Environmental Theater:

Environmental Theater Richard Schechner, 1994 There is an actual living relationship between the spaces of the body and the spaces the body moves through human living tissue does not abruptly stop at the skin exercises with space are built on the assumption that human beings and space are both alive Here are the exercises which began as radical departures from standard actor training etiquette and which stand now as classic means through which the performer discovers his or her true power of transformation Available for the first time in fifteen years the new expanded edition of Environmental Theater offers a new generation of theater artists the gospel according to Richard Schechner the guru whose principles and influence have survived a quarter century of reaction and debate *Earth Matters on Stage* Theresa J. May, 2020-08-09 *Earth Matters on Stage* Ecology and Environment in American Theater tells the story of how American theater has shaped popular understandings of the environment throughout the twentieth century as it argues for theater's potential power in the age of climate change Using cultural and environmental history seven chapters interrogate key moments in American theater and American environmentalism over the course of the twentieth century in the United States It focuses in particular on how drama has represented environmental injustice and how inequality has become part of the American environmental landscape As the first book length ecocritical study of American theater *Earth Matters* examines both familiar dramas and lesser known grassroots plays in an effort to show that theater can be a powerful force for social change from frontier drama of the late nineteenth century to the eco theater movement This book argues that theater has always and already been part of the history of environmental ideas and action in the United States *Earth Matters* also maps the rise of an ecocritical thought and eco theater practice what the author calls ecodramaturgy showing how theater has informed environmental perceptions and policies Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change *The History and Theory of Environmental Scenography* Arnold Aronson, 1981 **Environmental Simulation** Kenneth H. Silber, Gerald W. Ewing, 1971

Introduction to the Environmental Humanities J. Andrew Hubbell, John C. Ryan, 2021-09-14 In an era of climate change deforestation melting ice caps poisoned environments and species loss many people are turning to the power of the arts and humanities for sustainable solutions to global ecological problems *Introduction to the Environmental Humanities* offers a practical and accessible guide to this dynamic and interdisciplinary field This book provides an overview of the Environmental Humanities evolution from the activist movements of the early and mid twentieth century to more recent debates over climate change sustainability energy policy and habitat degradation in the Anthropocene era The text introduces readers to seminal writings artworks campaigns and movements while demystifying important terms such as the Anthropocene environmental justice nature ecosystem ecology posthuman and non human Emerging theoretical areas such as critical animal and plant studies gender and queer studies Indigenous studies and energy studies are also presented

Organized by discipline the book explores the role that the arts and humanities play in the future of the planet Including case studies discussion questions annotated bibliographies and links to online resources this book offers a comprehensive and engaging overview of the Environmental Humanities for introductory readers For more advanced readers it serves as a foundation for future study projects or professional development **Jewish Theatre: A Global View** Edna

Environment of Compassion Cia Sautter,2025-05-09 The Environment of Compassion explores questions of what it means to be in relationship to nature if and how it is a religious experience and how understanding humans as part of nature alters theology The book offers a performance perspective that looks at ritual dance and theatre as a means of presenting discussion of sacred values in the public realm The premise is that performance may serve as an effective means for developing human sacred values that recognize the more than human world as it increases intersubjective awareness to address issues of social and environmental justice The author investigates religion and theatre as a means of better understanding how eco consciousness requires an aesthetic of the sacred Rather than separate religion culture and nature the book presents an aesthetic looking at the relationship between them It considers how an embodied theatrical story might develop an inclusive community of compassion Weaving the chapters together is an account of The Garden A Refuge an eco centered play based on the biblical book of Job Ecotheology aesthetics and embodiment theories are examined throughout with scholarship and examples drawn largely from the Jewish tradition The book is relevant to scholars of religion and theology particularly those with an interest in the environment as well as theatre dance and performance studies

Reading Contemporary Performance Gabrielle Cody, Meiling Cheng, 2015-09-25 As the nature of contemporary performance continues to expand into new forms genres and media it requires an increasingly diverse vocabulary Reading Contemporary Performance provides students critics and creators with a rich understanding of the key terms and ideas that are central to any discussion of this evolving theatricality Specially commissioned entries from a wealth of contributors map out the many and varied ways of discussing performance in all of its forms from theatrical and site specific performances to live and New Media art The book is divided into two sections Concepts Key terms and ideas arranged according to the five characteristic elements of performance art time space action performer audience Methodologies and Turning Points The seminal theories and ways of reading performance such as postmodernism epic theatre feminisms happenings and animal studies Case Studies entries in both sections are accompanied by short studies of specific performances and events demonstrating creative examples of the ideas and issues in question Three different introductory essays provide multiple entry points into the discussion of contemporary performance and cross references for each entry also allow the plotting of one's own pathway Reading Contemporary Performance is an invaluable guide providing not just a solid set of familiarities but an exploration and contextualisation of this broad and vital field

