Bureau of Agricultural Economics. Library,1937      Making Trieste Italian, 1918-1954 Maura Elise Hametz,2005 Traces the changing identity and ownership of the important city of Trieste in a turbulent period The port of Trieste standing at a crucial strategic point at the head of the Adriatic had a turbulent history in the mid twentieth century With the disappearance of the Habsburg empire after the First World War it passed into Italian hands During the Second World War the Nazis reclaimed the city as part of the Reich In 1945 Trieste slipped through Tito s fingers and was internationalised under Allied military government control returning to Italian sovereignty in 1954 This book examines Trieste s transformation from an imperial commercial centre at the crossroads of the Italian German and Balkan worlds to an Italian border city on the southern fringe of the iron curtain Concentrating on local sources the book shows how Triestines renowned for their cosmopolitan Central European affiliations articulated an Italian civic identity after the First World War and traces the fitful process of affirming Trieste s Italianness over the course of nearly

four decades of liberal Fascist and international rule It suggests that Italianisation resulted from complicated interactions with Rome and interference by international powers attempting to strengthen western Europe at the edge of the Balkans

**Agricultural Economics Literature** ,1937      **Global Business** Mark Casson,2023-09-06 This fascinating book examines international business and multinational enterprise as part of a bigger picture considering the importance of two main components space and time Summarising the past five years Mark Casson reviews the changing role of multinational enterprises within the global economy and how leading firms have generated profitability and growth not only from innovations in technology and marketing but also by exploiting legal loopholes in tax and regulatory systems

**Nationalism** Paul Lawrence,2016-09-17 Massive changes have taken place in the way nations and nationalism are thought about From being viewed enthusiastically by historians as a force for beneficial change before the First World War today appeals to national sentiment are viewed as far more complex and problematic This book looks at how historians and others such as sociologists and political theorists have explained the development and enduring importance of national identities from c 1850 to the present day It compares and contrasts a wide range of different theories and will be useful for anyone wanting to equip themselves with a theoretical understanding of why we live in nations and why we invest them with such significance
