Globalisation, Freedom and the Media after Communism Birgit Beumers, Stephen Hutchings, Natalia Rulyova, 2013-10-18

**Postcommunism from Within** Jan Kubik, Amy Linch, 2013-08-26 While the decline of communism in the late twentieth century brought democracy political freedom and better economic prospects for many people it also produced massive social dislocation and engendered social problems that were far less pronounced under the old regimes The fall of state socialism led to enormously complex political economic social and cultural transformations and while political liberalization was a lofty goal it was neither uniform in its effects nor unqualified in its benefits Postcommunism from Within foregrounds the diversity of the historical experiences and current realities of people in the postcommunist region in examining how they are responding to these monumental changes at home The original essays in this volume lay out a bold new approach to research on the postcommunist region and to democratization studies more broadly that focuses on the social and cultural microprocesses behind political and economic transformation Thematic essays by eminent scholars of postcommunism from across the social sciences are supported by case studies to demonstrate the limitations of current democratization paradigms and suggest ways of building categories of research that more closely capture the role of vernacular knowledge in demanding creating and adapting to institutional change A novel approach to understanding one of the greatest political and social transformations in recent history Postcommunism from Within explores not just how citizens respond to political and economic restructuring engineered at the top but also how people enact their own visions of life politics and justice by responding to daily challenges

The Experience of Democratization in Eastern Europe Richard Sakwa, 1999-05-17 Drawing on a selection of papers presented to

the Fifth World Congress of Central and East European Studies held in Warsaw in August 1995 the book presents a broad cross section of thinking about postcommunist developments in Eastern Europe and the former Soviet Union Specialists from the region and the West apply their unique insights to challenge some conventional views on the transition The book is both diverse and focused suggesting that the experience of democratisation is an open ended process in which those involved learn both from their own experience and from comparative transitions elsewhere It provides a rich source for the comparative analysis of democratisation

**Between Utopia and Disillusionment** Henri Vogt, 2005 Scholarly interpretations of the collapse of communism and developments thereafter have tended to be primarily concerned with people's need to rid themselves of the communist system of their past The expectations dreams and hopes that ordinary Eastern Europeans had when they took to the streets in 1989 and have had ever since have therefore been overlooked and our understanding of the changes in post communist Europe has remained incomplete Focusing primarily on five key areas such as the heritage of 1989 revolutions ambivalence disillusionment individualism and collective identities this book explores the expectations and goals that ordinary Eastern Europeans had during the 1989 revolutions and the decade thereafter and also the problems and disappointments they encountered in the course of the transformation The analysis is based on extensive interviews with university students and young intellectuals in the Czech Republic Eastern Germany and Estonia in the 1990s which in themselves have considerable value as historical documents

*Sexuality and Gender in Postcommunist Eastern Europe and Russia* Edmond J Coleman, Theo Sandfort, 2014-05-22 Important new findings on sex and gender in the former Soviet Bloc *Sexuality and Gender in Postcommunist Eastern Europe and Russia* is a groundbreaking look at the new sexual reality in Central Eastern and Southeast Europe after the fall of communism The book presents the kind of candid discussion of sexual identities sexual politics and gender arrangements that was often censored and rarely discussed openly before the breakup of the Soviet Union in 1987 Authors from a variety of disciplines examine how the changes caused by rapid economic and

**Corporatism as a Post-communist Phoenix?** Paul James Kubicek,1995      **Imagining Postcommunism** Beverly Ann James,2005 Although the 1956 Hungarian uprising failed to liberate the country from Soviet domination it became a symbol of freedom for people throughout Eastern Europe and beyond In Imagining Postcommunism Beverly A James demonstrates how 1956 became a foundational myth according to which the bloody events of that fall led to the ceremonial reburial of the martyred prime minister Imre Nagy in 1989 free elections in 1990 and the withdrawal of the last Soviet soldiers on June 19 1991 She shows how museums monuments and holiday rituals have aided the construction of a new Hungary through the reclamation and expression of competing memories of the critical events of 1956 Surveying the array of ceremonies exhibitions and memorials commemorating the revolution and its heroes James invites leaders to consider the difference between the communist regime s master narrative of 1956 with its smug false unity and the multiple polemical stories woven by competing political forces in postcommunist Hungary BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved      **Imagining the Nation** Daina Stukuls Eglitis,2004-12-15 Every epoch produces its own notions of social change and the post Communist societies of Eastern Europe are no exception Imagining the Nation explores the fate of contemporary Latvia a small country with a big story that is relevant for anyone wishing to better understand the nature of post Communist transitions As Latvia and other former Soviet bloc countries seek to rebuild and transform their

societies what is the central dynamic at work In *Imagining the Nation* Daina Stukuls Eglitis finds that in virtually all aspects of life the guiding sentiment among Latvians has been a desire for normality in the wake of the deformations that marked the half century of Soviet rule In seeking to return to normality many people look to the West for models others look back in time to the period of Latvian independence from 1918 to 1940 before the years of Soviet domination Ultimately the changes in Latvia and other Eastern European countries are closely tied to a vital reimagining of the past as the logic of progress long associated with revolution is amalgamated with nostalgia for what is gone The radiant utopias of revolution give way to widely shared aspirations for a return to the normal in politics place names private property and even gender relations Eglitis draws upon published and unpublished documents campaign posters maps and monuments as well as interviews with Latvians from all walks of life The resulting picture of life in contemporary Latvia offers fresh perspective on a dilemma facing millions throughout the post Communist world *Transformation, Normalization, and Representation in*
