Enterprise Crime Asian And Global Perspectives:

Enterprise Crime Ann Lodl,Zhang Longguan,1992 *The Containment of Organised Crime and Terrorism* Cyrille J.C.F. Fijnaut,2016-11-21 This unique volume collects articles and contributions to edited books published throughout his distinguished career by Professor Cyrille Fijnaut one of the world s leading experts in the fields of organised crime security and criminology It makes clear what issues the author systematically explored over the years and how he helped to shape the fields in which he has worked and continues to work The texts reflecting the author s profound understanding of these complex fields and wealth of experience on a practical level are presented according to topic In addition the volume offers English translations of seminal articles published originally in Dutch thus making these important texts accessible to international scholars for the first time The volume thus constitutes a unique and indispensable resource for scholars and practitioners inside and outside the Netherlands *Gangs and Youth Subcultures* Kayleen Hazlehurst,Cameron Hazlehurst,2018-01-16 Gangs are growing in many different social economic and political environments coupled with an alarming breakdown of public order Failures to contain or reduce gang crime in European Asian South American African and North American cities may be symptoms of fundamental problems threatening the fabric of many societies The spread of gangs to suburbia and remote locations is a palpable worldwide threat But despite nearly a century of scholarly inquiry into street gangs and youth subcultures no single work systematically reflects on comparative international experiences with gangs *Gangs and Youth Subcultures* takes up this challenge Kayleen Hazlehurst and Cameron Hazlehurst argue that theories of gang behavior in immigrant communities and the influence of transnational crime syndicates are better tested in more than one host society Similar phenomena would be better understood if placed in a comparative context To this purpose the editors assembled expert scholars and policy advisers from North America Europe South Africa and Australasia *Gangs and Youth Subculture* lays the groundwork for an explanation of why gangs continue to grow in strength and influence and why they have spread to remote locations Kayleen Hazlehurst and Cameron Hazlehurst present new findings and innovative preventive strategies in a clear concise fashion No other work brings together experts on gangs and youth subcultures from so many countries As such this trailblazing book will interest scholars and teachers of criminology and sociology justice system administrators as well as law enforcement officers and youth workers internationally **Terrorism and Violence in Southeast Asia** Paul J. Smith,2015-03-26 This timely work examines the scale and root causes of terrorism across Southeast Asia including the role of al Qaeda s ascendancy in the region It begins with an overview of the analytical and theoretical framework for discussing the subject Individual chapters then examine terrorist activities from both functional and country specific perspectives The book traces fundamental linkages between terrorism and security issues such as illegal immigration narcotics trafficking and other criminal activity In addition it considers the issue of convergence the growing connection between criminal groups and terrorism and how this may facilitate future violence Written by a range of experts in the field

the individual chapters reflect a variety of perspectives The contributions fall into two broad categories chapters that directly address terrorism the groups their ideologies their modus operandi their origins and state responses to them and chapters that address the enabling environment that exists in Southeast Asia the role of transnational crime porous borders convergence between terrorism and crime

Transnational Organized Crime and International Security Mats R. Berdal, Monica Serrano (ed), 2002 Though the provision of illicit goods and services is far from being a new phenomenon today's global economic environment has allowed transnational organized crime an unprecedented capacity to challenge states The authors of this book examine the trends underlying the explosion of transnational organized crime and consider possible responses Emphasizing the difficulties encountered by individual states in their efforts to deal with this security dilemma they highlight the growing importance of multilateral initiatives

Palermo in the Pacific Andreas Schloenhardt, 2009-12-07 This study identifies and analyses organised crime legislation in the Asia Pacific region It examines offences criminalising the participation in criminal organisations and equivalent provisions penalising the existence and operation of organised crime under domestic laws The study also explores the adoption of relevant international treaties in particular the Convention against Transnational Organised Crime and examines efforts by the international community to promote wider implementation of this Convention in the region The aim of this study is to assess the adequacy and efficiency of the existing provisions under domestic and international laws and to develop recommendations for law reform to prevent and suppress organised crime more effectively in the region

