Enterprise And Social Benefits After Communism:

Enterprise and Social Benefits After Communism Martin Rein, Barry L. Friedman, Andreas Wörgötter, 1997-07-17

This 1997 book examines the evolution of firm initiated social benefits in Central East European Countries and the former Soviet Union

Enterprise and Welfare Reform in Communist Asia Peter Ferdinand, Martin Gainsborough, 2003

Featuring a wide geographical scope this collection of essays surveys enterprise and welfare reforms in all the remaining four Asian communist states China Vietnam Laos and North Korea Since the collapse of the Soviet Union they can no longer place major reliance upon assistance from other fraternal states and have to devise their own strategies for survival All have shown a trend towards greater reliance on market forces though in different ways and to varying degrees Enterprise management has to adapt to this In some of them entrepreneurs have become politically and socially acceptable They may even begin to set trends for social evolution Yet since state enterprises used to be responsible for all welfare payments to employees and their families management reforms cannot be separated from those of welfare arrangements Reducing an enterprise's non commercial obligations for the sake of greater market efficiency is bound to affect welfare provision It also reopens the role of official trade unions How these regimes cope with these conflicting pressures are vital factors in their long term viability

Handbook of Income Distribution Anthony Barnes Atkinson, François Bourguignon, 2000

Globalization and the

Future of the Welfare State Miguel Glatzer, Dietrich Rueschemeyer, 2010-11-23

In the last quarter of the twentieth century the global political economy has undergone a profound transformation Democracy has swept the globe and both rich and developing nations must compete in an increasingly integrated world economy How are social welfare policies being affected by this wave of economic globalization Leading researchers explore the complex question in this new comparative study Shifting their focus from the more commonly studied established welfare states of northwestern Europe the authors of *Globalization and the Future of the Welfare State* examine policy development in the middle income countries of southern and eastern Europe Latin America Russia and East Asia Previous investigations into the effects of globalization on welfare states have generally come to one of two conclusions The first is that a global economy undermines existing welfare states and obstructs new developments in social policy as generous provisions place a burden on a nation's resources and its ability to compete in the international marketplace In contrast the second builds on the finding that economic openness is positively correlated with greater social spending which suggests that globalization and welfare states can be mutually reinforcing Here the authors find that globalization and the success of the welfare state are by no means as incompatible as the first view implies The developing countries analyzed in *Globalization and the Future of the Welfare State* demonstrate that although there is great variability across countries and regions domestic political processes and institutions play key roles in managing the disruptions wrought by globalization

Corporate Systems in Emerging Market Economies Ichiro

Iwasaki, Xinxin Ma, Satoshi Mizobata, 2025-07-31

This book provides a comparative perspective of various areas of corporate

management in two post socialist regions China and Eastern Europe The book employs original firm level empirical analyses and meta analyses of the extant literature to investigate the impacts of corporate ownership on firm performance and organizational behavior internal organization through the lens of the corporate board and the interrelationship between firms and gender labor relations and society In comparing China and Eastern Europe the book addresses whether corporate governance structures have evolved due to global pressures from competition and technological progress or if inter regional differences reflect how firms were privatized or handed over to managers after the end of central planning This book will appeal to researchers and post graduate students interested in comparative economics economic system transition and comparative corporate systems The Welfare State, Public Investment, and Growth Hirofumi Shibata,Toshihiro

Ihori,2012-12-06 This book presents fifteen papers selected from the papers read at the 53rd Congress of the International Institute of Public Finance held at Kyoto Japan in August 1997 Although organized under the general title of Public Finance and Public Investment the Congress covered a wide range of topics in Public Finance One of the highlights of the Congress was a historic and brilliant debate between two of the greatest living authorities in the area of public finance Professors James M Buchanan and Richard A Musgrave on the nature of the welfare state and its future Part I of this book is concerned with this debate and its empirical counterpart James M Buchanan Chapter 1 warns that the welfare state will be unsustainable unless it preserves generality or at least quasi generality in welfare programs The introduction of overt discrimination in welfare programs through means testing and targeting can only diminish public support He argues that a political version of the tragedy of commons will emerge if and when identifiable interest groups recognize the prospects of particularized gains as promised by discriminatory tax or transfer payments Faced with mounting pressure from entitlement like claims of special interest groups against public revenues on one hand and equally strong pressure against further tax burdens on the other political leaders are attracted to solutions that single out the most vulnerable targets Distributional disagreement among classes will then become a major source of political discourse and an impetus for class conflict

From Revolution to Uncertainty Joachim von Puttkamer,Włodzimierz Borodziej,Stanislav Holubec,2019-06-05 Throughout Eastern Europe the unexpected and irrevocable fall of communism that began in the late 1980s presented enormous challenges in the spheres of politics and society as well as at the level of individual experience Excitement uncertainty and fear predicated the shaping of a new order the outcome of which was anything but predetermined Recent studies have focused on the ambivalent impact of capitalism Yet at the time parliamentary democracy had equally few traditions to return to and membership in the European Union was a distant dream at best Nowadays as new threats arise Europe s current political crises prompt us to reconsider how liberal democracy in Eastern Europe came about in the first place This book undertakes an analysis of the year 1990 in several countries throughout Europe to consider the role of uncertainty and change in shaping political nations **The Political Construction of Business Interests** Cathie Jo Martin,Duane

Swank,2012-03-30 The Political Construction of Business Interests recounts employers struggles to define their collective social identities at turning points in capitalist development *Capital, Coercion, and Postcommunist States* Gerald M.

