Ride the Frontier Flavia Brizio-Skov, 2021-02-17 With fresh appraisals of popular Westerns this book examines the history of the genre with a focus on definitional aspects of canon adaptation and hybridity The author covers a range of largely unexplored topics including the role of heroines in a supposedly male oriented system of film production the function of the celluloid Indians the transcultural and transnational history of the first spaghetti Western the construction of femininity and masculinity in the hybrid Westerns of the 1950s and the new paths of the Western in the 21st century

Native Americans on Network TV Michael Ray FitzGerald, 2013-12-24 The American Indian has figured prominently in many films and television shows portrayed variously as a villain subservient friend or a hapless victim of progress Many Indian stereotypes that were derived from European colonial discourse some hundreds of years old still exist in the media today Even when set in the contemporary era novels films and programs tend to purvey rehashed tropes such as Pocahontas or man Friday In *Native Americans on Network TV* Stereotypes Myths and the Good Indian Michael Ray FitzGerald argues that the colonial power of the U S is clearly evident in network television's portrayals of Native Americans FitzGerald contends that these representations fit neatly into existing conceptions of colonial discourse and that their messages about the Good Indian have become part of viewers' understandings of Native Americans In this study FitzGerald offers close examinations of such series as *The Lone Ranger* *Daniel Boone* *Broken Arrow* *Hawk* *Nakia* and *Walker Texas Ranger* By examining the traditional role of stereotypes and their functions in the rhetoric of colonialism the volume ultimately offers a critical analysis of images of the Good Indian minority figures that enforce the dominant group's norms A long overdue discussion of this issue *Native Americans on Network TV* will be of interest to scholars of television and media studies but also those of Native American studies subaltern studies and media history

Americanization of History Kathleen McDonald, 2010-10-12 This collection of essays searches for how history and literature translate into filmic texts that then reflect the time and place of the translation Major motion pictures as well as television movies and series are the sites of this exploration The opening essay surveys what films tell us it means to be set in a medieval time while the second looks at one of the most powerful movie studios since the earliest days of movie making Walt Disney Studios The second section investigates classic Americana by delving specifically into the hegemonic power of Walt Disney Studios by considering the union between the American pastime of baseball and the great white way of Broadway and by discovering the constantly morphing relationship of the icons of the Wild West Section three looks at

characters living outside of roles considered socially appropriate in their world vampire slayers mobsters and those with multiple personalities The fourth section studies how present day mores of power and beauty control revisions of historically based stories through issues of vengeance race sexuality and the notion of beauty itself The final section takes up the question of what it means to historicize the present moment and analyzes the current period via a very popular and long running show s depiction of sexuality as accepted or rejected within a paradigm that appears not merely to tolerate but actively to promote deviance The last essay questions the very concepts of time and history themselves The articles do not reach one conclusion regarding this topic but instead provide a variety of perspectives which help to theorize the issue for the discerning reader
