**Paul G. Harris**

## **Environmental Threats And National Security An International Challenge To:**

The Environment, International Relations, and U.S. Foreign Policy Paul G. Harris, 2002-02-14 As the world's largest polluter and its wealthiest country the United States has a potentially enormous impact on international efforts to protect the environment In this innovative and thought provoking book an international group of scholars examines how U S foreign policy affects and is affected by global environmental change Covering three broad areas national security and geopolitics domestic and international politics and national interests and international obligations the contributors examine a host of key issues including ozone depletion and climate change biodiversity and whale hunting environmental and energy security and international trade They also raise moral issues associated with the United States's obligations to the rest of humanity Because the environment has become an ever more pressing issue at the diplomatic level this book is essential timely reading for policymakers activists and anyone interested in environmental change and international relations **Environmental Change and Security Project Report**, 1998 National Security and International Environmental Cooperation in the Arctic — the Case of the Northern Sea Route Willy Østreng, 2012-12-06 The basic objective of this report is to place the debate about the future of the Northern Sea Route into the larger picture of Arctic politics and the emerging agenda of the Arctic as a developing region in international society National security and international environmental cooperation are the objects of study employed both separately and in various conceptual combinations to realize this purpose To help me in this I was privileged to draw on the profound expertise of my highly esteemed co authors Professor Franklyn Griffiths at the University of Toronto and Senior Researchers at IMEMO in Moscow Raphael Vartanov Alexei Roginko and Alexander Kolossov To their cooperative spirit friendship and solid contributions to this report am deeply indebted The report is the result of multiple contributions both in terms of substance and funding extending far beyond the inputs of the team of authors The professional input and thorough work behind the scene done by Liv Astrid Sverdrup Researcher at FNI at an early stage of the project has been invaluable Senior Consultant Kjell Moe at the Norwegian Polar Institute also provided valuable comments and improvements to the biological parts of the Introductory chapter whilst Senior Consultant Ann Skarstad at FNI worked wonders with the language for those of us not having English as our mother tongue Claes Lykke Ragner Deputy head of the NSROP secretariat and Dr Environmental Consequences of International Conflicts Aleksander V. Semenov, Igor S. Zonn, Andrey G. Kostianoy, Sergey S. Zhiltsov, Abdelazim Negm, 2025-01-23 This is the first of two volumes that taken together provide an integrated picture of the environmental consequences arising from international conflicts The volumes build upon the successful book Environmental Consequences of War and Aftermath published in The Handbook of Environmental Chemistry in 2009 The books focus on environmental consequences only and discuss land degradation erosion water scarcity and pollution water resources management air pollution desertification deforestation food scarcity and radioactive contamination among others This volume addresses conflicts in the MENA region Middle East and North Africa

covering historical and more recent events such as water conflicts military conflicts migration and overpopulation and infrastructure projects Readers will also find several chapters in this book on the theory of international conflicts and their impact on the environment in general Given its breadth this book appeals to environmental scientists policy makers and researchers interested in the environmental impacts of international conflicts      *Encountering Global Environmental Politics* Michael Maniates,2003 This collection draws students into conversation about global environmental threats the tenuous links between knowledge and power and ways of acting powerfully in service of sustainability Visit our website for sample chapters      *Environment Change and National Security* Group Captain Manoj Kumar,2011-02-11 This book deals with the contemporary and controversial topic of Environmental Change and National Security Security encompasses various elements of human security that are going to be affected by the vagaries of environmental change brought about by the relentless unsustainable development path undertaken by the modern society The question is no longer about what the interrelations between climate change and security are but about when they would be acknowledged by the policy makers rising above a narrow mindset that sees it as militarisation of the debate rather than a human security issue The book takes a prismatic view of the environmental change debate as observed by the military      Contemporary Security Studies Alan Collins,2022 With unrivalled coverage of a wide range of issues from terrorism nuclear deterrence and the weapons trade to environmental security transnational crime and cyber security Contemporary Security Studies is the definitive cutting edge introduction to security studies Bringing together contributions from leading scholars it provides a student friendly guide to traditional and critical theoretical approaches as well as the most important contemporary issues that dominate the modern security field Whether you are exploring how politicians portrayed the Covid19 pandemic as a security issue or the role that popular culture plays in promoting peace a broad variety of real world case studies and examples throughout the text encourage you to question your preconceptions of security studies and to critically evaluate key approaches and ideas in the subject New to this Edition A new Chapter 13 on popular culture introduces you to this innovative approach to security studies exploring the role that it plays in shaping and understanding security related processes A revised Chapter 12 on securitization theory traces its emergence and evolution as a framework for analysis covering everything you need to know about its main concepts and criticisms Chapter 27 on transnational crime now includes coverage of the crime terror nexus the relationship between organized crime and the state and a case study focusing on Mexico Every chapter has been thoroughly updated to reflect current political issues and developments in world affairs such as the initial impact of the Covid 19 pandemic climate change and forced migration Book jacket      **Coping with Global Environmental Change, Disasters and Security** Hans Günter Brauch,Ürsula Oswald Spring,Czeslaw Mesjasz,John Grin,Patricia Kameri-Mbote,Béchir Chourou,Pál Dunay,Joern Birkmann,2011-02-03 Coping with Global Environmental Change Disasters and Security Threats Challenges Vulnerabilities and Risks reviews conceptual debates and case studies focusing on disasters and security threats

challenges vulnerabilities and risks in Europe the Mediterranean and other regions It discusses social science concepts of vulnerability and risks global regional and national security challenges global warming floods desertification and drought as environmental security challenges water and food security challenges and vulnerabilities vulnerability mapping of environmental security challenges and risks contributions of remote sensing to the recognition of security risks mainstreaming early warning of conflicts and hazards and provides conceptual and policy conclusions

