The Social Context of Birth Gurcharan Rai, 2017-09-07 Greatly expanded revised and updated with an entirely new chapter on disability *The Social Context of Birth* Second Edition provides an essential understanding of how social issues affect midwives the birth process and motherhood Childbirth is much more than a biological event or a set of case notes No one has an uneventful pregnancy and women seek narratives through which they can explain and try to make sense of what has happened to them This is often neglected in the relentlessly technocratic modern culture of childbirth Appreciating the social context surrounding an individual enriches the understanding a midwife must have if she is to work successfully alongside a woman and her family throughout a pregnancy and birth in an insightful intelligent and informed manner This comprehensive guide provides countless valuable insights for midwives nurses obstetricians and health visitors into the many different lives experiences and expectations of women in their childbearing years their babies and families in the 21st Century Written by a team of highly experienced health professionals it also covers contentious areas of maternity care such as new reproductive technologies and fetal surveillance

Civility in Crisis Suryakant Waghmore, Hugo Gorringer, 2020-12-23 This book critically examines the relationship between civility citizenship and democracy It engages with the oft neglected idea of civility as a Western concept to explore the paradox of high democracy and low civility that plagues India This concept helps analyse why democratic consolidation translates into limited justice and minimal equality along with increased exclusion and performative violence against marginal groups in India The volume brings together key themes such as minority citizens and the incivility of caste civility and urbanity the struggles for dignity and equality pursued by subaltern groups along with feminism and queer politics and the exclusionary politics of the Citizenship Amendment Act to argue that civility provides crucial insights into the functioning and social life of a democracy In doing so the book illustrates how a successful democracy may also harbour illiberal values and normalised violence and civil societies may have uncivil tendencies Enriched with case studies from various states in India this book will be of interest to scholars and researchers of political science political philosophy South Asian studies minority and exclusion studies political sociology and social anthropology

Rethinking Anti-Racisms Floya Anthias, Cathy Lloyd, 2005-07-08 This collection seeks to rethink anti racism both in light of social changes and also of new theoretical debates about citizenship multiculturalism hybridity diaspora and social movements As well as chapters on theoretical interventions *Rethinking Anti Racisms* has substantive chapters covering issues such as anti deportation campaigns anti fascism education the Southall Black Sisters the contradictory use of ethnicity as a way of tackling racism

Differences that Matter Sara Ahmed, 1998-11-26 *Differences That Matter* challenges existing ways of theorising the relationship between feminism and

postmodernism which ask is or should feminism be modern or postmodern Sara Ahmed suggests that postmodernism has been allowed to dictate feminist debates and calls instead for feminist theorists to speak back to postmodernism rather than simply speak on their relationship to it Such a speaking back involves a refusal to position postmodernism as a generalisable condition of the world and requires closer readings of what postmodernism is actually doing in a variety of disciplinary contexts Sara Ahmed hence examines constructions of postmodernism in relation to rights ethics subjectivity authorship meta fiction and film

Feminist Perspectives on Law and Theory Janice Richardson, Ralph Sandland, 2013-03-04 What is the link between the way in which women are viewed as an aberration within law such that pregnant women initially had to be compared with sick men to claim unfair dismissal and the view of women as monstrous within philosophy This book uses the failure of women to fit within male models of both law and theory as a way to rethink legal questions including the meaning of equality freedom justice and citizenship This includes concern about the way in which queer theory and critical race theory as well as issues of class intersect with feminist theory today It also raises issues about the relationship between political theory and practice and the productive intersection between debates within law philosophy and feminism This collection of essays on feminist legal theory therefore provides an interdisciplinary approach drawn not only from law and philosophy but also from cultural and womens studies Feminism may still be on the margins of both law and philosophy yet it has the ability to disrupt both This book moves beyond a feminist critique of existing frameworks to the constructive project of reworking theory from within It goes beyond debates of traditional jurisprudence to draw its tools from the growing body of work on feminist philosophy including the writings of Luce Irigaray Drucilla Cornell and Christine Battersby which intersect both contemporary continental philosophy and critical legal theory

