Environmental Problems Of The Borderlands:

Environmental Problems of the Borderlands Howard G. Applegate, 1979 **Environmental Problems Along the U.S.-Mexico Borderlands** Gail Clarke, 1982 *The Colonias Reader* Angela J. Donelson, Adrian X. Esparza, 2016-10-15 The colonias of the U S Mexico border form a loose network of more than 2 500 settlements ranging in size from villages to cities that are home to over a million people While varying in size all share common features wrenching poverty substandard housing and public health issues approaching crisis levels This book brings together scholars professionals and activists from a wide range of disciplines to examine the pressing issues of economic development housing and community development and public and environmental health in colonias of the four U S Mexico border states The Colonias Reader is the first book to present such a broad overview of these communities offering a glimpse into life in the colonias and the circumstances that allow them to continue to exist and even grow in persistent poverty The contributors document the depth of existing problems in each state and describe how government agencies nongovernmental organizations and community activists have mobilized resources to overcome obstacles to progress More than reporting problems and documenting programs the book provides conceptual frameworks that tie poverty to institutional and class based conflicts and even challenges the very basis of colonia designations Most of these contributions move beyond portraying border residents as hapless victims of discrimination and racism showing instead their devotion to improving their own living conditions through grassroots organizing and community leadership These contributions show that despite varying degrees of success all colonia residents aspire to a livable wage safe and decent housing and basic health care The Colonias Reader showcases many situations in which these people have organized to fulfill these ambitions and provides new insight into life along the border *The U.S.-Mexican Border Environment* Paul Ganster, 2000 **The Routledge Research Companion to Border Studies** Doris Wastl-Walter, 2016-04-01 Throughout history the functions and roles of borders have been continuously changing They can only be understood in their context shaped as they are by history politics and power as well as cultural and social issues Borders are therefore complex spatial and social phenomena which are not static or invariable but which are instead highly dynamic This comprehensive volume brings together a multidisciplinary team of leading scholars to provide an authoritative state of the art review of all aspects of borders and border research It is truly global in scope and besides embracing the more traditional strands of the field including geopolitics migration and territorial identities it also takes in recently emerging topics such as the role of borders in a seemingly borderless world creating neighbourhoods and border enforcement in the post 9 11 era **The U.S.-Mexican Border Today** Paul Ganster, Kimberly Collins, 2021-03-10 This comprehensive survey systematically explores the dynamic historic and contemporary interface between Mexico and the United States along the shared 1 954 mile international land boundary Now fully updated and revised the book provides an overview of the history of the region and traces the economic cycles and social movements from the 1880s through the

second decade of the twenty first century The border region shares characteristics of both nations while maintaining an internal social and economic coherence that transcends its divisive international boundary The authors conclude with an in depth analysis of key contemporary issues These include industrial development and manufacturing bilateral trade the United States Mexico Canada Agreement rapid urbanization border culture population and migration issues environmental crisis and climate change Native Americans cooperation and conflict at the border drug trafficking and violence the border wall and security populist national leaders and the border and the Covid 19 pandemic at the border They also place the border in its global context examining it as a region caught between the developed and developing world and highlighting the continued importance of borders in a rapidly globalizing world Richly illustrated with photographs maps charts and up to date statistical tables this book is an invaluable resource for all those interested in borderlands and U S Mexican relations

Handbook of Global Environmental Policy and Administration Dennis Soden,Brent R. Steel,1999-07-16 Presenting case studies involving Rwanda Nepal Australia Japan and Mexico including real time policy and administrative questions this versatile reference text provides a wide perspective on national and international environmental problems and policies featuring discussions with a regional emphasis as well as global significance Pooling the work of over 60 international contributors in disciplines ranging from anthropology to political science the Handbook of Global Environmental Policy and Administration illustrates how environmental concerns are incorporated into administrative functions and policy processes

