Eliel Saarinen, Finnish-American Architect and Educator Albert Christ-Janer, 1979 *Eliel Saarinen* Albert Christ-Janer, 1984 Eliel Saarinen; Finnish-American architect and educator; revised edition A. CHRIST-JANER, **Jean Sibelius and His World** Daniel M. Grimley, 2011-08-08 New perspectives on the greatest Finnish composer of all time Perhaps no twentieth century composer has provoked a more varied reaction among the music loving public than Jean Sibelius 1865 1957 Originally hailed as a new Beethoven by much of the Anglo Saxon world he was also widely disparaged by critics more receptive to newer trends in music At the height of his popular appeal he was revered as the embodiment of Finnish nationalism and the apostle of a new musical naturalism Yet he seemingly chose that moment to stop composing altogether despite living for three more decades Providing wide cultural contexts contesting received ideas about modernism and interrogating notions of landscape and nature Jean Sibelius and His World sheds new light on the critical position occupied by Sibelius in the Western musical tradition The essays in the book explore such varied themes as the impact of Russian musical traditions on Sibelius his compositional process Sibelius and the theater his understanding of music as a fluid and improvised creation his critical reception in Great Britain and America his late style in the incidental music for *The Tempest* and the parallel contemporary careers of Sibelius and Richard Strauss Documents include the draft of Sibelius s 1896 lecture on folk music selections from a roman clef about his student circle in Berlin at the turn of the century Theodor Adorno s brief but controversial tirade against the composer and the newspaper debates about the Sibelius monument unveiled in Helsinki a decade after the composer s death The contributors are Byron Adams Leon Botstein Philip Ross Bullock Glenda Dawn Goss Daniel Grimley Jeffrey Kallberg Tomi M kel Sarah Menin Max Paddison and Timo Virtanen

Migrants, Immigrants, and Slaves George Henderson, Thompson Dele Olasiji, 1995 Through diversity America has grown strong as a nation Although all segments of the population share certain life patterns and basic beliefs there are many differences in traditional lifestyles and cultures among ethnic groups Respect for such differences is a benchmark of a democratic nation *Migrants Immigrants and Slaves* documents the fact that all American ethnic groups have been both the oppressed and the oppressors The book is written for introductory American history ethnic studies and sociology courses Special attention is given to the immigration patterns and cultural contributions of more than 50 ethnic groups Organic Design in Twentieth-Century Nordic Architecture Erik Champion, 2019-02-18 *Organic Design in Twentieth Century Nordic Architecture* presents a communicable and useful definition of organic architecture that reaches beyond constraints The book focuses on the works and writings of architects in Nordic countries such as Sigurd Lewerentz J rn Utzon Sverre Fehn and the Aaltos Aino Elissa and Alvar among others It is structured around the ideas of organic design principles that influenced them and allowed their work to evolve from one building to another Erik Champion argues organic architecture can be viewed as a concerted attempt to thematically unify the built environment through the allegorical expression of ongoing interaction

between designer architectural brief and building as process With over 140 black and white images this book is an intriguing read for architecture students and professionals alike **Modernism and American Mid-20th Century Sacred**

Architecture Anat Geva, 2018-10-08 Mid 20th century sacred architecture in America sought to bridge modernism with religion by abstracting cultural and faith traditions and pushing the envelope in the design of houses of worship Modern architects embraced the challenges of creating sacred spaces that incorporated liturgical changes evolving congregations modern architecture and innovations in building technology The book describes the unique context and design aspects of the departure from historicism and the renewal of heritage and traditions with ground breaking structural features deliberate optical effects and modern aesthetics The contributions from a pre eminent group of scholars and practitioners from the US Australia and Europe are based on original archival research historical documents and field visits to the buildings discussed Investigating how the authority of the divine was communicated through new forms of architectural design these examinations map the materiality of liturgical change and communal worship during the mid 20th century **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries

