Environmental Action Programme For Central And Eastern Europe Setting Priorities:

Environmental Action Programme for Central and Eastern Europe Richard Ackermann, 1998 Despite efforts by Central and Eastern European CEE countries to tackle environmental problems there are still a number of serious environmental problems that require immediate and urgent action The Environmental Action Programme EAP provides a framework and guide for identifying the highest priority problems and for developing realistic efficient and cost effective solutions This book describes the features of the road strategy and action framework that EAP represents Annexes provide summaries of topics such as human health problems and pollution hot spots the impact of economic reform and industrial restructuring and priorities for environmental expenditure Boxes discuss nitrates in drinking water in Romania short term threats to the environment in Russia and debt for environment swaps in Poland Setting Priorities Environmental Action Programme for Central and Eastern Europe, 1998 Despite efforts by Central and Eastern European CEE countries to tackle environmental problems there are still a number of serious environmental problems that require immediate and urgent action The Environmental Action Programme EAP provides a framework and guide for identifying the highest priority problems and for developing realistic efficient and cost effective solutions This book describes the features of the broad strategy and action framework that EAP represents Annexes provide summaries of topics such as human health problems and pollution hot spots the impact of economic reform and industrial restructuring and priorities for environmental expenditure Boxes discuss nitrates in drinking water in Romania short term threats to the environment in Russia and debt for environment swaps in Poland *Environmental Action Programme for Central and Eastern Europe* World Bank, 1993 **Environmental Issues in Central and Eastern Europe** United States. General Accounting Office, 1994 *Environmental Problems in East-Central Europe* Frank Carter, David Turnock, 2002-09-26 In this new edition the progress made in the last decade to solve the environmental problems described in the first edition is assessed The attempts to bring environmental legislation into line with West European norms is also described Environmental Problems of East Central Europe looks at air and water pollution modern farming water supplies waste management and landscape protection These topics are placed within economic social and political profiles as spending on a clean environment must be reconciled with welfare spending and the safeguarding of jobs European Union assistance civil society and the work of environmental NGOs are also discussed All of these matters are considered within the context of the wider geographical area and then by each individual country including the previously communist states lying to the west of the Soviet Union now with the former federal states of Czechoslovakia and Yugoslavia broken up into seven different entities and a review of the former Soviet Union with particular reference to the Baltic States Environmental Problems in East Central Europe provides a wealth of up to date reference material with a vast amount of supporting literature on environmental conditions and the functioning of civil society and a map of each country The environment is being taken seriously by them all such is the influence of the Rio sustainability agenda in general and the EU

environmental acquis in particular The book reveals that Eastern Europe is not a blighted area but in some respects has a higher biodiversity than Western Europe Although there is enormous waste and inefficiency in energy use people actually consume relatively little and the East therefore has some lessons for the West in terms of managing on the basis of fair share of the earth's resources Environment and Health in Central and Eastern Europe Clyde Hertzman, 1995-01-01 This report draws on lessons learned in urban development lending to build a conceptual framework for improving the delivery of services This framework looks beyond local governments alone as the cause of poor performance and points toward reforming the incentives they face The report examines key issues in service delivery such as the need to clarify the division of functional responsibilities between levels of government to make revenue sources correspond to functional responsibilities and to establish a governmental system that balances central regulation with local incentives for responding to constituents The book seeks to begin a global dialog on ways of improving urban service delivery and to serve as a catalyst for further learning from the rich experience of reform underway in many developing countries The issues addressed in the report especially pertain to countries undertaking decentralization Also available French ISBN 0 8213 3314 3 Stock No 13314 Spanish ISBN 0 8213 3315 Stock No 13315 **Economic Analysis of Environmental Impacts** John Dixon, Louise Scura, Richard Carpenter, Paul Sherman, 2013-11-05 This revised and updated guide to the environmental economics of development projects demonstrates how the environmental impacts of projects can be translated into monetary values The theoretical bases are examined and the techniques themselves given detailed exposition supported by extensive case studies illustrating a wide range of applications The text should become a useful complement to all standard forms of project analysis

Environment in the Transition to a Market Economy Progress in Central and Eastern Europe and the New Independent States OECD, 1999-10-14 This book provides a coherent analysis of the environmental challenges and achievements in institutional strengthening and policy reform environmental policy instruments environmental financing and environmental management in enterprises in transition countries *Back To Europe* Karen Henderson, 2005-10-09 As The European Union Opens Negotiations On Membership With Five Of The Ten post communist states who have applied this book looks at some of the challenges presented by Eastern enlargement not only to existing member states and European institutions but also to the Central and Eastern European countries themselves The approach is interdisciplinary and brings together contributions from academic specialists on security and international relations European institutions the economics of European integration and the domestic politics of Central and Eastern Europe The book has been structured to provide a clear and comprehensive introduction to the topic for students taking a range of courses including European integration the politics of post communist democracies and Europe's post Cold war order At the same time it will be accessible to more general readers with an interest in European Union affairs while presenting research to specialists in the area *A Regional Approach to Industrial Restructuring in the Tomsk Region, Russian Federation* OECD, 1998-10-07 At the invitation of the regional

authorities the OECD organised a conference in Tomsk on a regional approach to industrial restructuring in June 1997 This report presents the economic assessment conference conclusions and recommendations **Assisting Russia's Transition** Gianni Zanini,2002-01-01 This evaluation assesses the development effectiveness of the World Bank s lending and non lending assistance to the Russian Federation since 1991 a 10 year period of tumultuous political economic and social change This report concludes that an assistance strategy concentrating on analytical and advisory services with limited financial support for Russia would have been more appropriate than one involving large volumes of adjustment lending

Environmental Management in Eastern Europe, Caucasus and Central Asia OECD,2005-04-20 This book brings together the findings of key sector and media specific analyses of the environment in the Eastern Europe Caucasus and Central Asia area and puts forth a set of indicators to provide a one stop concise and up to date assessment accessible also to a non specialist audience **Towards a War-free World** Joseph Rotblat,1995 The book focuses on subjects of nuclear

disarmament the reduction and control of conventional weapons the arms trade future roles of the UN regional confidence building measures global governance sustainable use of resources and ethical challenges in the modern era all of which related to the ultimate goal of eliminating war **U.S. Assistance to Central and Eastern Europe** United States.

Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East,1993 **Getting to Grips with Green Plans** Barry Dalal Clayton,2013-12-19 One of the more significant recommendations to emerge from UNCED in 1992 was the call in Agenda 21 for countries to develop and implement national sustainable development strategies Most countries have responded to this challenge However many countries also have a long history of drawing up planning exercises at this level to deal with environmental problems Green planning is now used as a shorthand term for a range of such national level planning initiatives covering both sustainable development and environmental concerns and countries from the North and the South can benefit from a pooling of knowledge Getting to Grips with Greens Plans presents a cogent analysis of industrial countries experiences in this area drawing out lessons and observations from broad empirical experience Part 1 provides an overview of national green planning reviewing its origins and scope identifying popular approaches and common processes highlighting important issues such as participation the influence of domestic politics and the track record of more ambitious regional plans and comparing approaches in developed and developing countries Part 2 goes on to present a series of detailed case studies drawn largely from interviews with key individuals responsible for coordinating national green planning processes These cases come from a range of Western and Eastern European countries the US and Canada and Australia and New Zealand Some of these case studies show impressive records of achievement whilst others demonstrate potential stumbling blocks All demonstrate the difficulty of putting the concept of sustainable development into practice Barry Dalal Clayton is director of the Environmental Planning Group at the International Institute for Environment and Development London In recent years Dr Dalal Clayton has been deeply involved in analyzing approaches

to national sustainable development strategies and environmental action plans in many countries and in advising governments and international agencies in this field His other current research interests include environmental impact assessment community based wildlife management and land use planning Originally published in 1996 **Managing Green Teams** John Moxen, Peter Strachan, 2017-09-20 To reach environmental excellence organizations must unlock and channel the ideas and energies of their staff This can only be achieved through the effective leadership and commitment of senior managers and the development of sound teamworking throughout the organization To this end forward looking organizations have formulated a range of teams including environmental steering committees environmental action teams process improvement teams and quality and environment circles The aims of this book are to bring together practical experiences and theoretical developments in relation to the role of teamworking within the context of environmental management Contributions from an international group of leading practitioners and academics present examples of how teamworking can be utilised to solve the complex and uncertain environmental challenges that organisations face The book is divided into three key sections The first section examines in a number of different organizational contexts the problems that confront managers during the process of forming and developing environmental teams In the second section the book examines how environmental teams can trigger changes in core operations and integrate environmental concerns in business decision making at every level in the organization In the final section the focus of the book shifts to environmental networks and their role as inter organizational co ordinators *Managing Green Teams* Environmental Change in Organisations and Networks will be of particular interest to educationalists consultants and practitioners Teamworking is a well established field but to date no book has made any attempt to fully integrate teamworking and environmental issues *Public Finance Reform During the Transition* Lajos Bokros, Jean-Jacques Dethier, 1998-01-01 Public finance reform is simultaneously a process of fiscal adjustment and structural reforms in the public sector Under socialist rule Hungary s concept of public finance was nebulous since there was no clear delineation between private and public sectors As a transition country structural reforms were aimed at creating not only sustainable institutional arrangements but were aimed at creating a government sector adapted to a market economy as well The former socialist states were forced into abrupt transitions and there was little time for minds and institutions to adapt This volume aims to provide a comprehensive description of Hungary s experience of public finance reform in a former socialist economy including a history of the reform process an empirical analysis of trends in public spending and revenues evidence of Hungary s ability to move towards accession to the European Union EU a description of policy reforms in the public welfare system an analysis of the reforms in key aspects of the institutional framework and an examination of the tax system **Central and South-Eastern Europe 2003** Europa Publications, 2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and companies and political profiles *Guide to Sustainable*

Development and Environmental Policy Natalia Mirovitskaya, William L Ascher, 2001 A compilation of definitions terms and critical commentary on aspects of sustainable development and environmental policy with a strong emphasis on policy tools policy practices and systems of international environmental governance

The Global Environmental Benefits of Land Degradation Control on Agricultural Land Stefano Pagiola, 1999-01-01 This book focuses on the global effects of land degradation but emphasizes other important levels of land degradation at the field level it may result in reduced productivity at the national level it may cause flooding and sedimentation and at the global level it can contribute to climate changes damaging bio diversity and international waters The effects on climate changes are explored and the report questions the extent to which land degradation on agricultural land affects climate change Does it increase emissions of greenhouse gases Does it affect land s capacity to serve as a carbon sink Can appropriate management enhance both land s productivity and its capacity to store carbon The carbon cycle in soils is analyzed indicating land degradation is likely to reduce the ability of soils to serve as carbon sink and release stored carbon into the atmosphere and bio diversity effects are likely to be adverse Global benefits of land degradation control include afforestation to allow increased carbon sequestration and provide adequate bio diversity habitats and community based wildlife management can provide alternatives to some marginal areas Although integrating global dimensions into land degradation control projects may reverse the field level or national problems it is causing difficulties and constraints will likely contribute to the failure of these projects
