Entrepreneurial Vocations:

Entrepreneurial Vocations Martin H. Krieger, 1996 Originally Published by Scholars Press Now Available from Duke University Press In this interdisciplinary work Martin H Krieger examines the entrepreneur in terms of modes and ideal figures drawn from religion and classical studies In so doing he provides a means or vocabulary with which entrepreneurs can articulate their experience of risk commitment and judgment In addition by establishing a comparison between the entrepreneur and the figures he utilizes from religious and classical literature Krieger generates surprising new ways to look at the careers of such traditional figures as St Augustine Moses Oedipus Antigone and the characters of Shakespeare s *The Tempest* Both an exercise in the humanities and in the pragmatic world of business Krieger s work offers an intriguing methodology for how humanistic learning can be applied to the real world concerns of the entrepreneur A teaching and self study guide to *Entrepreneurial Vocation* is included as an appendix for those wishing to adopt the text as a classroom resource

The Shift to the Entrepreneurial Society Jean Bonnet, Marcus Desjardin, Antonia Madrid Guijarro, 2012-01-01 The concept of the entrepreneurial economy stems from the widespread belief that entrepreneurship is perhaps the most important and scarcest input factor of modern highly developed economies This has resulted in a multitude of studies on the drivers and consequences of entrepreneurship in its many manifestations Less is known about how entrepreneurship interlinks with modern institutions and policy aims such as education finance regulation and the struggle with crises The present volume fills this gap in our understanding of the entrepreneurial economy It shows that the concept of the entrepreneurial economy is so broad that entrepreneurial society is the better term Roy Thurik Erasmus University Rotterdam The Netherlands In the constant challenge economies face to grow and adapt entrepreneurship and innovation are considered key factors This impressive book shows the complementary and decisive role that education access to an efficient financial system and regulation may have in creating an entrepreneurial society Not only growth but also better growth is required to address the tremendous challenges that our European economies are facing The contributors illustrate how more entrepreneurs and more new innovative entrepreneurial firms can contribute They highlight a variety of factors that may be considered to promote entrepreneurship among young people and innovative activities among firms These include education and seeking the most favourable context for the creation and development of sustainable innovative companies especially during economic crises This timely book analyses the built economy in education sustainability and regulation to favour the emergence of new entrepreneurial firms With an international focus the book provides the results of numerous research projects around entrepreneurship Based on solid quantitative analysis it will prove essential for students and researchers who are building quantitative models to study different aspects of the entrepreneurial society

Econnaissance Piero Formica, 2020-08-18 *Econnaissance* intertwines Economics Knowledge and Renaissance to anticipate the dawn of a new age that acts on the principles of human knowledge and the economy and sheds light on the culture of

entrepreneurialism too often kept in the shadows *Entrepreneurship* Alan S. Gutterman, 2018-08-30 This book provides an introduction to a number of important topics relevant to the study and understanding of entrepreneurship and the process of creating or giving birth to a new business Entrepreneurship has become a popular career path in developed and developing countries a phenomenon that has contributed to the intense interest in the subject shown by researchers and policymakers around the world Several factors have come into play including advances in technology that allowed smaller firms to take advantage of economies of scale that previously were only available to larger firms the ability of smaller firms because of their size to be more flexible and responsive to market changes implementation of government policies calculated to encourage entrepreneurial activities and behavior support from governments and other economic units that established procurement programs to assist small businesses high unemployment rates in recent decades due to corporate restructuring and downsizing which have caused some workers to choose an entrepreneurial path rather than retrain for placement in an unsteady job market as a means for dealing with their midlife crisis and changes in typical career patterns away from expectations of long term employment with large firms in a single occupation toward a flexible labor force a phenomenon that has led to increased interest in entrepreneurship among those with post secondary education and an established career record build over several decades in the workplace The chapters cover definitions and types of entrepreneurship the relationships among entrepreneurship innovation and development research on entrepreneurship comparative research into entrepreneurship in multiple countries and research into cross border entrepreneurship i e international activity of small and medium sized enterprises and new ventures factors influencing entrepreneurial activities motivational traits of prospective entrepreneurs the influence of societal culture on entrepreneurial activities and attitudes regarding entrepreneurship as a career path the influence that the institutional environment has on entrepreneurship and the role of entrepreneurs in launching new businesses This book is an excellent introductory source of information on entrepreneurship research for use by academics and other professionals in their courses and for entrepreneurs looking to fit their dreams and aspirations in the broader context of entrepreneurship **Developing Entrepreneurship** Virginia Moor Koenig, 2005 Entrepreneurial Cognition Dean A. Shepherd, Holger Patzelt, 2018-01-31 This open access book investigates the inter relationship between the mind and a potential opportunity to explore the psychology of entrepreneurship Building on recent research this book offers a broad scope investigation of the different aspects of what goes on in the mind of the potential entrepreneur as he or she considers the pursuit of a potential opportunity the creation of a new organization and or the selection of an entrepreneurial career This book focuses on individuals as the level of analysis and explores the impact of the organization and the environment only inasmuch as they impact the individual s cognitions Readers will learn why some individuals and managers are able to identify and successfully act upon opportunities in uncertain environments while others are not This book applies a cognitive lens to understand individuals knowledge motivation attention identity and emotions in the

entrepreneurial process *The Entrepreneurial Society* Jean Bonnet, Domingo García Pérez De Lema, Howard E. Van Auken, 2010-01-01 This timely book analyses the emergence of new firms in a broad context where economics management and sociological approaches may be joined for a new perspective The Entrepreneurial Society reveals that the market benefits of an entrepreneurial economy are evident in the new technology that has been made available to consumers over the past ten to 20 years It illustrates that entrepreneurial firms provide the market with innovations that create new products and in turn generate new employment and tax revenue thus playing a critical role in surviving the economic crisis The expert contributors explore the diverse conditions that explain permit and support entrepreneurship allowing thinking outside the box and enhancing breakthrough innovations At a time when new challenges relating to the ecological footprint are appearing this work will prove crucial The eclectic approaches to entrepreneurship within this book gathered from different countries and fields of research will prove to be hotly sought after by researchers and postgraduate students of entrepreneurship and social policy *Entrepreneurship-Professionalism-Leadership* Moon-Ho Ringo Ho, Jeffrey C.

Kennedy, Marilyn A. Uy, Kim-Yin Chan, 2020-06-11 This book updates the theory and brings together empirical research based on the multidimensional entrepreneurship professionalism leadership EPL framework for subjective career space It also discusses the extension of the original person centred framework to other levels of analysis for example ways of considering the EPL human capital capacities of an organisation city or even nation By providing insights into the development of EPL motivations and efficacies over time the book helps readers appreciate the application of the EPL framework in a wider range of contexts such as research innovation enterprise healthcare and pre university settings It also shows how EPL research contributes to a better understanding of leadership and entrepreneurial development *Entrepreneurship and New Value*

Creation Alain Fayolle, 2007-11-22 Why do some individuals decide they want to create businesses and then actually do so Why do others decide against this course of action even though they appear to have what it takes to succeed These two questions were among the first that researchers in the field of entrepreneurship tried to answer Recently it seems that the problem is much more difficult to solve than it first appeared thirty years ago The venture creation phenomenon is a complex one covering a wide variety of situations The purpose of this book is to improve our understanding of this complexity by offering both a theory of the entrepreneurial process and practical advice on how to start a new business and manage it effectively Entrepreneurship and New Value Creation is a fascinating research driven book that will appeal to graduate students researchers and reflective practitioners concerned with the dynamics of the entrepreneurial process