Blood Brothers B. Lintner, 2016-04-30 From pirates singing Ricky Martin to mob hits carried out with samurai swords Bertil Lintner offers a fascinating look at organized crime in the Asia Pacific Both Western and Asian pundits assert that shady deals are an Asian way of life Some argue that corruption and illicit business ventures gambling prostitution drug trafficking gun running oil smuggling are entrenched parts of the Asian value system Yet many Asian leaders maintain that their cities are safer than Sydney Amsterdam New York and Los Angeles Making use of expertise gained from twenty years of living in Asia Lintner exposes the role crime plays in the countries of the Far East In *Blood Brothers* he takes you inside the criminal fraternities of Asia examining these networks and their past histories in order to answer one question How are civil societies all over the world to be protected from the worst excesses of increasingly globalised mobsters

Globalisation and the New Terror David Martin Jones, 2004-01-28 Examines trends in new terror understood here to be the capacity of sub state actors to secure religious or politically motivated objectives by violent means Argues that while the use of violence to achieve political ends is scarcely original what distinguishes new terror is its potential for lethality Australian author

The Triads as Business Yiu-kong Chu, 2002-01-04 There is no doubt that the triads have become recognized as a sophisticated and international criminal force and following the handover of Hong Kong

to China there have been increasing fears that their influence will spread to the West through emigration This book investigates the reality behind the myth with a study of the Hong Kong triads generally regarded as the headquarters of triad societies throughout the world Yiu Kong Chu examines their origins their organized extortion from legitimate businesses large and small and their more recent moves into illegal activities such as drug trafficking human smuggling and gambling Contrary to the popular belief that Hong Kong triads are replacing the Italian Mafia as the most powerful criminal organization in the world this book argues that Hong Kong triads may be declining as other ethnic Chinese crime gangs emerge as powerful crime groups in Western societies Based on interviews with ex triad members and victims of the triads police from Hong Kong mainland China and Europe as well as documentary evidence *The Triads as Business* gives a vivid and compelling picture of the triads as part of a wider society **Twenty-First Century Intelligence** Wesley K. Wark, 2013-09-13

Twenty First Century Intelligence collects the thinking of some of the foremost experts on the future of intelligence in our new century The essays contained in this volume are set against the backdrop of the transforming events of the September 11 terrorist attacks Intelligence plays a central and highly visible role in the global war on terror and in new doctrines of global pre-emption of threats Yet the challenges for intelligence services are great as the twenty first century unfolds This collection will inform and stimulate new thinking about the current strengths and weaknesses of intelligence services and about the future paths that they may follow Behind the controversies of the present over intelligence performance lie critical questions about how the past and future of an often mysterious but critical arm of the state are linked This book was previously published as a special issue of the journal *Intelligence and National Security* **East Asia Imperilled** Alan Dupont, 2001-10-15

Security issues have traditionally been defined in military terms yet the post Cold War security landscape contains numerous non military challenges to security In this 2001 analysis Alan Dupont argues that an emerging new class of non military threats has the potential to destabilize East Asia and reverse decades of hard won economic and social development He shows that these transnational shifts must be grasped and dealt with by governments and non government organizations both regionally and internationally if conflict is to be avoided Transnational threats stem from overpopulation deforestation and pollution global warming unregulated population movements transnational crime virulent new strains of infectious diseases and other issues not previously associated with international security Collectively they represent a new agenda and pose novel challenges for foreign and defence policy This highly informative compelling and authoritative book is essential reading for East Asia specialists and makes a significant contribution to international security debates **Drugs, Transnational Crime and Security in East Asia** Alan Dupont, 1998 *Criminology, Penology and Police Science Abstracts*, 1993 **International Journal of Comparative and Applied Criminal Justice**, 1996 **International Criminal Justice Review**, 1999 **Organized Crime** Nikos Passas, 1995 This work on organized crime encompasses methodological problems in the study of organized crime itself crime as a way of life in America a family case study arson and

urban economy corruption in agencies of social control Canadian reflections on the Finsbury Park experience and drugs
