Environmental Adult Education New Directions For Adult And Continuing Education:

Environmental Adult Education: Ecological Learning, Theory, and Practice for Socioenvironmental Change

Lilian H. Hill, Darlene E. Clover, 2003-10-21 Environmental adult education brings an ecological perspective to studies of adult learning by concretizing the interconnections between people's experiences of environmental deterioration and recognition of the destructive powers of the global economy. This volume situates environmental adult education within a socio-political and eco-epistemological framework, explores how new language and metaphors can counteract problematic modern worldviews, and analyzes the potential of environmental justice-based learning to combat socio-environmental oppressions. Environmental adult education for community sustainability situates local knowledge within a global pedagogy and activism of survival. Practical and theoretical considerations of environmental popular education within indigenous people's social movements are explained, and the relationship among women, the environment, and adult learning is explored. The aim of environmental adult literacy is to challenge scientific knowledge as the fundamental structure of learning and to revalue people's experiential knowledge. A transformative ecological understanding of lifelong learning reconnects humans with nature and fosters social dialogue and action. Environmental adult education provides a rich and provocative discourse, and this volume sourcebook will be useful to readers seeking to connect social and ecological issues in their educational work in community classroom or social movements. Handbook of Adult and Continuing Education Carol E. Kasworm, Amy D.

Rose, Jovita M. Ross-Gordon, 2010-05-27 Drawing on the contributions of 75 leading authors in the field, this 2010 Edition of the respected Handbook of Adult and Continuing Education provides adult education scholars, programme administrators, and teachers with a solid foundation for understanding the current guiding beliefs, practices, and tensions faced in the field, as well as a basis for developing and refining their own approaches to their work and scholarship. Offering expanded discussions in the areas of social justice, technology, and the global dimensions of adult and continuing education, the Handbook continues the tradition of previous volumes with discussions of contemporary theories, current forms and contexts of practice, and core processes and functions. Insightful chapters examine adult and continuing education as it relates to gender and sexuality, race, our aging society, class, and place, and disability. Handbook of Adult and Continuing Education Tonette S. Rocco, M. Cecil Smith, Robert C. Mizzi, Lisa R.

Merriweather, Joshua D. Hawley, 2023-07-03 Co-published with Colleges and universities are increasingly becoming significant sites for adult education scholarship, in large part due to demographic shifts. With fewer U.S. high school graduates on the horizon, higher education institutions will need to attract non-traditional, i.e., older adult learners to remain viable, both financially and politically. There is a need to develop a better corpus of scholarship on topics as diverse as what learning theories are useful for understanding adult learning; how are higher education institutions changing in response to the surge of adult students; what academic programs are providing better learning and employment outcomes for adults in college.

Adult education scholars can offer much to the policy debates taking place in higher education. A main premise of this handbook is that adult and continuing education should not simply respond to rapidly changing social, economic, technological, and political environments across the globe but should lead the way in preparing adults to become informed, globally connected, critical citizens who are knowledgeable, skilled, and open and adaptive to change and uncertainty. The Handbook of Adult and Continuing Education provides rich information on the contemporary issues and trends that are of concern to adult and continuing education, the programs and resources available to adult learners, and of opportunities to challenge and critique the structures embedded in the field that perpetuate inequity and social injustice. Adult education is a discipline that foresees a better tomorrow, and The Handbook is designed to engage and inspire readers to assist the field to seek new paths in uncertain and complex times, ask questions, and to help the field flourish. The Handbook is divided into five sections. The first, Foundations, situates the field by describing the developments, core debates, perspectives, and key principles that form the basis of the field. The second, Understanding Adult Learning, includes chapters on adult learning, adult development, motivation, access, participation, and support of adult learners, and mentoring. Teaching Practices and Administrative Leadership, the third section, offers chapters on organization and administration, program planning, assessment, and evaluation, teaching perspectives, andragogy, and pedagogy, public pedagogy, and digital technologies for teaching and learning. The fourth section is Formal and Informal Learning Contexts. Chapters cover adult basic, GED, and literacy education, English as a Second Language Programs, family literacy, prison education, workforce development, military education, international development, education, health professions education, continuing professional education, higher education, human resource development, and workplace learning, union and labor education, religious and spiritual education, cultural institutions, environmental education, social and political movements, and peace and conflict education. The concluding Contemporary Issues section discusses decolonizing adult and continuing education, adult education and welfare, teaching, social activism, lesbian, gay, bisexual, trans, queer, and straight allies, gender, and its multiple forms, disability, older adults, and intergenerational identities, race, and ethnicity, working class, whiteness, and privilege, and migrants and migrant education. The editors culminate with consideration of next steps for adult and continuing education and priorities for the future. **Career**
