## **Environmental Coastal Regions Iii Hc :**

**An Ecological Characterization of the Pacific Northwest Coastal Region: Characterization atlas-watershed unit descriptions** ,1980     Final Environmental Impact Statement United States. Bureau of Land Management,1980

**Environmental Courts and Tribunals** Ceri Warnock,2021-01-07 The global phenomenon of the establishment of specialist courts is one of the most important recent developments in environmental law Although they are generally seen as a much needed innovation they do pose challenges particularly around questions of legitimacy This important book tackles these questions directly looking specifically at the courts in the common law world It argues that to fully understand the nature of the adjudication of these courts a bottom up approach must be taken ie the question before the court is determinative Despite its theoretical focus the book will also provide invaluable insights to practitioners engaging with these new courts for the first time An innovative study on a seismic change in how environmental law is adjudicated     Inventory of Federal Energy-related Environment and Safety Research for ... ,1978     **Spatial Modeling and Assessment of**

**Environmental Contaminants** Pravat Kumar Shit,Partha Pratim Adhikary,Debashish Sengupta,2021-02-05 This book demonstrates the measurement monitoring and mapping of environmental contaminants in soil sediment surface groundwater and atmosphere This book explores state of art techniques based on methodological and modeling in modern geospatial techniques specifically focusing on the recent trends in data mining techniques and robust modeling It also presents modifications of and improvements to existing control technologies for remediation of environmental contaminants In addition it includes three separate sections on contaminants risk assessment and remediation of different existing and emerging pollutants It covers major topics such as Radioactive Wastes Solid and Hazardous Wastes Heavy Metal Contaminants Arsenic Contaminants Microplastic Pollution Microbiology of Soil and Sediments Soil Salinity and Sodidity Aquatic Ecotoxicity Assessment Fluoride Contamination Hydrochemistry Geochemistry Indoor Pollution and Human Health aspects The content of this book will be of interest to researchers professionals and policymakers whose work involves environmental contaminants and related solutions     *U.S. Government Research & Development Reports* ,1970

Scientific and Technical Aerospace Reports ,1994     **Proposed 1981 Outer Continental Shelf Oil and Gas Lease Sale Offshore Central and Northern California, OCS Sale No. 53** United States. Bureau of Land Management. Pacific Outer Continental Shelf Office,1980 Proposed OCS Sale No 53 includes a maximum offering of 242 tracts for oil and gas leasing offshore central and northern California Tracts comprise 532 258 hectares 1 315 205 acres on the Federal OCS ranging seaward from 3 to as far as 27 miles and lying in water depths from 50 to 750 meters 162 to 2 437 feet Tracts comprise five distinct subareas extending from waters opposite Humboldt Bay in northern California to offshore waters opposite Point Conception in central California There are no Federal oil and gas leases in the area at present Very minor exploratory drilling has occurred in some areas previously Because it is frontier area the exact extent of oil and gas resources

which might be present is somewhat uncertain The U S Geological Survey estimates the most probable resource amounts at 548 million barrels of oil and 621 billion cubic feet of gas Four of the subareas are regarded as oil prone while all five are regarded as also likely containing gas Pending final decision by the Secretary of the Interior the proposed lease Sale is tentatively scheduled for May 1981 *Global status of salt-affected soils* FAO,2024-12-10 Salt affected soils characterized by high soluble salts saline or exchangeable sodium sodic impact plant growth and occur globally especially in arid and coastal regions Salinization stems from natural causes e g climate change sea level rise and human actions e g poor irrigation practices excessive water use FAO s Global Map of Salt Affected Soils reveals that over 1 381 million hectares 10 7 percent of global land are affected with Australia Argentina and Kazakhstan among the most impacted countries Increasing aridity and water demand amplify soil degradation risks particularly in developing regions Climate change and water scarcity threaten agricultural productivity with substantial crop yield losses observed in saline areas Halophytes and salt tolerant crops provide a foundation for saline agriculture yet many salt affected soils remain unprotected and inadequately regulated FAO s INSAS International Network of Salt Affected Soils underscores the need for updated data harmonized salinity measurements and sustainable management practices with enhanced training and policy frameworks Mitigation strategies like improved drainage soil amendments and the cultivation of salt tolerant plants are recommended Key recommendations include scaling sustainable practices investing in salt tolerant crop markets improving data collection and water quality monitoring conserving ecosystems and fostering cross sector collaboration Such integrated efforts aim to boost food production and resilience in affected regions while protecting vital ecosystems Beaufort Sea Lease Sale No.97 ,1987

Proposed 1981 Outer Continental Shelf Oil and Gas Lease Sale Offshore Central and Northern California ,1980 *The Influence of Geographic Environment on the Lower St. Lawrence* Ellen Churchill Semple,1904 **Feminist Judgments of Aotearoa New Zealand** Elisabeth McDonald,Rhonda Powell,Mamari Stephens,Rosemary Hunter,2017-11-30 This edited collection asks how key New Zealand judgments might read if they were written by a feminist judge Feminist judging is an emerging critical legal approach that works within the confines of common law legal method to challenge the myth of judicial neutrality and illustrate how the personal experiences and perspectives of judges may influence the reasoning and outcome of their decisions Uniquely this book includes a set of cases employing an approach based on mana wahine the use of Maori values that recognise the complex realities of Maori women s lives Through these feminist and mana wahine judgments it opens possibilities of more inclusive judicial decision making for the future This Project stops us in our tracks and asks us how could things have been different At key moments in our legal history what difference would it have made if feminist judges had been at the tiller By doing so it raises a host of important questions What does it take to be a feminist judge Would we want our judges to be feminists and if so why Is there a uniquely female perspective to judging Professor Claudia Geiringer Faculty of Law Victoria University of Wellington With this book some of our leading jurists expose the biases and

power structures that underpin legal rules and the interpretation of them Some also give voice to mana wahine perspectives on and about the law that have become invisible over time perpetuating the impacts of colonialism and patriarchy combined on Maori women I hope this book will be a catalyst for our nation to better understand and then seek to ameliorate these impacts Dr Claire Charters Associate Professor Faculty of Law University of Auckland The work is highly illuminating and is critical to the development of our legal system It is crucial not only for legal education so that students of the law open their minds to the different ways legal problems can be conceptualised and decided It is also crucial if we are going to have a truly just legal system where all the different voices and perspectives are fairly heard Professor Mark Henaghan Dean of the Faculty of Law University of Otago I believe this project is particularly important as few academics or researchers in New Zealand concentrate on judicial method I am therefore hopeful that it will provoke thoughtful debate in a critical area for society The Honourable Justice Helen Winkelmann New Zealand Court of Appeal
