## **Entangled Voices Genre And The Religious Construction Of The Self:**

**Entangled Voices** Frederick J. Ruf,1997      *Entangled Voices* Frederick J. Ruf,1997-01-02 In this book Ruf tries to understand how the concepts of voice and genre function in texts especially religious texts To this end he joins literary theorists in the discussion about narrative Ruf rejects the idea of genre as a fixed historical form that serves as a template for readers and writers instead he suggests that we imagine different genres whether narrative lyric or dramatic as the expression of different voices Each voice he asserts possesses different key qualities embodiment sociality contextuality and opacity in the dramatic voice intimacy limitation urgency in lyric and a magisterial quality of comprehensiveness and cohesiveness in narrative These voices are models for our selves composing an unruly and unstable multiplicity of selves Ruf applies his theory of voice and genre to five texts Dineson s *Out of Africa* Donne s *Holy Sonnets* Primo Levi s *The Periodic Table* Robert Wilson s *Einstein on the Beach* and Coleridge s *Biographia Literaria* Through these literary works he discerns the detailed ways in which a text constructs a voice and in the process a self More importantly Ruf demonstrates that this process is a religious one fulfilling the function that religions traditionally assume that of defining the self and its world

**Coleridge's Philosophy of Faith** Joel Harter,2011 Revision of author s thesis doctoral University of Chicago 2008 under title *The word made flesh and the mazy page symbol and allegory in Coleridge s philosophy of faith*      *Divining the Self* Velma E. Love,2012-10-25 *Divining the Self* weaves elements of personal narrative myth history and interpretive analysis into a vibrant tapestry that reflects the textured embodied and performative nature of scripture and scripturalizing practices Velma Love examines the Odu the Yoruba sacred scriptures along with the accompanying mythology philosophy and ritual technologies engaged by African Americans Drawing from the personal narratives of African American Ifa practitioners along with additional ethnographic fieldwork conducted in Oyotunji African Village South Carolina and New York City Love s work explores the ways in which an ancient worldview survives in modern times *Divining the Self* also takes up the challenge of determining what it means for the scholar of religion to study scripture as both text and performance This work provides an excellent case study of the sociocultural phenomenon of scripturalizing practices      *Self/Same/Other* Heather

Walton,Andrew W. Hass,2000-03-01 This collection of essays explores the way our notions of self other subjectivity gender and the sacred text are being re visioned within contemporary theory These new ways of conceiving create upheavals and radical shifts that rework our understanding of philosophical psychological political sexual and spiritual identity allowing us to trace the fault lines regulatory forces exclusions and unmarked spaces both within our selves and within the discourses that attend these selves As such revisionings break down borders and the encounter of literature and theology becomes a crucial focus for these explorations as the self learns to resituate its own being creatively vis a vis others and ultimately the Other

**The Lyric Voice in English Theology** Elizabeth S. Dodd,2023-09-21 In this book Elizabeth S Dodd traces the contours of a lyric theology through the lens of English lyric tradition She addresses the dominance of narrative and drama in

**Bodies, Politics and Transformations: John Donne's Metempsychosis** Siobhán Collins, 2016-04-15 Since the beginning of the twentieth century critics have predominantly offered a negative estimate of John Donne's *Metempsychosis* In contrast this study of *Metempsychosis* re evaluates the poem as one of the most vital and energetic of Donne's canon Siobhán Collins appraises *Metempsychosis* for its extraordinary openness to and its inventive portrayal of conflict within identity She situates this ludic verse as a text alert to and imbued with the Elizabethan fascination with the processes and properties of metamorphosis Contesting the pervasive view that the poem is incomplete this study illustrates how *Metempsychosis* is thematically linked with Donne's other writings through its concern with the relationship between body and soul and with temporality and

transformation Collins uses this genre defying verse as a springboard to contribute significantly to our understanding of early modern concerns over the nature and borders of human identity and the notion of selfhood as mutable and in process Drawing on and contributing to recent scholarly work on the history of the body and on sexuality in the early modern period Collins argues that Metempsychosis reveals the oft violent processes of change involved in the author s personal life and in the intellectual religious and political environment of his time She places the poem s somatic representations of plants beasts and humans within the context of early modern discourses natural philosophy medical political and religious Collins offers a far reaching exploration of how Metempsychosis articulates philosophical inquiries that are central to early modern notions of self identity and moral accountability such as the human capacity for autonomy the place of the human in the great chain of being the relationship between cognition and embodiment memory and selfhood and the concept of wonder as a distinctly human phenomenon

