Into His Presence at the Speed of Thought S. E. Jemigbeyi, 2015-11-21 Sin bad habits or weaknesses of the flesh play a major role in the lives of more than 70 percent of people today Mankind has lived and breathed under their influences since the days of Adam and this has left a six thousand year old yearning for a righteous walk in the heart of every man now living This dark force this werewolf called sin has taken control of man's emotions and will prevail unhindered It is a war against mankind And although man has fought in the past sadly these days it seems he has given up the fight and accepted sin as the norm This book provides a way out It provides the silver bullets that mankind has been looking for Sin is a werewolf a slippery slope to a destination not prepared for man This book will teach you how to get to that high place where the influences of the flesh hold no sway by dwelling in the presence of God

Betts, 1911 **Through Vegetal Being** Luce Irigaray, Michael Marder, 2016-07-05

Blossoming from a correspondence between Luce Irigaray and Michael Marder *Through Vegetal Being* is an intense personal philosophical and political meditation on the significance of the vegetal for our lives our ways of thinking and our relations with human and nonhuman beings The vegetal world has the potential to rescue our planet and our species and offers us a way to abandon past metaphysics without falling into nihilism Luce Irigaray has argued in her philosophical work that living and coexisting are deficient unless we recognize sexuate difference as a crucial dimension of our existence Michael Marder believes the same is true for vegetal difference Irigaray and Marder consider how plants contribute to human development by sustaining our breathing nourishing our senses and keeping our bodies and minds alive They note the importance of returning to ancient Greek tradition and engaging with Eastern teachings to revive a culture closer to nature As a result we can reestablish roots when we are displaced and recover the vital energy we need to improve our sensibility and relation to others This generative discussion points toward a more universal way of becoming human that is embedded in the vegetal world *Reports of Cases Argued and Determined in the Supreme Judicial Court of New Hampshire* New Hampshire. Presence Peter M. Senge, C. Otto Scharmer, Joseph Jaworski, Betty Sue Flowers, 2005-08-16 Presence is an intimate look at the development of a new theory about change and learning In wide ranging conversations held over a year and a half organizational learning pioneers Peter Senge C Otto Scharmer Joseph Jaworski and Betty Sue Flowers explored the nature of transformational change how it arises and the fresh possibilities it offers a world dangerously out of balance The book introduces the idea of presence a concept borrowed from the natural world that the whole is entirely present in any of its parts to the worlds of business education government and leadership Too often the authors found we remain stuck in old patterns of seeing and acting By encouraging deeper levels of learning we create an awareness of the larger whole leading to actions that can help to shape its evolution and our future Drawing on the wisdom and experience of 150 scientists social leaders and entrepreneurs including Brian Arthur Rupert Sheldrake Buckminster Fuller Lao Tzu and Carl Jung Presence is both revolutionary in its exploration and hopeful in its message This astonishing and completely original work goes on to define the capabilities that underlie our ability to see sense and realize new possibilities in ourselves in our institutions and organizations and in society itself
