The Challenges of Dam Removal and River Restoration Jerome V. DeGraff, James Erwin Evans, 2013-02-01 River restoration is a societal goal in the United States This collection of research articles focuses on our current understanding of the impacts of removing dams and the role of dam removal in the larger context of river restoration The papers are grouped by topic 1 assessment of existing dams strategies to determine impounded legacy sediments and evaluating whether or not to remove the dam 2 case studies of the hydrologic sediment and ecosystem impacts of recent dam removals 3 assessment of river restoration by modifying flows or removing dams and 4 the concept of river restoration in the context of historical changes in river systems Provided by publisher *The Protection of Ground and Surface Waters, January 1982-August 1987*, 1988 **Quick Bibliography Series**, 1976 Herbicides, Ecological Effects Jayne T. MacLean, 1991 Library of Congress Catalogs Library of Congress, 1980 Bibliography of Agriculture with Subject Index, 1993-03 **Nature, Temporality and Environmental Management** Lesley Head, Katarina Saltzman, Gunhild Setten, Marie Stenseke, 2016-08-05 How are different concepts of nature and time embedded into human practices of landscape and environmental management And how can temporalities that entwine past present and future help us deal with challenges on the ground In a time of uncertainty and climate change how much can we hold onto ideals of nature rooted in a pristine and stable past The Scandinavian and Australian perspectives in this book throw fresh light on these questions and explore new possibilities and challenges in uncertain and changing landscapes of the future This book presents examples from farmers gardens and Indigenous communities among others and shows that many people and communities are already actively engaging with environmental change and uncertainty The book is structured around four themes environmental futures mobile natures indigenous and colonial legacies heritage and management Part I includes important contributions towards contemporary environmental management debates yet the chapters in this section also show how the legacy of older landscapes forms part of the active production of future ones Part II examines the challenges of living with mobile natures as it is acknowledged that environments natures and people do not stand still An important dimension of the heritage and contemporary politics of Australia Sweden and Norway is the presence of indigenous peoples As is clear in part III the legacies of the colonial past both haunt and energise contemporary land management decisions Finally part IV demonstrates how the history and heritage of landscapes including human activities in those landscapes are entwined with contemporary environmental management The rich empirical content of the chapters exposes the diversity of meanings practices and ways of being in nature that can be derived from cultural environmental research in different disciplines The everyday engagements between people nature and temporalities provide important creative resources with which to meet future challenges *Agriculture Toward Net Zero Emissions* Sandeep Kumar, Ram Swaroop Meena, 2025-03-27 *Agriculture Toward Net Zero Emissions* explores how agriculture has historically contributed to carbon emissions and then takes the reader forward offering insights

into an integrated approach to reducing those emissions toward the COP26 goal The dual challenge of increasing production to meet population and nutrition food demands while reducing the traditional emissions generated by production practices is significant It requires understanding the foundation of current practices and then revising those underlying principles to reflect the resources and greater insights of today This book provides an overview of the current state of the science explores the development of policies and plans to improve carbon management and provides examples of technology and agroecosystem management practices It includes the latest updates in carbon neutral farming carbon and energy management and addresses the knowledge gap between input management livestock management and agroecosystem management Advancing agroecosystem science through a roadmap for improving capacity Agriculture Toward Net Zero Emissions is a valuable resource for those seeking to develop and apply new agricultural best practices Provides insights into agriculture s role in reaching Sustainable Development Goals through improved practices Includes diverse agroecosystems for broad and translational insights and applications Promotes transition to cleaner energy sources including the role of regulation *Water-resources Investigations Report* ,2003 *Forage Legumes* Jayne T.
