Pedersen, 2001 Small and micro enterprises have been an important theme in development thinking since 1950s yet for a variety of reasons East African governments and administrations have been sceptical about their role in their own countries development While many constraints have been lifted by the more liberal policies of the 1990s many micro entrepreneurs and their labourers primarily women are still fighting for an enlarged social space The papers in this book describe these strategies of negotiation between rural micro enterprises and the new liberalised rural economy *Identity Economics* Kate Meagher, 2010 This title traces the rise of two dynamic informal enterprise clusters in Nigeria and explores their slide into trajectories of Pentecostalism poverty and violent vigilantism **Local clusters in global value chains** Roos Kities Andadari, 2008 Linking Local and Global Economies Carlo Pietrobelli, Arni Sverrisson, 2003-08-28 Clusters of small and medium sized enterprises SMEs have to adapt continually to a fast changing environment This new book containing contributions on countries ranging from Italy and Mexico to China and India recognises the disparity between conditions in these countries and poses some interesting questions about what might be termed post clu Cross-Border Entrepreneurship and Economic Development in Europe's Border Regions David Smallbone, Friederike Welter, Mirela Xheneti, 2012-01-01 This volume is concerned with entrepreneurship and economic development in Europe's border regions focusing on the effects of EU enlargement on these regions both within the EU and in neighbouring countries Particular attention is paid to cross border entrepreneurial activity Cross border cooperation involving entrepreneurs is attracting increasing attention in Europe as EU enlargement has increased the length of its borders with the former Soviet republics The expert contributors highlight that border regions tend to be economically disadvantaged as a result of their peripherality which means that cross border cooperation for business purposes represents a potential development tool This groundbreaking book contains an empirical evidence base drawn from regions in EU member states and the Newly Independent States as well as providing a conceptual base for informed policy development This insightful book will prove invaluable for academics and students of entrepreneurship economics development and European studies **Confronting Twenty-first Century Challenges** Ruth Mukama, Murindwa Rutanga, 2005 **Upgrading Clusters and Small Enterprises in Developing Countries** Jose Antonio Puppim de Oliveira, 2016-02-24 SMEs are acknowledged as effective sources of jobs and incomes gaining an important position in the development agenda subsequently cluster policies were conceived as a framework to augment the effects of SMEs and to optimize resources used to support them Based on case studies from Brazil Vietnam Indonesia and India this volume examines SME clusters and argues that unless they counteract common problems such as very low wages poor working conditions poor quality products and lack of environmental regulation they will be pushed out of the market and so become unsustainable This book suggests that the SME clusters currently being stretched should react by socially upgrading in order to improve their innovation capacity as well as social

environmental and labour standards It puts forward conceptual frameworks which explain the way firms can upgrade through markets interaction among cluster members through Corporate Social Responsibility and other such public policy and through the better enforcement of regulation Business Clusters Martin Perry,2005-05-19 Clusters of specialized businesses are being promoted around the world aided by high profile examples such as Silicon Valley Using evidence from high and low income economies as well as detailed case studies that show the special conditions behind successful clusters this book provides a new vantage point on this high interest topic making it ideal for students of business location policy makers and managers seeking a real world understanding of clustering **Development Economics and Social Justice**
