Enlevements Et Le Retour D'helene:

Myth, Ethos, and Actuality David Castriota, 1992 Using material remains as well as the evidence of contemporary Greek history rhetoric and poetry David Castriota interprets the Athenian monuments as vehicles of an official ideology intended to celebrate and justify the present in terms of the past Castriota focuses on the strategy of ethical antithesis that asserted Greek moral superiority over the barbaric Persians whose invasion had been repelled a generation earlier He examines how in major public programs of painting and sculpture the leading artists of the period recast the Persians in the guise of wild and impious mythic antagonists to associate them with the ethical flaws or weaknesses commonly ascribed to women animals and foreigners The Athenians in contrast were compared to mythic protagonists representing the excellence and triumph of Hellenic culture Castriota's study is innovative in emphasizing the ethical implication of mythic precedents which required substantial alterations to render them more effective as archetypes for the defense of Greek culture against a foreign morally inferior enemy The book looks in new ways at how the patrons and planners sought to manipulate viewer response through the selective presentation or repackaging of mythic traditions **Spartan Women** Sarah B.

Pomeroy, 2002 In this book Sarah Pomeroy seeks to reconstruct the lives and the world of Sparta's women including how their legal status changed over time and how they held on to their surprising autonomy Written by one of the leading authorities on women in antiquity this is the first full length study of Spartan women *Les enlevements et le retour*

Anna R. Stelow, 2020-08-06 While there have been many studies devoted to the major heroes and heroines of Homeric epic among them Achilles Odysseus and Helen the figure of Menelaus has remained notably overlooked in this strand of scholarship Menelaus in the Archaic Period is the first book length study of the Homeric character taking a multidisciplinary approach to his depiction in archaic Greek poetry art and cult through detailed analysis of ancient literary visual and material evidence The volume is divided into two parts the first of which examines the portrayal of Menelaus in the Homeric poems as a unique personality with an integral role to play in each narrative as depicted through typical patterns of speech and action and through intertextual allusion The second part explores his representation both in other poetry of the archaic period including lyric poetry and Simonides Plataea elegy and also archaic art and local Sparta cult drawing on the literary archaeological and inscriptional evidence for the cult of Menelaus with Helen at Therapne The depiction of Menelaus in archaic art is a particular focal point Chapter 4 provides a methodology for the interpretation of heroic narrative on archaic Greek vases through iconography and inscriptions and establishes his conventional visual identity on black figure Athenian vases while an annotated catalogue of images details those that fall outside the norm Menelaus emerges from this

comprehensive study as a unique and likeable character whose relationship with Helen was a popular theme in both epic poetry and vase painting but one whose portrayal evinced a significant narrative range with an array of continuities and differences in how he was represented by the Greeks not only within the archaic period but also in comparison to classical Athens

Virgin Sacrifice in Classical Art Anthony F. Mangieri, 2017-09-22 The Trojan War begins and ends with the sacrifice of a virgin princess The gruesome killing of a woman must have captivated ancient people because the myth of the sacrificial virgin resonates powerfully in the arts of ancient Greece and Rome Most scholars agree that the Greeks and Romans did not practice human sacrifice so why then do the myths of virgin sacrifice appear persistently in art and literature for over a millennium *Virgin Sacrifice in Classical Art* Women Agency and the Trojan War seeks to answer this question This book tells the stories of the sacrificial maidens in order to help the reader discover the meanings bound up in these myths for historical people In exploring the representations of Iphigeneia and Polyxena in Greek Etruscan and Roman art this book offers a broader cultural history that reveals what people in the ancient world were seeking in these stories The result is an interdisciplinary study that offers new interpretations on the meaning of the sacrificial virgin as a cultural and ideological construction This is the first book length study of virgin sacrifice in ancient art and the first to provide an interpretive framework within which to understand its imagery

The Hero Cults of Sparta Nicolette A. Pavlides,2023-09-07 This book examines the hero cults of Sparta on the basis of the archaeological and literary sources Nicolette Pavlides explores the local idiosyncrasies of a pan Hellenic phenomenon which itself can help us understand the place and function of heroes in Greek religion Although it has long been noted that hero cult was especially popular in Sparta there is little known about the cults both in terms of material evidence and the historical context for their popularity The evidence from the cult of Helen and Menelaos at the Menelaion the worship of Agamemnon and Alexandra Kassandra the Dioskouroi and others who remain anonymous to us is viewed as a local phenomenon reflective of the developing communal and social consciousness of the polis What is more through an analysis of the typology of cults it is concluded that in Sparta the boundaries of the divine heroic mortal were fluid which allowed a great variation in the expression of cults The votive patterns topography and architectural evidence permit an analysis of the kinds of offerings to hero cults and an evaluation of the architecture that housed such cults Due to the material and spatial distribution of the votive deposits it is argued that Sparta had a large number of hero shrines scattered throughout the polis which attests to an enthusiastic and long lasting local votive practice at a popular level
