Osif,2006-08-23 The field of engineering is becoming increasingly interdisciplinary and there is an ever growing need for engineers to investigate engineering and scientific resources outside their own area of expertise However studies have shown that quality information finding skills often tend to be lacking in the engineering profession Using the Engineerin

Reclaiming the Land Gregg Macey,Jonathan Z. Cannon,2007-06-22 Marianne Horinko Executive Vice President Global Environment and Technology Foundation On August 7 1978 President Carter declared a state of emergency in the community of Love Canal New York The

President urged residents of Love Canal to evacuate not because of a recent catastrophic event but because of something that occurred in the 1940 s and 1950 s This Niagara Falls community had been developed on land that was formerly used as a landfill Although the landfill was closed in 1953 it had been a dumping ground for tons of chemical wastes and that waste would eventually create an environment extremely dangerous to human health The image of chemicals seeping into the basements of American homes would produce widespread panic but would also raise the environmental consciousness of a nation and produce a legislative response that was equal to the task Americans celebrated the first Earth Day in April 1970 Throughout the rest of the decade we passed legislation intended to fulfill the promise of that day to create a clean and safe environment However there were still holes in our environmental protection in 1978 evidenced by the problems at Love Canal In response Congress passed the Comprehensive Environmental Response Compensation and Liability Act CERCLA or as many people call it Superfund Passed in 1980 this law was intended to address problems like the ones faced at Love Canal
