federal system and addresses the underlying question of whether regulation should be decided centrally by EU institutions or de centrally by individual member states Whilst simple economic reasoning presumes that transboundary externalities require central solutions and local externalities need local solutions the author finds that the real answer is much more complicated *British Environmental Policy and Europe* Philip Lowe,Stephen Ward,1998 Explores the effectiveness of British organisations and groups in the environmental field in responding to the challenge of European integration **The External Environmental Policy of the European Union** Elisa Morgera,2012-10-11 This collection of essays comprehensively and systematically analyzes the various instruments and innovative approaches through which the EU is forging its external environmental policy the legal implications of its multifaceted practice and interactions with international environmental law It explains the legal and institutional framework for EU external action on environmental

protection and sustainable development identifying the changes introduced and challenges posed by the Lisbon Treaty It explores key tools and trends in defining and implementing EU external policy across a broad range of environmental issues as well as linkages with trade and human rights It also assesses the reciprocal influences between the development and implementation of EU environmental law and of international environmental law Environmental Policy in the EU Camilla Adelle, 2013 This text brings together work on EU environmental policy Incorporating a range of case studies it explores the links between levels of governance and the environment in a number of policy areas **Environmental Governance in Europe** Rüdiger K.W. Wurzel, Anthony R. Zito, A. J. Jordan, 2013-01-01 This path breaking book written by three well known experts makes an extremely valuable contribution to the study of new environmental policy instruments as well as to much wider theoretical debates about governance policy innovation learning and transfer Drawing on an unrivalled comparative empirical study of five different jurisdictions it manages to make many new points about issues that many of us thought had already been settled Martin J. Nicke Free University of Berlin and former deputy chair German Advisory Council on the Environment Germany Much more than a study of environmental policy instruments this book ranges widely and authoritatively over the government to governance debate theories of policy change regulation policy transfer and policy learning Its lessons and conclusions are relevant and timely well beyond the European context of its case studies and it will be essential reading for public policy scholars everywhere for some time to come Jeremy Rayner University of Saskatchewan Canada This book represents a very rare achievement in that it combines detailed and up to the minute empirical analysis of environmental policy over the past four decades with a sophisticated discussion and critique of current theoretical issues in comparative and policy studies generally It unfolds with a keen eye towards understanding the temporal dimensions of policy dynamics both in the specific policy field examined but also in terms of testing key analytical concepts Taken as a whole it provides the most detailed empirical assessment to date of the general government to governance hypothesis with significant implications for policy and governance studies in general Michael Howlett Simon Fraser University Canada and National University of Singapore This book fills an important gap in the environmental governance literature addressing governance at a lower level of abstraction than other texts and examining how it plays out in relation to specific modes and instruments of governing It also contributes towards governance theory building efforts through the development of an empirically relevant analytical framework In so doing it provides a firm underpinning for assessing whether to what extent and in what ways there has been a transition from government towards governance in environmental policy Neil Gunningham Australian National University Theoretically sophisticated and empirically rich this book provides an overview of the introduction development and use of new policy instruments and new modes of environmental governance in the European context taking into account both national and European Union experiences This is a welcome addition to the field Miranda Schreurs Environmental Policy Research Centre and Free University of Berlin Germany European governance has witnessed dramatic

changes in recent decades By assessing the use of new environmental policy instruments in European Union countries including the United Kingdom Germany the Netherlands and Austria this timely book analyses whether traditional forms of top down government have given way to less hierarchical governance instruments which rely strongly on societal self steering and or market forces The authors provide important new theoretical insights as well as fresh empirical detail on why and in what form these instruments are being adopted within and across different levels of governance along with analysis of the often overlooked interactions between the instrument types Providing important new theoretical insights into the governance debate by combining institutionalist and policy learning transfer approaches this book will be invaluable for both undergraduate and postgraduate students The analytical insights as well as a thorough empirical assessment of the use of environmental policy instruments in practice will prove essential for environmental policy specialists practitioners **EU**

Environmental Policy Nigel Haigh,2015-12-14 At a time when Europeans across the continent are focused on the EU s future direction this book provides an important contribution to the current debate Created for reasons quite unconnected with the environment the EU has been given a compelling new justification by the success of its environmental policy A number of factors including a number of threats that came to prominence in the 1980s and the new concept of sustainable development are responsible for pushing environmental policy to the forefront of its agenda Nigel Haigh a leading authority on the development and implementation of EU environmental policy traces its evolution from obscurity to centrality Drawing on a range of articles and lectures he demonstrates how the EU has not only adapted itself to take on entirely new subject matter but also has contributed to solving problems which individual Member States could not have dealt with on their own The book goes on to contextualise the issues throughout its history and offers insight into the future role of the EU in environmental matters This book is a valuable resource for academics and scholars as well as professionals and policy makers in the areas of environment and sustainability politics international relations and European affairs **EU**

Environmental Policy Handbook Stefan Scheuer,2005 The publication of this handbook will be interesting for everyone who will learn what the EU has done to protect the environment and to improve the quality of life in Europe and what can be achieved in future Well structured concise and forward looking the handbook describes the history and current status of EU environmental law but also looks to the future by analysing the strengths and weaknesses of the actions taken so far

Environmental Policy Integration Andrea Lenschow,2002 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company **The Impact of the Economic Crisis on European Environmental Policy** Charlotte Burns,Paul Tobin,Sebastian Sewerin,2019 This collection brings together leading environmental policy scholars to analyse whether the economic crisis has affected EU environmental policy ambition in Europe **EU Environmental Policy and the Role of Germany** Alexander Tutt,2014-06-26 Essay from the year 2013 in the subject Politics Environmental Policy grade 1 3 Universitat Aut noma de Barcelona Institut Barcelona d Estudis Internacionals IBEI course International Environmental
