(With a focus on entrepreneurship, skills, interests, and passions)

Choosing a Business Name

Now that you've selected the type of business you'd like to start, it's time to choose a name! There are many things to consider when choosing a name for your business. You can use your creativity and imagination to come up with a name that is unique, memorable, and easy to pronounce. You can also use online tools to generate business names for you.

Brainstorming

Brainstorming is a creative process that involves generating ideas for your business name. You can do this by writing down all the words and phrases that come to mind, no matter how silly or outlandish they may seem. You can then look for patterns and connections between the words and phrases to come up with a name.

Write down your ideas

Designing a Logo

A logo is a visual representation of your business. It can be a symbol, a word, or a combination of the two. A good logo is simple, memorable, and easy to recognize. You can design a logo yourself or hire a professional to do it for you.

Use the space below to brainstorm ideas for your logo. Write down any words, phrases, or symbols that come to mind. You can also draw a rough sketch of your logo.

***Note that you are done creating a logo. It is time to finalize your design. Create a logo in Microsoft Word, Pages (for Mac), or Google Docs. Save the logo as a PDF file. Upload the logo to your website.

Donating Proceeds

When you donate part of your proceeds to a charity, you are helping to make a difference in the world. You can choose to donate to a local charity or a national charity. You can also choose to donate to a specific cause, such as education or the environment.

1. Think about a charity organization or cause that is important to you.
2. Research the charity organization or cause to make sure it is a good fit for your business.
3. If you are interested in donating part of your proceeds to a charity, you will need to set up a separate bank account for the charity.
4. If you make \$1000, how much of that will you donate? (percentage from problem 3) Write a decimal percentage. Multiply it by 1000.
5. How often will you donate your proceeds? (frequency)

Pricing

When you start a business, you need to set prices for your products or services. There are many factors to consider when setting prices, such as the cost of your materials, the time it takes to produce your products, and the market demand for your products. You can use online tools to help you set prices.

How do you calculate the cost of your materials? How much time does it take to produce your products? How much do you want to make on each product?

What is your target market?

How much will you make?

How much will you lose?

How much will you profit?