**The Geopolitics Reader** Simon Dalby, Paul Routledge, Gearóid Ó Tuathail, 2003-08-01 The Geopolitics Reader offers an interdisciplinary sourcebook of the most important political geographical historical and sociological readings of geopolitics in the late twentieth century The Reader is divided into five parts which draw on the most illuminating examples of imperial Cold War contemporary geopolitics new environmental themes and multiple resistances to the practices of geopolitics The editors provide comprehensive introductions and critical comment at the beginning of each part and visual geopolitical texts in the form of political cartoons are integrated throughout Encouraging exploration of divergent viewpoints of global conflict and change this invaluable compendium includes readings by Martin Luther King Vaclav Havel and George Bush

**The Digital Environment and Small States in Europe** Viktorija Car, Marta Zorko, 2025-07-25 The Digital Environment and Small States in Europe delves into how the digital revolution intersects with global security dynamics and reshapes the geopolitical landscape It sheds light on the geopolitical complexities inherent in the border regions of the European continent and proposes frameworks to better understand and engage with small state dynamics in international affairs At the heart of this book is an examination of the transformative power of digitalization and virtualization particularly pronounced in the context of small states Traditionally power was synonymous with territorial control but in today's world influence extends into the virtual realm Small states despite their physical limitations can leverage this virtual extension of territory to their advantage However realizing and strategically utilizing these advantages are essential for capitalizing on the opportunities presented Conversely small states lacking digital capabilities find themselves increasingly vulnerable in the virtual sphere facing heightened security threats and challenges Through a series of theoretical and case study based chapters this book offers insights into the strategies employed by small states to navigate these complexities and assert their influence on the global stage Key themes explored include the impact of digitalization on geopolitical dynamics the role of cybersecurity in safeguarding national interests and the emergence of digital diplomacy as a tool for statecraft The Digital Environment and Small States in Europe will be of great interest to scholars and students of international relations geopolitics and political science as well as security media and communication studies Additionally policymakers and analysts involved in foreign policy and security affairs may find valuable insights in the book's exploration of small state strategies and vulnerabilities

**Global Security in the Twenty-first Century** Sean Kay, 2006-02-13 Kay integrates traditional and emerging challenges in one study that gives readers the tools they need to develop a thoughtful and nuanced understanding of global security

BOOK JACKET     Bulletin of the Atomic Scientists ,1991-04     Order for the Oceans at the Turn of the Century Davor Vidas,Willy Østreng,2024-01-08 This book is a state of the art report on ocean law and politics today written by 40 contributors from six continents At this important early stage of implementation of the Law of the Sea Convention this book assesses where we have been going in the past decade and charts the way ahead Implementation of the Convention from the perspective of interaction of politics and law is the unifying theme of the book Under this three basic aspects have emerged as crucial during the 1990s 1 evolution of new regimes 2 institutionalisation and 3 new patterns of participation These are explored systematically in sections on the Convention its implementing agreements and related international institutions Parts I and II interaction of law of the sea with other regimes including those for polar regions Parts III and IV the various levels international national and transnational and actors involved in the implementation of the Convention Part V and a number of salient issues in implementation today Part VI     **A Guide to National Security** Julian Richards,2012-02-23 This book offers an analysis of the threats facing the UK and its policy responses presented under the framework of the Government s National Security Strategy It contains opinions from leading figures across relevant agencies including the National Security Council and members of ACPO as well as case studies     **Litigating International Law Disputes** Natalie Klein,Natalie S. Klein,2014-04-10 This book examines why states resort to international adjudication or arbitration for the resolution of their disputes     **Current and Projected National Security Threats to the United States** Richard C. Shelby,2001-04 Hearing on those conditions throughout the world that have fostered or will foster threats and challenges to the security of the U S Witnesses include Senator Richard H Bryan State of Nevada J Stapleton Roy Assistant Secretary of State of Intelligence and Research Senator Richard C Shelby State of Alabama George J Tenet Director of Central Intelligence CIA and Vice Admiral Thomas R Wilson Director Defense Intelligence Agency     **Current and Projected National Security Threats to the United States** United States. Congress. Senate. Select Committee on Intelligence,2000

*Corporate Risk and National Security Redefined* Karen Lund Petersen,2012-02-06 Contemporary security policy is no longer a matter of protecting borders or fighting an identified foreign enemy With counterterrorism high on the security agenda private citizens and companies have all come to be seen as central to the aim of providing security Situated within the debate on terrorism risk and security *Corporate Risk and National Security Redefined* offers a detailed analysis of the role of private companies in American and Danish counter terrorism policies The book shows that a responsabilization strategy is central to both the American and Danish security policy a strategy which tends to portray security as a duty rather than the right that it traditionally has been considered as The study however finds that such strategies have been received very differently in the business communities of the two countries The book brings the corporate understandings of the relation between corporate risk and national security to the fore and let the reader in on a constant conceptual battle and negotiation on the meaning of national security and corporate risk *Corporate Risk and National Security Redefined* will be of

interest to students and scholars of international relations critical security business and terrorism     Deterrence and the New Global Security Environment Ian R. Kenyon, John Simpson, 2013-10-18 This collection of papers rigorously examines the current place of deterrence in international security relations delivering the best of contemporary thinking This is a special issue of the leading journal Contemporary Security Policy It shows how and why nuclear deterrence was the central organizing mechanism for international security relations in the second half of the twentieth century It has been replaced by a new global security environment in which the central role of deterrence both nuclear and otherwise appears to have diminished The Cold War has been succeeded by a new state of play This book will be of interest to students of military and naval history and security studies     *Bulletin of the Atomic Scientists* ,1991-04

## Reviewing **Environmental Threats And National Security An International Challenge To**: Unlocking the Spellbinding Force of Linguistics