Easter,2012-09-18 The postcommunist transitions produced two very different types of states The contractual state is associated with the countries of Eastern Europe which moved toward democratic regimes consensual relations with society and clear boundaries between political power and economic wealth The predatory state is associated with the successors to the USSR which instead developed authoritarian regimes coercive relations with society and poorly defined boundaries between the political and economic realms In *Capital Coercion and Postcommunist States* Gerald M Easter shows how the cumulative result of the many battles between state coercion and societal capital over taxation gave rise to these distinctive transition outcomes Easter s fiscal sociology of the postcommunist state highlights the interconnected paths that led from the fiscal crisis of the old regime through the revenue bargains of transitional tax regimes to the eventual reconfiguration of state society relations His focused comparison of Poland and Russia exemplifies postcommunism s divergent institutional forms The Polish case shows how conflicts over taxation influenced the emergence of a rule of law contractual state social market capitalism and civil society The Russian case reveals how revenue imperatives reinforced the emergence of a rule by law predatory state concessions style capitalism and dependent society **Transition in Survival: Enterprise**

Restructuring in Twenty East German and Hungarian Companies 1990-1997 Enese Lieb-Doczy,2019-07-16 This title was first published in 2001 This work features different companies and their change in situation between 1990 and 1997 The author focused on changes in each company s vertical integration its integration with and relationship to its investor changes in its human resource policies and the general handling of labour shedding changes in its product range production methods product markets and competitive situation and the regional effects of FDI and changes in the company s procurement policies The study comprises mainly of manufacturing companies with a few construction companies included to examine issues arising from localized company operations **Economic Transition in Central Europe and the Commonwealth of Independent States**

T. Mickiewicz,2005-11-11 Fifteen years ago twenty seven countries in Europe and Central Asia embarked on their economic transition paths For some the outcome was a considerable success Several others are still struggling to shed the inheritance of the past and to correct more recent policy mistakes Why were post Communist recessions so long in some countries and growth disappointing Why was fiscal performance so different Was democracy a factor which facilitated reforms or rather slowed them down This book discusses these questions in the context of new empirical evidence including a critical examination of the main themes in the economics of transition literature Economic Dynamics in Transitional Economies Bruno S. Sergi,2003 This book examines the economic dynamics of Central and Eastern European post Communist countries It illuminates the paths these countries are taking toward restructuring their markets increasing international trade and bettering their connections with the European Union and other countries Beginning with a

comparative analysis of the three **The Enlarged European Union** Peter Mair, Jan Zielonka, 2012-12-06 Focusing upon the emerging patterns of unity and diversity in the enlarged European Union this study explores enlargement from the East and the impact this will have on the future identity of Europe **Annual Review of Gerontology and Geriatrics, Volume 24, 2004** Merril Silverstein, PhD, 2004-11-18 This volume examines the importance of time and place as applied to aging families In the first section chapters focus on the temporal dimension of intergenerational relations using frameworks from human development sociology social history and social psychology The second section focuses on the social ecology of intergenerational relations in terms of the national contexts within which families are embedded The contributors demonstrate how the social cultural historical and institutional forces that orient older and younger family members toward each other in both structured and adaptive ways **The Myth of Generational Conflict** Sara Arber, Claudine Attias-Donfut, 2002-01-04 The ageing of Western societies has provoked extensive sociological debate surrounding both the role of the state and whether it can afford the cost of an ageing population and the role of the family especially women in supporting older people In this important book the authors examine how changes such as cuts in welfare provision migration urbanization and individualisation influence intergenerational relations The collection addresses theoretical and policy issues connecting age and generation with the family and social policy and focuses both on cross cultural comparison within societies and analysis based on a range of societies This edited collection brings together a range of leading researchers and theorists from across Europe to advance a sociological understanding of generational relations in terms of the state and the family and how they are interlinked It will be of interest to academics and researchers in sociology social policy and ageing and to policy makers concerned with the implications of demographic and policy changes **The Cumulative Book Index**, 1998 A world list of books in the English language State-building in Russia Gordon B. Smith, 1999 The challenge of a new democracy the author argues is the creation of effective and authoritative political institutions Focusing on Yeltsin's Russia this book examines this question with reference to democratization national identity legal reform and other issues

International Labour Documentation International Labour Office. Central Library and Documentation Branch, 1998

International Handbook on Privatization David Parker, David S. Saal, 2003-01-01 Privatization has dominated industrial restructuring programs since the 1980s and continues to do so This authoritative and accessible Handbook considers all aspects of this key issue including the theory of privatization privatization in transition developed and developing economies as well the economic regulation of privatized industries **How Capitalism Was Built** Anders Aslund, 2012-11-12 Anders Aslund is known to make bold predictions that initially arouse controversy but soon become common wisdom In Gorbachev's Struggle for Economic Reform 1989 he foresaw the collapse of the Soviet political and economic system After Russia's financial crisis of 1998 observers declared the market economic experiment a failure Aslund foresaw market economic success Building Capitalism 2002 In How Capitalism Was Built 2nd Edition he asks and answers for the twenty one countries

he investigates Why did communism collapse Why did Russia not choose gradual reforms like China did Wherein lies the relative success of postcommunist transformation How did the oligarchs arise and decline vis vis authoritarian leaders Anyone who wants to understand the often confusing postcommunist dramas and obtain an early insight into the future will find this intellectually stimulating book useful This edition includes updates to each chapter and new chapters on the impact of the global financial crisis and the European Union