Alternative Theatre in Poland Kathleen Cioffi, 2013-07-04 The complex nature of the relationship between theatre and politics is explored in this study of the Polish theatre scene It traces the development of the alternative theatre movement from its origins in the 1950s through to its decline in the late 1980s

Theory for Theatre Studies: Space Kim Solga, 2019-02-07 Space it's everywhere all around a given It's abstract and yet not abstract at all because it governs all human relations shapes the way we understand our place on the planet and orients us toward others for better and for worse How do theatre scholars understand space and place in performance What tools do they use to theorize the political work space does on and beyond the stage How can students use these tools to unpack the workings of space and place in the performances they see the plays they study and the experiences they have outside their classrooms Theory for Theatre Studies Space provides a comprehensive introduction to the spatial turn in modern theatre and performance theory exploring topics as diverse as embodied space environmental performance politics and urban performance studies The book is written in accessible prose and features in depth case studies of Platform's audio walk And While London Burns Katie Mitchell's Fra lein Julie Young Jean Lee's The Shipment and Evalyn Parry and Laakkuluk Williamson Bathory's Kiinalik These Sharp Tools TfTS Space begins with fresh readings of historical dramatic theory discusses twentieth century theoretical trends at length and ends by asking what it will take and what work is already underway to decolonize the Western settler colonial stage Online resources to accompany this book are available at www

Taking as a starting point a design for a mobile theater made at the Architectural Association of London between 1970 and 1971 by Spanish architect Javier Navarro de Zuñiga born 1942 this book traces the architectural counterculture of that time and the relations with the alternative performing arts. Architect Javier Navarro de Zuñiga 1942 graduated in 1968 at Madrid School of Architecture. During the academic year 1970-1971 he travelled from Madrid to London thanks to a grant of the British Council to complete his postgraduate training at the Architectural Association. There he designed a building called Mobile Theater. It was a theatrical device composed of several 8 x 2.5 meters trucks carefully designed which contained all the building elements needed to shape a space for the performing arts or other collective uses. The assembly time estimated for four workers was six and a half hours. This project was internationally shown and published between 1971 and 1975 but was never built. This book intends to release this project largely ignored by canonical historiography and to culturally place it in time and space: the agitated city of London in 1971. After the convulsions of May 1968 architectural counterculture reappeared on very different fronts from the disciplinary rally to the guerilla positions. This architectural design accounts for these events since it had a temporal development that goes beyond its mere conception as an artifact. The long and frustrated process for construction 1969 to 1976 calls for a particular intra history which this book will tell.

Medievalism Elizabeth Nicole Emery, Richard J. Utz, 2014. Definitions of keywords and terms for the study of medievalism.

The Environment on Stage Julie Hudson, 2019-08-08. *The Environment on Stage* Scenery or Shapeshifter investigates a pertinent voice of theatrical performance within the production and reception of ecotheatre. Theatre ecologies unavoidably enmeshed in the environment describe the system of sometimes perverse feedback loops running through theatrical events: productions, performances and installations. This volume applies an ecoaware spectatorial lens to explore live theatre as a living ecosystem in a literal sense. The vibrant chemistry between production and reception and the spiralling ideas and emotions this generates in some conditions are unavoidably driven by flows of matter and energy thus by the natural environment even when human perspectives seem to dominate. *The Environment on Stage* is an intentionally eclectic mix of observation, close reading and qualitative research undertaken with the aim of exploring ecocritical ideas embedded in ecotheatre from a range of perspectives. Individual chapters identify productions, performances and installations in which the environment is palpably present on stage as it is in natural disasters such as floods, storms, famine, conflict and climate change. These themes and others are explored in the context of site specificity, subversive spectators, frugal modes of narrative, the shifting stuff of theatre productions and imaginative substitutions. Ecotheatre is nothing less than vibrant matter that lets the environment speak for itself.
