

An aerial photograph of a winding river in the Amazon rainforest. The river is a dark, narrow line that meanders through a vast, dense expanse of green forest. The forest canopy is a mix of various shades of green, with some areas appearing darker and others lighter, suggesting different types of trees or varying heights. The river starts in the upper left, curves towards the center, and then continues towards the bottom right. The overall image has a slightly grainy, high-contrast quality, typical of older film photography.

Entangled Edens Visions Of The Amazon:

Entangled Edens Candace Slater, 2002 The skill with which Slater combines various levels and modalities of narrative utilizing her personal experience as a colorful unifying thread is truly remarkable Antonio Candido author of Antonio Candido On Literature and Society Howard S Becker editor A very important book that quite gracefully elegantly and persuasively moves beyond the usual myth and history format to put at its center stories about the Amazon and the people who tell them Entangled Edens persuasively argues that the Amazon can only be grasped understood and come to terms with through its myths and stories It addresses a very real failing of modern environmentalism which for all its virtues tends to dehumanize and metaphorically depopulate when it does not villainize populations that do share its concerns or share them in very different ways Instead of forcing us to choose between land and people Slater uses the stories and the people who tell them to rethink human relations with nature and each other Richard White author of The Organic Machine The Remaking of the Columbia River Elegant erudite profoundly serious Entangled Edens is a source of inspiration and knowledge for the reader interested in the Amazon Without the cultural tradition and the life experience of Amazonia's people any analysis of the Amazon risks becoming inconsequential or opportunistic This is one of the powerful messages of this important reflection on the Amazon whose greatest riches are ultimately its people Candace Slater has written a book that will last Milton Hatoum author of The Tree of the Seventh Heaven 1994 and The Brothers 2002 **The Lost City of Z** David Grann, 2010-01-26 1 NEW YORK TIMES BESTSELLER From the author of Killers of the Flower Moon and The Wager comes a masterpiece of narrative nonfiction with all the pace and excitement of a movie thriller The New York Times that unravels the greatest exploration mystery of the twentieth century the story of the legendary British explorer who ventured into the Amazon jungle in search of a fabled civilization and never returned Grann is one of the preeminent adventure and true crime writers working today New York Magazine After stumbling upon a hidden trove of diaries acclaimed writer David Grann set out to determine what happened to the British explorer Percy Fawcett and his quest for the Lost City of Z For centuries Europeans believed the Amazon the world's largest rain forest concealed the glittering kingdom of El Dorado Thousands had died looking for it leaving many scientists convinced that the Amazon was truly inimical to humankind In 1925 Fawcett ventured into the Amazon to find an ancient civilization hoping to make one of the most important discoveries in history Then he vanished Over the years countless perished trying to find evidence of his party and the place he called The Lost City of Z In this masterpiece journalist David Grann interweaves the spellbinding stories of Fawcett's quest for Z and his own journey into the deadly jungle Look for David Grann's latest bestselling book The Wager **Intimate Frontiers** Felipe Martínez-Pinzón, Javier Uriarte, 2019 A collection of multinational scholarly contributions on various cultural aspects of the Amazon region in the 20th century **In Amazonia** Hugh Raffles, 2014-09-15 The Amazon is not what it seems As Hugh Raffles shows us in this captivating and innovative book the world's last great wilderness has been transformed again and

again by human activity In Amazonia brings to life an Amazon whose allure and reality lie as much or more in what people have made of it as in what nature has wrought It casts new light on centuries of encounter while describing the dramatic remaking of a sweeping landscape by residents of one small community in the Brazilian Amazon Combining richly textured ethnographic research and lively historical analysis Raffles weaves a fascinating story that changes our understanding of this region and challenges us to rethink what we mean by nature Raffles draws from a wide range of material to demonstrate in contrast to the tendency to downplay human agency in the Amazon that the region is an outcome of the intimately intertwined histories of humans and nonhumans He moves between a detailed narrative that analyzes the production of scientific knowledge about Amazonia over the centuries and an absorbing account of the extraordinary transformations to the fluvial landscape carried out over the past forty years by the inhabitants of Igarap Guariba four hours downstream from the nearest city Engagingly written theoretically inventive and vividly illustrated the book introduces a diverse range of characters from sixteenth century explorers and their native rivals to nineteenth century naturalists and contemporary ecologists logging company executives and river traders A natural history of a different kind In Amazonia shows how humans animals rivers and forests all participate in the making of a region that remains today at the center of debates in environmental politics