Gender and Nation Nira Yuval-Davis, 1997-03-25 Nira Yuval Davis provides an authoritative overview and critique of writings on gender and nationhood presenting an original analysis of the ways gender relations affect and are affected by national projects and processes In *Gender and Nation* Yuval Davis argues that the construction of nationhood involves specific notions of both manhood and womanhood She examines the contribution of gender relations to key dimensions of nationalist projects the nation s reproduction its culture and citizenship as well as to national conflicts and wars exploring the contesting relations between feminism and nationalism *Gender and Nation* is an important contribution to the debates on citizenship gender and nationhood It will be essential reading for academics and students of women s studies race and ethnic studies sociology and political science

The Routledge Doctoral Student's Companion Pat Thomson, Melanie Walker, 2010-04-07 This book addresses a set of interlocking and overlapping big questions that sit behind the plethora of doctoral advice texts and run through the practice of knowledge identity work

The Spectre of Promiscuity Christian Klesse, 2016-03-03 Wide ranging research suggests that partners in gay male and bisexual relationships do not necessarily expect monogamy or see it as an important issue Although the frequency of gay male and bisexual non monogamous partnerships tends to be widely

acknowledged in social science literature these relationships have rarely been explored in more detail By providing rich empirical data thoughtful analysis and theoretical debate this book makes a significant contribution to the sociological literature on sexual and intimate relationships More specifically it explores the diversity of gay male and bisexual relationship practices in the context of heteronormative citizenship and intra social movement conflict and highlights the complexity of power relations that circumscribe queer people s relationships and sexual lives Written in an accessible and engaging manner *The Spectre of Promiscuity* provides important insights for further studies on sexual culture discourse citizenship politics and ethics

A Critical Analysis of the Efficacy of Law as a Tool to Achieve Gender Equality Natalie Persadie, 2012-07-26 Law is often perceived as an instrument that can effect social change While this might be so it must be complemented by the necessary financial and human resources to make the law effective Natalie Persadie explains that among developing countries such as Trinidad and Tobago the achievement of legal advances for women at either the international or national levels is particularly difficult where practical measures are not subsequently implemented This is perhaps attributable to a lack of political will Important issues such as gender equality and domestic violence are not given priority and laws aimed at protecting women and promoting women s rights are ineffective scant or unenforced Gender justice can only be realized through a multilevel approach from above and more importantly from below as women have the potential to effect real national and international legal and institutional change to ensure gender equality at both levels

The Social Context of Birth Caroline Squire, 2009 Providing an understanding of the impact of social circumstance on women giving birth their babies and families in the 21st century this title explains to midwives and other health professionals how social issues such as domestic violence race and poverty can affect the birth progress

Masculinities and Femininities in Latin America's Uneven Development Susan Paulson, 2015-08-20 This book forges a new approach to historical and geographical change by asking how gender arrangements and dynamics influence the evolution of institutions and environments This new theoretical approach is applied via mixed methods and a multi scale framework to bring together unusually diverse phenomena Regional trends demonstrated with quantitative data include the massive incorporation of women into paid work demographic masculinization of the countryside and feminization of cities rapidly increasing gaps that favor women over men in education and life expectancy and extraordinarily high levels of violence against men Case studies in Mexico Chile and Bolivia explore changes influenced by gender practices and expectations that involve men in different ways than women they also highlight dissimilarities and power relations between differently positioned masculine groups Ethnographic studies of culturally diverse arrangements together with particular attention to subordinate versus dominant masculinities complicate the gender binaries that circumscribe so much research and policy Drawing attention to imbalances and conflicts generated by inappropriate models and uneven developments the book points to opportunities for experimenting with and adapting the sociocultural institutions that govern relations among humans and between humans