The U.S.-Mexican Border Environment Erik Lee,Paul Ganster,2012 **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 The Maya Forest Waterlands Hanna Laako,Edith Kauffer,2025-02-12 This book examines the entanglements and blurred edges of nature conservation and geopolitical relations in the borderlands of the trinationl Maya Forest Maya Forest is an umbrella term for transboundary conservation developed by scientists and conservationists in the 1990s to protect the threatened rainforest in the borderlands of Mexico Belize and Guatemala Currently the Maya Forest is a biodiversity hotspot composed of a network of protected areas and heritage sites However issues related to water land and forests have often been treated as separate political units and not as part of the same history Written by two authors with decades of hands on experience in this region this book sheds light on the complex dynamics by which conservation and natural resource management geopolitically shape borderlands such as the Maya Forest The book introduces the novel concept of forest waterlands as borderlands and fluid edges which are now subject to concern by conservationists These are entangled spaces in which conservation peoples and politics interact connect and disconnect with the nexus of waters forests and lands The book sheds light on the building and mapping of the Maya Forest ecoregion with particular attention to water as an often neglected but unifying element It showcases how the Maya Forest is a distinct region characterized by transformations entangled with the Maya trails of biological stations the shared history of chicleros chewing gum hunters fluid international rivers and transboundary basins and various geopolitical

discrepancies It offers a contemporary glimpse into the Maya Forest's intertwined bio and geopolitics which urge us to rethink borders and boundaries This book will be of great interest to students and scholars of nature conservation global environmental politics geopolitics borderlands international relations and natural resource management Environmental Challenges and Governance Sacchidananda Mukherjee, Debashis Chakraborty, 2015-03-02 The economies located in East South and Southeast Asia have witnessed an interesting growth sustainability trade off over the last decades While growth considerations have paved ways for deepened ties with growing trade investment waves and increasing population pressure necessitated exploitation of hitherto unutilized natural resources focus on environmental sustainability has been a recent consideration The growth impetus still playing a key role in these economies it becomes imperative that the countries effectively address the key sustainability concerns e g air and water pollution land degradation loss of biodiversity climate change issues like CO2 emissions etc But how prepared is the governance mechanism of these countries covering not only the legislative and administrative framework but also involvement of the judiciary presence of spirited civil society and active engagement of stakeholders in policy framing dialogues to rise up to these challenges The book seeks an answer to this question through the environmental governance mechanism and natural resource conservation policies in three vibrant regions within Asia A holistic development dimension of sustainable development path emerges through discussion of policies adopted by developed Japan South Korea upper middle China Malaysia developing India Indonesia Philippines Sri Lanka Thailand and least developed countries Bangladesh Myanmar Nepal *Decentralization of Mexican Environmental and Water Policy* Donna L. Lybecker, 2003 **Transboundary Policy Challenges in the Pacific Border Regions of North America** Donald K. Alper, John Chadwick Day, James Loucky, 2008 Transboundary Policy Challenges responds to a growing interest in borderlands environmental policy by highlighting significant transboundary research and practices being undertaken within and across the Pacific border regions of North America Growing concern about the seriousness of environmental problems particularly in high growth border areas coupled with the rising awareness of the complexities entailed in wise development decisions has spurred recognition that new realities require new responses Critical for effective environmental protection restoration and education is a sharing of understanding and effort across borders Transboundary Policy Challenges advances transborder environmental research and discusses sensible policy directions with particular focus on critical areas of international concern and engagement land and water use planning regional growth management trade and transportation corridors environmental education and travel and tourism Contributors to the volume represent a range of disciplines as well as institutions in Canada the United States and Mexico **NAFTA in Transition** Stephen J. Randall, Herman W. Konrad, 1995 This volume provides a comprehensive analysis of the economic social cultural and political dimensions of the evolving trilateral relationship among the three countries of North America Contributors address such topics as energy the environment trade labour the maquiladora industrial sector of Mexico the Mexican auto industry and

Canada U S cultural relations While other publications have focused on U S issues this one emphasizes Canada and Mexico yet adds significantly to our understanding of the place of the United States in this evolving trilateral relationship