A Living Past John Soluri, Claudia Leal, José Augusto Pádua, 2018-02-19 Though still a relatively young field the study of Latin American environmental history is blossoming as the contributions to this definitive volume demonstrate Bringing together thirteen leading experts on the region A Living Past synthesizes a wide range of scholarship to offer new perspectives on environmental change in Latin America and the Spanish Caribbean since the nineteenth century Each chapter provides insightful up to date syntheses of current scholarship on critical countries and ecosystems including Brazil Mexico the Caribbean the tropical Andes and tropical forests and such cross cutting themes as agriculture conservation mining ranching science and urbanization Together these studies provide valuable historical contexts for making sense of contemporary environmental challenges facing the region

The Metamorphosis of the Amazon Maximilian Fritz Feichtner, 2023-12-21 The Metamorphosis of the Amazon sheds new light on the complex history of the Ecuadorian rainforest revealing how oil development and its social and ecological repercussions triggered its metamorphosis When international oil giants such as Shell and Texaco started to dig for oil in remote rainforest locations a process was born that eventually altered the fabric of the Amazon forever Oil infrastructure paved way for a disastrous industrial and agricultural landscape polluted by the hazardous waste management of the oil industry Adopting a unique approach Maximilian Feichtner does not recount the established narrative of oil companies vs suffering local communities he instead centers the rainforest ecosystem itself its rivers animals and climate conditions and the often neglected actors of this history the oilmen and their experiences as people affected by a pollution they perpetrated and witnessed This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details **Ayahuasca**

Shamanism in the Amazon and Beyond Beatriz Caiuby Labate, Clancy Cavnar, 2014 Beatriz Caiuby Labate and Clancy Cavnar offer an in depth exploration of the spread of indigenous shamanic rituals of the Amazon to Western societies looking at how indigenous mestizo and cosmopolitan cultures have engaged with and transformed these forest traditions The authors focus on the use of ayahuasca a psychoactive drink essential in many indigenous shamanic rituals **Amazonian Geographies** Jacqueline Vadjunec, Marianne Schmink, 2014-07-16 Amazonia exists in our imagination as well as on the ground It is a mysterious and powerful construct in our psyches yet shares multiple trans national borders and diverse ecological and cultural landscapes It is often presented as a seemingly homogeneous place a lush tropical jungle teeming with exotic wildlife and plant diversity as well as the various indigenous populations that inhabit the region Yet since Conquest Amazonia has been linked to the global market and after a long and varied history of colonization and development projects Amazonia is peopled by many distinct cultural groups who remain largely invisible to the outside world despite their increasing integration into global markets and global politics Millions of rubber tappers neo native groups peasants river dwellers and urban residents continue to shape and re shape the cultural landscape as they adapt their livelihood practices and political strategies in response to changing markets and shifting linkages with political and economic actors at local regional national and international levels This book explores the diversity of changing identities and cultural landscapes emerging in different corners of this rapidly changing region This book was published as a special issue of the Journal of Cultural Geography **Rainforest Cowboys** Jeffrey Hoelle, 2015-04-15 The opening of the Amazon to colonization in the 1970s brought cattle land conflict and widespread deforestation In the remote state of Acre Brazil rubber tappers fought against migrant ranchers to preserve the forest they relied on and in the process these forest guardians showed the world that it was possible to unite forest livelihoods and environmental preservation Nowadays many rubber tappers and their children are turning away from the forest based lifestyle they once sought to protect and are becoming cattle raisers or even caubois cowboys Rainforest Cowboys is the first book to examine the social and cultural forces driving the expansion of Amazonian cattle raising in all of their complexity Drawing on eighteen months of fieldwork Jeffrey Hoelle shows how cattle raising is about much more than beef production or deforestation in Acre even among carnivorous environmentalists vilified ranchers and urbanites with no land or cattle He contextualizes the rise of ranching in relation to political economic structures and broader meanings to understand the spread of cattle culture This cattle centered vision of rural life builds on local experiences and influences from across the Americas and even resembles East African cultural practices Written in a broadly accessible and interdisciplinary style Rainforest Cowboys is essential reading for a global audience interested in understanding the economic and cultural features of cattle raising deforestation and the continuing tensions between conservation and development in the Amazon **The Rights of Nature and the Testimony of Things** Mark Anderson, 2024-07-15 The Rights of Nature and the Testimony of Things begins by analyzing the ethical debates and political

contexts relating to Latin American rights of nature legislation and the political ontology of nonhuman speech within a framework of intercultural and multispecies diplomacy Author Mark Anderson shows how Latin American authors and thinkers complicate traditional humanistic perspectives on nature the social and politics exploring how animals plants and environments as a whole might be said to engage in social relations and political speech or self representation Drawing Native Amazonian thought into productive tension with a variety of posthumanist theoretical frameworks ranging from Derrida s conceptualization of passive decision and hospitality to biosemiotics Karen Barad s theorization of intra activity and Isabelle Stengers proposal for cosmopolitical diplomacy Anderson analyzes literary works by Julio Cort zar Clarice Lispector Jos Eustasio Rivera and Davi Kopenawa that reframe environmental ethics in terms of collective multispecies work and reciprocal care and politics as a cosmopolitics of friendship rooted in diplomacy across difference Finally Anderson examines the points of connection and divergences between Latin American relational ontologies and Euro American posthumanist theories within Indigenous Latin American remodernization projects that reappropriate and repurpose ancestral practices as well as develop new technologies with the goal of forging alternative modernities compatible with a livable future for all species