Modern Architecture and the Sacred Ross Anderson, Maximilian Sternberg, 2020-11-26 This edited volume *Modern Architecture and the Sacred* presents a timely reappraisal of the manifold engagements that modern architecture has had with the sacred It comprises fourteen individual chapters arranged in three thematic sections Beginnings and Transformations of the Modern Sacred Buildings for Modern Worship and Semi Sacred Settings in the Cultural Topography of Modernity The first interprets the intellectual and artistic roots of modern ideas of the sacred in the post Enlightenment period and tracks the transformation of these in architecture over time The second studies the ways in which organized religion responded to the challenges of the new modern self understanding and then the third investigates the ways that abstract modern notions of the sacred have been embodied in the ersatz sacred contexts of theatres galleries memorials and museums While centring on Western architecture during the decisive period of the first half of the 20th century a time that takes in the early musings on spirituality by some of the avant garde in defiance of Sachlichkeit and the machine aesthetic the volume also considers the many varied appropriations of sacrality that architects have made up to the present day and also in social and cultural contexts beyond the West *Atomic Dwelling* Robin Schuldenfrei, 2012 International scholars from architecture design urban planning and interior design here reappraise modern life in the context of practices of

dwelling over the span of the postwar period Reassessing culture and the economic and political effects on civilian life this collection looks at what role material objects interior spaces and architecture played in quelling or fanning the anxieties of modernism s ordinary denizens *The Routledge Companion to Twentieth and Early Twenty-First Century Urban Design* Jon Lang,2020-11-09 The Routledge Companion to Twentieth and Early Twenty First Century Urban Design is a fully illustrated descriptive and explanatory history of the development of urban design ideas and paradigms of the past 150 years The ideas and projects hypothetical and built range in scale from the city to the urban block level The focus is on where the generic ideas originated the projects that were designed following their precepts the functions they address and or afford and what we can learn from them The morphology of a city its built environment evolves unselfconsciously as private and governmental investors self consciously erect buildings and infrastructure in a pragmatic piecemeal manner to meet their own ends Philosophers novelists architects and social scientists have produced myriad ideas about the nature of the built environment that they consider to be superior to those forms resulting from a laissez faire attitude to urban development Rationalist theorists dream of ideal futures based on assumptions about what is good empiricists draw inspirations from what they perceive to be working well in existing situations Both groups have presented their advocacies in manifestoes and often in the form of generic solutions or illustrative designs This book traces the history of these ideas and will become a standard reference for scholars and students interested in the history of urban spaces including architects planners urban historians urban geographers and urban morphologists **Cranbrook** Kathryn Bishop Eckert,2001 The newest titles in the Princeton Architectural Press Campus Guide series take readers on an insider s tour of the University of Washington in Seattle Rice University in Houston and Cranbrook in Bloomfield Hills Michigan Beautifully photographed in full color the guides present architectural walks at three of America s finest campuses revealing the stories behind the historic and contemporary buildings gardens and works of public art The community of Cranbrook designed by Eliel Saarinen combines modernism with arts and crafts and art deco impulses more recently Steven Holl Tod Williams and Billie Tsien and Rafael Moneo have made contributions to Cranbrook s campus **Makers of 20th-Century Modern Architecture** Donald Leslie Johnson,Donald Langmead,2013-05-13 Makers of 20th Century Modern Architecture is an indispensable reference book for the scholar student architect or layman interested in the architects who initiated developed or advanced modern architecture The book is amply illustrated and features the most prominent and influential people in 20th century modernist architecture including Wright Eisenman Mies van der Rohe and Kahn It describes the milieu in which they practiced their art and directs readers to information on the life and creative activities of these founding architects and their disciples The profiles of individual architects include critical analysis of their major buildings and projects Each profile is completed by a comprehensive bibliography **Architecture INTL** Nancy Solomon,2008-05-27 On the occasion of its 150th anniversary the American Institute of Architects asked more than 70 contributors to examine the complex and evolving of the America s architects in

shaping our cities and communities Through essays vignettes and profiles illustrated with more than 560 photographs Architecture provides a look at the breath and depth of the architecture profession and points to the significant contributions architects have made in all aspects of society Most important the book demonstrates the value of applying architectural thinking to the many serious issues from global warming and homeland security to accessibility and diversity facing our world today **BOOK JACKET**

Revisiting Postmodernism Terry Farrell,Adam Nathaniel Furman,2019-06-28 Revisiting Postmodernism offers an engaging wide ranging and highly illustrated account of postmodernism in architecture from its roots in the 1940s to its ongoing relevance today This book invites readers to see Postmodernism in a new light not just a style but a cultural phenomenon that embraces all areas of life and thrives on complexity and pluralism in contrast to the strait laced single style top down inclination of its predecessor Modernism While focusing on architecture this book also explores aspects such as urban masterplanning furniture design art and literature Looking at Postmodernism through the lens of examples from around the world each chapter explores the movement in the UK on the one hand and its international counterparts on the other reflecting on the historical movement but also how postmodernism influences practices today This book offers the insider s view on postmodernism by the author a recognised pioneer in the field of postmodern architecture and a prestigious and authoritative participant in the postmodern movement **The Saarinen Door** Eliel Saarinen,1963

