Mystical Bodies, Mystical Meals Joel Hecker,2005 Mystical Bodies Mystical Meals is the first book length study of mystical eating practices and experiences in the kabbalah Focusing on the Jewish mystical literature of late thirteenth century Spain author Joel Hecker analyzes the ways in which the Zohar and other contemporaneous literature represent mystical attainment in their homilies about eating What emerges is not only consideration of eating practices but more broadly the effects such practices and experiences have on the bodies of its practitioners Using anthropology sociology ritual studies and gender theory Hecker accounts for the internal topography of the body as imaginatively conceived by kabbalists For these mystics the physical body interacts with the material world to effect transformations within themselves and within the Divinity The kabbalists experience the ideal body as one of fullness one whose boundaries allow for the intake of divine light and power and for the outward overflow of fruitfulness and generosity at the same time the body retains sufficient integrity to confer a sense of completeness as the perfect symbol for the Divinity itself Nourishment imagery is used throughout the kabbalah as a metaphor signifying the flow of divine blessing from the upper worlds to the lower from masculine to feminine and from Israel to the Godhead The body s spiritual continuity allows for unions between the kabbalistic devotee and his food table chair and wine and is exemplified in the practices and experiences surrounding the consumption of food this continuity is also applicable to other aspects of embodiment such as the kabbalist s union with his fellow man Mystical Bodies Mystical Meals underscores the homosocial quality of the kabbalistic fraternity in which gendered hierarchies of master and disciple are linked to the imagery and dynamics of nourishment and sexuality Bringing this entire spectrum into focus Hecker ultimately considers how the oral cavity and stomach even the emotions associated with festive meals are mobilized to produce the soul of the mystical saint in medieval kabbalah

Shillingsburg, 2016-06-01 Voice Text Hypertext illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture **Historical Dictionary of Judaism** Norman Solomon, 2024-10-15 What we now call Judaism is the religion of the rabbis it is rooted in scripture the Hebrew Scriptures but it is not to be identified with Old Testament theology Judaism in its many manifestations has continued to evolve rereading its ancient texts and extracting new meaning while addressing contemporary issues such as the status of women and attitudes to sexual orientation History or rather our perception of it has changed substantially Previously unknown documents and artefacts have surfaced while scholars have proposed far reaching changes to the way we read and evaluate ancient texts Nowadays we have a more nuanced understanding of how to evaluate statements in the Talmud and other rabbinic writings and we are better able to contextualize them not only in Greco Roman antiquity but also in the Sasanian environment in which the Babylonian Talmud was formed Historical Dictionary of Judaism Fourth Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries on on important personalities in Jewish religious history including biblical personalities with an emphasis on how they are understood in Jewish Christian and Islamic tradition This book is an excellent access point for students researchers and anyone wanting to know more about Judaism

Open Secret Elliot R. Wolfson, 2012 Mena em Mendel Schneerson 1902-1994 was the seventh and seemingly last Rebbe of the Habad Lubavitch dynasty Marked by conflicting tendencies Schneerson was a radical messianic visionary who promoted a conservative political agenda a reclusive contemplative who built a hasidic sect into an international movement and a man dedicated to the exposition of mysteries who nevertheless harbored many secrets Schneerson astutely masked views that might be deemed heterodox by the canons of orthodoxy while engineering a fundamentalist ideology that could subvert traditional gender hierarchy the halakhic distinction between permissible and forbidden and the social anthropological division between Jew and Gentile While most literature on the Rebbe focuses on whether or not he identified with the role of Messiah Elliot R Wolfson a leading scholar of Jewish mysticism and the phenomenology of religious experience concentrates instead on Schneerson's apocalyptic sensibility and his promotion of a mystical consciousness that undermines all discrimination For Schneerson the ploy of secrecy is crucial to the dissemination of the messianic secret To be enlightened messianically is to be delivered from all conceptual limitations even the very notion of becoming emancipated from limitation The ultimate liberation or true and complete redemption fuses the believer into an infinite essence beyond all duality even the duality of being emancipated and not emancipated an emancipation in other words that emancipates one from the bind of emancipation At its deepest level Schneerson's eschatological orientation discerned that a spiritual master if he be true must dispose of the mask of mastery Situating Habad's thought within the evolution of kabbalistic mysticism the history of Western philosophy and Mahayana Buddhism Wolfson articulates Schneerson's rich theology and profound philosophy concentrating on the nature of apophatic embodiment semiotic materiality hypernomian transvaluation nondifferentiated alterity and atemporal temporality