*By One Spirit* Lorraine Cavanagh, 2009 This is a book for anyone seeking a way out of deadlock in Church conflict situations In employing a contemplative approach to the conflict in the Anglican Communion it shows how relationships can be rebuilt with affection leading to trust The author argues for reconciliation which comes with a renewed awareness of the dynamic activity of the Holy Spirit in the Church s life of communion The present conflict has blocked this activity stifling the Church s intellectual life by reducing it to a matter of issue driven politics which have seriously undermined its relationships The book offers the Anglican Communion the possibility of renewing its life together in a deeper and more apophatic encounter with God in which the certainties which divide it are set aside while the Church rediscovers the genuine bonds of affection which until now have held it together This it argues is the work which needs to be undertaken before a Covenant is put in place if the Anglican Communion is to continue to reveal the Gospel in ways which are meaningful for a constantly changing and fragmented world

**John Donne's Performances** Margret Fetzer, 2013-07-19 Ever since their rediscovery in the 1920s John Donne s writings have been praised for their energy vigour and drama yet so far no attempt has been made to approach and define systematically these major characteristics of his work Drawing on J L Austin s speech act theory Margret Fetzer s comparative reading of Donne s poetry and prose eschews questions of personal or religious sincerity and instead recreates an image of John Donne as a man of many performances No matter if engaged in the writing of a sermon or a piece of erotic poetry Donne placed enormous trust in what words could do Questions as to how saying something may actually bring about that very thing or how playing the part of someone else affects an actor s identity are central to Donne s oeuvre and moreover highly relevant in the cultural and theological contexts of the early modern period in general In treating both canonical and lesser known Donne texts John Donne s Performances hopes to make a significant contribution not only to Donne criticism and research into early modern culture by using concepts of performance and performativity as its major theoretical backdrop it aims to establish an interdisciplinary link with the field of performance studies

Dramaturgy of Sound in the Avant-garde and Postdramatic Theatre Mladen Ovadija, 2013-07-01 Sound is born and dies with action In this surprising resourceful study Mladen Ovadija makes a case for the centrality of sound as an integral element of contemporary theatre He argues that sound in theatre inevitably betrays the dramatic text and that sound is performance Until recently theatrical sound has largely been regarded as supplemental to the dramatic plot Now however sound is the subject of renewed interest in theatrical discourse Dramaturgy of sound Ovadija argues reads and writes a theatrical idiom based on two inseparable intertwined strands the gestural corporeal power of the performer's voice and the structural value of stage sound His extensive research in experimental performance and his examination of the pioneering work by Futurists Dadaists and Expressionists enable Ovadija to create a powerful study of autonomous sound as an essential element in the creation of synesthetic theatre Dramaturgy of Sound in the Avant garde and Postdramatic Theatre presents a cogent argument about a continuous tradition in experimental theatre running from early modernist to contemporary works

American philosopher William James 1842 1910 find his way into these conversations there is uncertainty about where his thinking fits While utilitarianism has become the default position for teaching James s pragmatism and radical empiricism this default position fails to address and explain James s multiple criticisms of John Stuart Mill s formulaic approach to questions concerning the moral life Through close readings of James s writings the chapters in William James Moral Philosophy and the Ethical Life catalogue the ways in which James wants to avoid the following a the hierarchies of Christian natural law theory b the moral calculus of Mill s utilitarianism c the absolutism and principle ism of Immanuel Kant s deontology and d the staticity of the virtues found in Aristotle s moral theory Elaborating upon and clarifying James s differences from these dominant moral theories is a crucial feature of this collection This collection is not however intended to be wholly negative that is only describing to readers what James s moral theory is not It seeks to articulate the positive features of James s ethics and moral reasoning what does it mean to an ethical life and how should we theorize about morality