Architecture in Texas Jay C. Henry,1993 Written in an accessible style Henry s work places Texas architecture in the wider context of American architectural history by tracing the development of building in the state from late Victorian styles and the rise of neoclassicism to the advent of the International Style His work provides a welter of new facts both about the era s buildings and the architects who designed them and he has catalogued and described most of the important landmarks of the period Southwestern Historical Quarterly a significant contribution to the study of Texas architecture Drury Blakeley Alexander author of Texas Homes of the Nineteenth Century Texas architecture of the twentieth century encompasses a wide range of building styles from an internationally inspired modernism to the Spanish Colonial Revival that recalls Texas earliest European heritage This book is the first comprehensive survey of Texas architecture of the first half of the twentieth century More than just a catalog of buildings and styles the book is a social history of Texas architecture Jay C Henry discusses and illustrates buildings from around the state drawing a majority of his examples from the ten to twelve largest cities and from the work of major architects and firms including C H Page and Brother Trost and Trost Lang and Witchell Sanguinet and Staats Atlee B and Robert M Ayres David Williams and O Neil Ford The majority of buildings he considers are public ones but a separate chapter traces the evolution of private housing from late Victorian styles through the regional and international modernism of the 1930s Nearly 400 black and white photographs complement the text Written to be accessible to general readers interested in architecture as well as to architectural professionals this work shows how Texas both participated in and differed from prevailing American architectural traditions **Big House Little City** Benedict Zucchi,2023-09-08

Shortlisted for the Architectural Book Awards 2024 Combining architectural and urban thinking in an unusual and engaging way this book presents an integrated approach to architectural theory and design Leon Battista Alberti's assertion in his famous Renaissance treatise that the city is like a big house and the house is in turn like a little city forms the springboard for a series of reflections on architecture's relationship with urbanism and how their once intimate symbiosis unravelled by International Style Modernism can be recovered Explicit references to Alberti's house city phrase have been made by figures as diverse as the architects Louis Kahn Aldo Van Eyck Denys Lasdun and Niels Torp and novelist Italo Calvino But as the book shows thinking of buildings as little cities provides a new lens through which to reappraise the contributions of many other architects including Le Corbusier Frank Lloyd Wright Alvar Aalto Eliel Saarinen Bernard Rudofsky Hans Scharoun Leon Krier Fumihiko Maki Charles Correa and Team 10 In doing so the author identifies common themes that form an unexpected bridgehead between the urban and architectural approaches of Antiquity the Middle Ages Renaissance and 20th century The book explores buildings from across the globe including lesser known projects such as Wright's unbuilt house in Italy or Saarinen's master plan for Cranbrook Academy as well as more recent projects by Niels Torp Behnisch Architekten Sou Fujimoto Peter Barber and WOHA It concludes with practical case studies of residential health education and workplace projects from different countries fulsomely illustrated with many drawings and photographs These show how architectural design viewed through an urban lens provides a conceptual framework for breaking down the scale of large buildings and integrating them with their context And crucially these also show a very accessible way of explaining evolving designs to the intended users and eliciting their participation in the design process The book offers a compelling approach to the design of projects at all scales within an ecological perspective the sense that big and small cities and buildings must be approached holistically if we are to reverse the degradation and depletion of our habitat both natural and man made The Divided City Alan Mallach, 2018-06-12 In *The Divided City* urban practitioner and scholar Alan Mallach presents a detailed picture of what has happened over the past 15 to 20 years in industrial cities like Pittsburgh and Baltimore as they have undergone unprecedented unexpected revival He spotlights these changes while placing them in their larger economic social and political context Most importantly he explores the pervasive significance of race in American cities and looks closely at the successes and failures of city governments nonprofit entities and citizens as they have tried to address the challenges of change *The Divided City* concludes with strategies to foster greater equality and opportunity firmly grounding them in the cities economic and political realities *The American Architect*, 1926