Participatory Networks and the Environment Fadia Hasan, 2018-10-03 Seeking innovative answers to global sustainability challenges has become an urgent need with the onslaught of environmental and ecological degradation that surrounds us today More than ever there is a need to carve new ways for citizens and different industries and institutions to unite to cooperate communicate and collaborate to address growing global sustainability concerns This book examines one such global collaboration called The BGreen Project BGreen a transnational participatory action research project that spans the United States and Bangladesh with the aim of addressing environmental issues via academic community engagement By analysing and unpacking the architecture of BGreen Hasan teases out the key factors that are required for the continued momentum of environmentally focused academic community partnership projects in order to present a workable model that could be applied elsewhere This model is based around a unique conceptual framework developed by the author transnational participatory networks which is drawn from participatory action research and actor network theory with the specific aim of addressing the common challenge of building evolving stable and sustainable networks This book will be of great interest to students and scholars of environmental communication citizen participation environmental politics environmental sociology and sustainable development

Lessons from Regional Responses to Security, Health and Environmental Challenges in Latin America Ivo Ganchev, 2024-01-23 What is the role of regional organizations in maintaining security across different parts of Latin America and the Caribbean LAC How did COVID 19 impact states in the region and what types of collective action have helped respond to public health emergencies In what way is LAC environmental policy formulated and what broader lessons can be drawn for the Global South This edited volume addresses these questions revealing the reasons behind the successes and failures of LAC regional responses to collective challenges as well as their limitations and potential for future improvement It contains 11 chapters authored by 16 authoritative academics who employ methodologically diverse perspectives Each chapter provides insights that would be of interest to scholars students and policy makers working on the regional governance of LAC and the Global South The contributions are thematically organised in three parts and produced with pragmatic considerations in mind discussing existing and potential real solutions to pressing issues

Cooperation, Environment, and Sustainability in Border Regions Paul Ganster, 2001

Globalization, Marginalization and Conflict Borna Fuerst-Bjeliš, Walter Leimgruber, 2020-10-21 This book looks at marginality from a less conventional perspective by analyzing complex social cultural political and economic relations between the aspects of globalization and various forms of marginalization It focuses specifically on the conflict potential that results from the globalization driven inequality and marginalization of many segments of societies This view is further illustrated in sections on border regions identity issues minorities and poverty The book gives a comprehensive but in depth

analysis of the various aspects of the relations between globalization marginalization and conflict issues based on a number of case studies and regions worldwide It shows how the same issues of globalization and marginalization manifest themselves in different ways under different circumstance obviously requiring different solutions Based on original research this book provides new insights on the globalization marginalization relations and a good resource to academics scientists and students in various fields of social political science and humanities *Immigrants in American History* Elliott Robert

Barkan,2013-01-17 This encyclopedia is a unique collection of entries covering the arrival adaptation and integration of immigrants into American culture from the 1500s to 2010 Few topics inspire such debate among American citizens as the issue of immigration in the United States Yet it is the steady influx of foreigners into America over 400 years that has shaped the social character of the United States and has favorably positioned this country for globalization *Immigrants in American History* Arrival Adaptation and Integration is a chronological study of the migration of various ethnic groups to the United States from 1500 to the present day This multivolume collection explores dozens of immigrant populations in America and delves into major topical issues affecting different groups across time periods For example the first author of the collection profiles African Americans as an example of the effects of involuntary migrations A cross disciplinary approach derived from the contributions of leading scholars in the fields of history sociology cultural development economics political science law and cultural adaptation introduces a comparative analysis of customs beliefs and character among groups and provides insight into the impact of newcomers on American society and culture *International Environmental Policy* Lynton Keith

Caldwell,Paul Stanley Weiland,1996 In this newly revised and expanded edition of the award winning *International Environmental Policy* Lynton Keith Caldwell updates his comprehensive survey of the global international movement for protection of the environment Serving as a history of international cooperation on environmental issues this book focuses primarily on the development of international agreements and institutional arrangements both governmental and nongovernmental along with the impact of science technology trade and communication on environmental policy With implications for multinational commerce population policy agriculture energy issues biological and cultural diversity transnational equity ideology and education this book takes a broad view of the policy outcomes of what may be the most important social movement of the 20th century and addresses the events and politics that have significantly affected the movement over the last twenty years and will continue to affect it into the next century