Life and Death Matters Barbara Rose Johnston, 2016-06-03 The first edition of Life and Death Matters was a breakthrough text centralizing the experiences of those on the front lines of environmental crises and forging new paradigms for understanding how crises emerge and how different groups of actors respond to them This second edition fully updated with both expanded and new chapters once again provides a benchmark for the field and opens important pathways for further research Authors reassess the state of scholarship and grassroots activism in a new century when social and environmental systems are being reconceptualised within post 9 11 security and biosecurity frameworks when global warming and resource scarcity are not fears but realities when global power and politics are being realigned and when ecocide ethnocide and genocide are daily tragedies This bold new edition of Life and Death Matters will be a widely used textbook and essential reading for students scholars and policy makers

Fordlandia Greg Grandin,2010-04-27 From Pulitzer Prize winning author Greg Grandin comes the stunning never before told story of the quixotic attempt to recreate small town America in the heart of the Amazon In 1927 Henry Ford the richest man in the world bought a tract of land twice the size of Delaware in the Brazilian Amazon His intention was to grow rubber but the project rapidly evolved into a more ambitious bid to export America itself along with its golf courses ice cream shops bandstands indoor plumbing and Model Ts rolling down broad streets Fordlandia as the settlement was called quickly became the site of an epic clash On one side was the car magnate lean austere the man who reduced industrial production to its simplest motions on the other the Amazon lush extravagant the most complex ecological system on the planet Ford s early success in imposing time clocks and square dances on the jungle soon collapsed as indigenous workers rejecting his midwestern Puritanism turned the place into a ribald tropical boomtown Fordlandia s eventual demise as a rubber plantation foreshadowed the practices that today are laying waste to the rain forest More than a parable of one man s arrogant attempt to force his will on the natural world Fordlandia depicts a desperate quest to salvage the bygone America that the Ford factory system did much to dispatch As Greg Grandin shows in this gripping and mordantly observed history Ford s great delusion was not that the Amazon could be tamed but that the forces of capitalism once

released might yet be contained Fordlandia is a 2009 National Book Award Finalist for Nonfiction **Schools in the Forest** Denis Lynn Daly Heyck, 2010 Drawing on the experience of Projecto Seringueiro Project Rubber Tapper Denis Heyck reveals how a radical education experiment designed simply to bring literacy to rubber tappers in the Amazon rainforests helped the members of a threatened community to claim their political rights and preserve their cultural heritage in the face of ferocious opposition The rubber tappers story shows that grassroots communities can organize form alliances and advocate on their own behalf and that in the trajectory of empowerment no tool is more important than that of education *Conjuring Property* Jeremy M. Campbell, 2015-12-01 Winner of the 2017 James M Blaut Award from the Cultural and Political Ecology Specialty Group of the Association of American Geographers Honorable Mention for the 2016 Book Prize from the Association for Political and Legal Anthropology Since the 1960s when Brazil first encouraged large scale Amazonian colonization violence and confusion have often accompanied national policies concerning land reform corporate colonization indigenous land rights environmental protection and private homesteading *Conjuring Property* shows how in a region that many perceive to be stateless colonists from highly capitalized ranchers to landless workers adopt anticipatory stances while they await future governance intervention regarding land tenure For Amazonian colonists property is a dynamic category that becomes salient in the making it is conjured through papers appeals to state officials and the manipulation of landscapes and memories of occupation This timely study will be of interest to development studies scholars and practitioners conservation ecologists geographers and anthropologists *The Rise and Fall of the Amazon Rubber Industry* Stephen Nugent, 2017-12-05 In this engaging book Stephen Nugent offers an in depth historical anthropology of a widely recognised feature of the Amazon region examining the dramatic rise and fall of the rubber industry He considers rubber in the Amazon from the perspective of a long term extractive industry that linked remote forest tappers to technical innovations central to the industrial transformation of Europe and North America emphasizing the links between the social landscape of Amazonia and the global economy Through a critical examination focused on the rubber industry Nugent addresses myths that continue to influence perceptions of Amazonia The book challenges widely held assumptions about the hyper naturalism of the lost world of the Amazon where the challenge of the tropics is still to be faced and the frontiers of development are still to be settled It is relevant for students and scholars of anthropology Latin American studies history political ecology geography and development studies **A Companion to American Literary Studies** Caroline F.
